Dear Mr Lan,

On 01/20/2016 Rick Herro with Dane county Health and Human services visited and witnessed the abandonment of the non-operating system on the accessory building located at 2059 Rinden Road. This property is in the application stage to be rezoned from A1-Ex to A-2(1). Please see the attached photos. We will also bring them to the meeting on 1/26/16 for the ZLR committee to view.

Mr. Herro will also be sending along a written report supporting the abandonment of the non-operational system. He stated that the convenience bathroom was permitted on agricultural land to satisfy OSHA when storing chemicals such as fertilizers. The current owners and the next owners no longer have a use for the convenience bathroom so this homeowner has capped, disconnected and abandoned the system.

We look forward to meeting with you 01/26.

Sincerely,

Dana Doskocil
