Please use the space below to provide a brief summary of any comments, concerns, or observations you would like to share with the ZLR Committee regarding the proposal.

There are no filed recommended conditions nor are there any written request for any specific conditions to be imposed as a condition of approval. We are clearly open to discussions to address concerns anyone may have. Our position is any of the permitted by right uses in FP-B zoning we choose, can not be a public nuisance by law therefore they cannot be an issue. We have give Dane County zoning staff had 10 years to fix our zoning, they chose not to fix it and decided they would site us for made up violations that are legal in the FP-B zoning district, and this is the legal way that allows that closure. like I have said, Julia and I have never harmed the public, been a public nuisance, or caused traffic problems and we have no intenmtion of doing that in the future. The conditions, this just like we told the Town Board, we will follow the zoning laws in accordance with permitted useage of FP-B and we will get different zoning or a conditional permit for other uses should we choose.

As the County Board Supervisor representing this area of the County I wish to represent several constituents who have contaced me with concerns.

In additoin, being a resident of Marshall myself I have many concerns with this not being a good fit for the area. This location is a stones throw away from the Marshall Library and skate park which my wife and kids often frequent. Putting a heavy commercial property that close to the library and neighboring residential properties could cause safety and noise concerns in my opinion.

Re-zone is inconsistent with the T Medina/Dane County & Marshall Comprehensive Plans. Primarily why: 1. Degrading the current & future residential areas in the Village by promoting a HC use on this property. Communities take into account theirs & surrounding economic development. I believe both communities had no intent that this lot would be rezoned to a commercial use; hence the zoning should remain residential to be consistent with the surrounding neighborhood 2. Not requiring connection to public utilities when such utilities are within close proximity of the property. (in violation of Medina Comprehensive Plan Pg 38-Commercial Devel. policies) 3. no stormwater management plan is provided. This lot and surrounding lots to the south of the property have been operated as commercial with nonconforming residential units on some of the lots for many years. Many of the structures have become delapidated. This lot did not have a residential unit, just a shed. This is an opportunity for the Town to develop a good future land use plan to follow, versus spot rezoning to HC.

We attended the Township of Medina Zoning Commission meeting on 1/11/22 and due to some old verbiage in the township Comp plan they have decided to table our rezoning request until they can submit the updated verbiage to the County. The current verbiage requires a transfer of development rights to be done within the same owner of both properties. The township is in favor of our request to transfer development rights from my parents farm at 1376 Hwy 19, Marshall to our property at 5408 Langer Rd, Marshall, but they must first update the Comp Plan verbiage to allow transfers between different property owners so that Dane County can also approve it.
