To the PP&J Committee:

In light of the fact that protecting the Driftless Area of Dane County is not effective if those illegally pushing forward in the CHC transmission line aren't stopped before the land and resources are ruined, I think it is a moral imperative that Dane County take action in this matter. The time to wait and see is beyond us. We've already seen a decline in wildlife to the point of having to actively work to restore habitats. We can't afford to allow this to happen. If we don't act now, it will be too late and we will have failed our constituents in rural Western Dane County.

Yours,

Michele
