Re: Supervisory Districts

The City of Verona has reviewed the seven (7) options for Supervisory Districts that will be reviewed this evening. The City is supportive of the majority of the options that keep the City of Verona in one Supervisory District, which includes options A – D and option G. All of these options will allow the City to draw ward maps that are evenly populated and allow for ease at the polls for voters and poll workers.

The City of Verona does not support options E and F. Option E splits the City creating difficulties for Staff to create Wards as this split also contains Town islands. While the map appears to have somewhat equal land area for the City, this area currently has residents of both the City and the Town of Verona. Option F splits the City and future growth areas into three different Supervisory Districts. It will be difficult for Staff to create balanced wards for this option. The entire Epic property is also split and does not follow any logical breaks. The City does not support these options.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Holly Licht".

Holly Licht
City Clerk
