

Request for Waiver of Bid Procurement

I. Program Description and Current Operations

Date: 12/3/15

Service or Goods to be Purchased: Lubecore auto greaser

Estimated Expenditure Amount: \$3798.00 PER UNIT. 14 UNITS Total estimate \$ 53,172.00

Vendor Name: Fuel Systems

Department:

Department Contact Person: Jim Garvens

Department Program:

Requisition Number:

- II. Chapter 25 of Dane County Ordinance codifies the County's purchasing and contracting process. Included in this chapter, 25.11(20) allows for exceptions to the competitive bidding process for a variety of reasons.

Below is a list of exceptions specified in the ordinance. Choose the one most appropriate to your request.

☐ **Emergency procurement**

☒ **Only one vendor possesses the unique and singularly available ability to meet the Department's requirements**

☐ **When unique and specific technical qualifications are required**

☐ **When special adaptation for a special purpose is required**

☐ **When a unique or opportune buying condition exists**

- III. State your rationale for request for waiver. Please be specific.

The only dealer in the area that installs these units is Fuel Systems Inc. from Brookfield Wis.

Using another vendor would include an additional charge for travel time.

We use these units to maintain "commonality" with all of the trucks currently in service.

12730 West Robin Lane
Brookfield, WI 53005

Fuel System, Inc.

Dane County Hwy Dept. of Wisconsin / Attn: Tim Yamriska / yamriska.tim@countyofdane.com

Re: Lubecore Automatic Lubrication system quotation on dump trucks

Tim

Thank you for considering Lubecore Automatic Lubrication Systems. You will find that the greasing system will save time, costs and cut down wear and tear. Lubecore's Automatic Lubrication System lubricates every chassis bearing while in motion at exactly the right time, with the right amount of grease. Automate your daily maintenance to ensure that Dane County Hwy. Dept. can benefit from reduction in operating costs and an improvement in reliability. This reliable system will be controlled with a cab-mounted electronic timer with variable adjustment settings from (1 minutes to 999 hours). The timer sends current to the solenoid of the pneumatic pump with operating pressures of (1150 psi). The grease passes from the main pump through the brass metering blocks, the metering blocks distribute grease to individually metered injectors of which are also brass, and controls the level of grease to each point.

♦ Recommended Grease N.I.G.L. "00" lithium/calcium base or Steadylube EP-0.

Lubecore Automatic Lubrication System for 2015-2016 tandem, triaxle and quad dump trucks with frontplow attachments, double wings, clevis pins & live bottom.

Lubecore Pump, Harness, Timer, signal button & Installation _____ \$2745. Each

Lubecore points are \$39. each

Price effective through January 31, 2016

We're here to service your needs
