Re: Petition CUP 2586/Bingner Application for Transient or Tourist Lodging
Dunn/Section 23

Dear Dane County Zoning and Land Regulation Committee Members:

Tingting and Derik Bingner have petitioned for approval of transient or tourist lodging (short-term rental) for the property located at 2290 County Highway AB in the Town of Dunn (Petition CUP 2586). My husband and I own a neighboring property at 2302 County Highway AB and we oppose this petition for the following reasons:

1. Lack of Parking. There is a lack of available parking on the property to accommodate renters. When renting an entire house, many people may want to occupy the property at one time, bringing more than one vehicle. As this is a lakefront property, the renters may also bring watercraft and trailers. In the winter, renters may bring snowmobiles on trailers. The property does not have a garage and has limited surface parking along the street (see photos below). We do not want transient users parking on our neighboring yards.
2. Excessive noise - short term renters are not permanent residents and do not always respect the character of the neighborhood.
3. Single family zoning – we bought a property in a single-family zoning district, SFR-08 Single-Family Residential (small lots) Zoning District, and this commercial use violates the zoning designation.
4. Our homes are very close together – noise impacts will be compounded by the fact that most lots along County Road AB, including those immediately adjacent to the subject property, are 50' or less in width.
5. Parties – transient lodging is rented for group gatherings like bachelor parties or Badger game days where people do not want their own places suffering damage.
6. Lack of onsite supervision – the owner won't be onsite to monitor renters' behavior. Unlike a hotel, which has 24 hour supervision and is purpose-built for transient housing, this is a quiet, single-family neighborhood.

7. Safety - the neighborhood is less safe with strangers with no ties to area coming and going at all hours.
8. Unwelcome, unexpected usage – neighbors of the subject property did not invest in Lake Kegonsa property that is zoned single family residential to live next door to transient lodging. If allowed, the proposed use will affect our quiet enjoyment of our properties.

For all the above reasons, we ask that you deny this petition for transient housing.

Sincerely yours,

Patrick W. Carnahan, P.E.

Supporting Photographs:

The subject property is in the middle with the gable (pointed) roof.

There is no garage on the property and insufficient room for renter parking.

The subject property and adjacent parcels are too narrow to accommodate rental parking (including boat trailers, snowmobiles, etc) and usage. This will in all likelihood lead to parking on neighbors' lawns.
