<b>Motion:</b> (revenue/expenditure/text effect)	Transfer funding to Boys and Girls Club Basketball and Recreation Services line item from Madison School Community Recreation Basketball and Recreation Services line.		
<b>Program Effect:</b>	The Boys & Girls Club will be the 2016 vendor for CYF Division "Basketball and Recreation Services" following MSCR's withdrawal as vendor. B&GC was runnerup to MSCR in the RFP process and has agreed to provide 2016 services.

CYFJDMMS	RZBAA	Basketball and Recreation Services	(\$50,000)
CYFJDBGC	RZBAA	Basketball and Recreation Services (new)	\$50,000
<b>Intent/Justification</b>			
<p>Earlier this year an RFP was issued for recreational basketball that was previously operated by the Department of Human Services. MSCR was awarded that RFP. However, during contract negotiations MSCR decided that the amount of funding was not worthwhile and withdrew. Boys and Girls Club was ranked second in the RFP process and has agreed to contract to supply these services. This budget amendment enacts that change in vendor to correctly reflect it in the 2016 budget.</p>

SWRODFLD	20850	DEPRECIATION - COUNTY ASSETS - Reduce Expense	\$57,000
<b>Intent/Justification</b>			
Per Ordinance, revenue from the sale of property may not be included in the budget unless there is an accepted offer			
Tipping fee revenue increase is a result of revised projections for incoming waste tonnages in 2016. This is due to actual waste tonnages at the Dane County landfill in recent months, as well as Statewide tonnages and industry projections.			
Depreciation decrease is due to reduced overall capital costs for Phase 10 - Cell 1 construction. This project is nearly complete, and the remaining contingency will not need to be expended. Therefore, the overall project cost and its associated depreciation in 2016 is lower than previously budgeted.

Likewise, the countywide equity analysis completed in September 2015 recommended the county hire a data analyst that will provide data expertise across all racial equity areas, with an initial focus on 1) collecting, analyzing and tracking community indicators and performance measures; 2) workforce equity to improve analysis of internal workforce data; and 3) criminal justice data sets to allow analysis and potential integration for systemic improvements.
