Be it further resolved:

1. Because the DD CCR will not have any hours allocated, the COSC requests that other CCR's document any work they perform that serves people with disabilities and, if possible, demarcate how many hours each CCR spends working on issues related to people with disabilities in order to demonstrate that active CCR's are incorporating a commitment to the disability community into their work. In addition, each CCR shall document any work they perform that is relevant to the disability community in their annual reports that are provided to the HHN and PPJ committees.
2. These above allocations are only applicable to the rest of the 2017 calendar year. The COSC chair will be revisit the CCR LTE allocations with the relevant CCR liaisons and representatives for 2018 based on anticipated demand and equity.
