

# Victim Witness Unit Caseloads Over Time

|                                   | 2018 | 2019 | 2020 | 2021* |
|-----------------------------------|------|------|------|-------|
| Percent increase from prior year: | 11%  | 22%  | 34%  | 11%   |

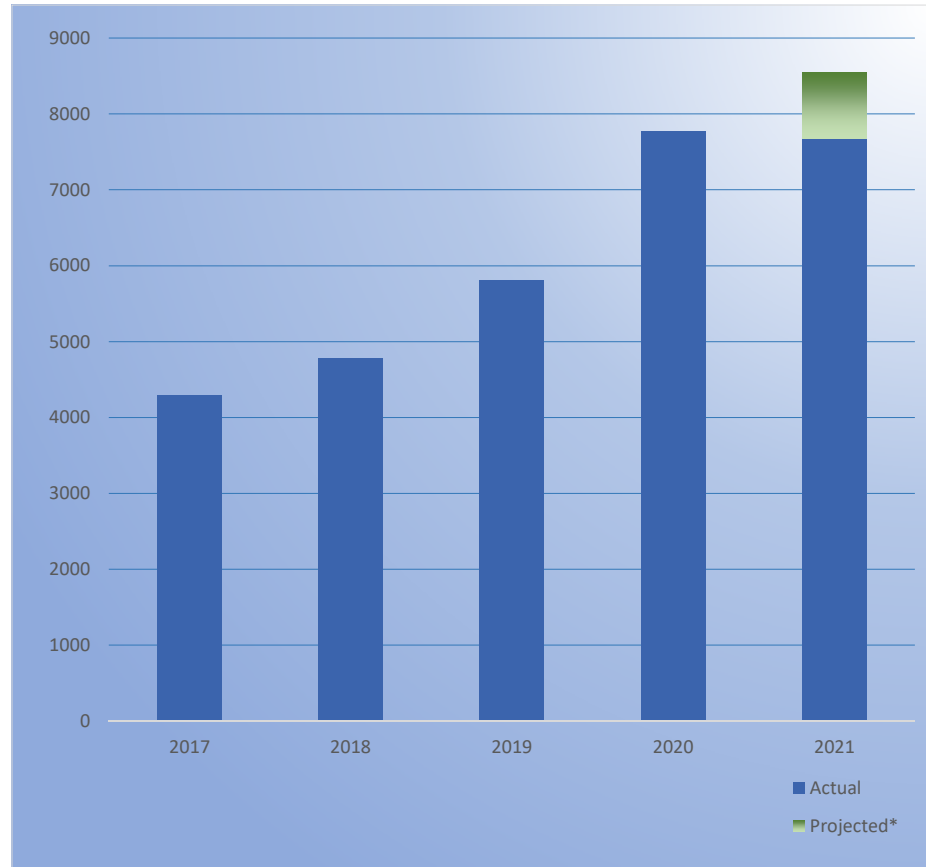

|   |  |
|---|--|
| Projected percent increase from 2017 to 2021: | <b>99%*</b><br><i>Nearly doubling total workload</i> |
|---|--|

The graph displayed here shows cases that were **filed**.  
It excludes:

- Cases which were referred but not yet filed.
- Cases which were referred but resulted in a decline.

Though these cases are not reflected in the graph,  
the victims receive services from our department  
as required by law.

|   |              |
|---|--------------|
| New Case Letters sent on newly referred cases:<br><small>(from 9/1/20-9/1/21)</small> | <b>5,325</b> |
|---|--------------|

\*Projected 2021 data is calculated by using 2021's percentage monthly increase in closed vs filed cases and adjusting for remaining months.  
Actual data is as of 9/28/2021.
