2021 RES-165

**APPROVING THE CONTRACT ADDENDUM TO COMPLETE THE WEBSITE
REDEVELOPMENT PROJECT**

Dane County issued RFP# 117053 in 2017 to redesign Dane County websites. From that RFP, Dane County selected Ascedia Inc. to lead the website redesign project and awarded Dane County Contract #13339 to Ascedia Inc.

In creating the initial agreement with Ascedia, the project was divided into multiple phases. Work on the first three phases is complete.

This addendum adds to the scope, timeline, and cost of the tasks related to completing the website redevelopment project. These tasks include: implementing an enhanced Azure search, developing training videos, and improvements so that back-end software is easier to use for certain domains. These tasks will make it easier for County staff to get the most use of the redesigned websites.

The 2021 Capital Budget carried forward \$49,790. An addendum has been negotiated for \$48,950.

THEREFORE, BE IT RESOLVED that the County Executive and the County Clerk are authorized to execute an addendum agreement with Ascedia Inc. for \$48,950.
