To Whom It May Concern,

I would like to voice a grievance against Rutland Township regarding the proposal to automatically push decisions on land use issues to the Dane County Zoning Committee (ZLR). Rutland Township should be responsible for reviewing these applications with feedback from the people who live in this community and are impacted by the decisions.

I have lived in Rutland Township for almost 10 years now and I am strongly opposed to the Center Road Gravel Pit CUP. I have the right to enjoy my home without the noise, gravel truck traffic, and environmental disturbance that this will cause. This is not the right place for a new gravel pit, especially with a much larger quarry right around the corner.

Please reconsider.

Cari Sprague
