June 16, 2021

We the residents of the Deansville area of Medina Township in Dane County Wisconsin hereby request the Medina Town Board to disallow further development and deny approval of the rezoning to allow a wedding/party barn project at 1151 Berlin Road. Approval of this commercial entity will further impact the quiet enjoyment of our residential neighborhood and create the following problems:

- Noise from live music/celebrating clients
- Parking problems which will overlap into "downtown" Deansville. The plan is to park overflow vehicles at the previous Martin's Feed Company, quite a distance from the proposed venue and right by multiple residences in "downtown" Deansville. This will add to already existing disturbances from the Barrel Inn bar clients who park there and are still enjoying their evening when returning to retrieve their vehicles after the bar closes. This will be complicated further if the Barrel Inn and the wedding/party barn are having events simultaneously.
- PortaPotties and dumpsters and the problems they create visually and possibly odor to nearby homeowners.
- Traffic and speed through "downtown" Deansville where there are small children living and playing in and around buildings which are right on the road with no grassy area of their own in which to play. Though discouraged, they could dart out into traffic at any time.
