

Explanation of Suggested Edits for Legislative Agenda, Zoning Committee

- **Flood Insurance Threat:** Board should consider whether this discussion of flood mitigation/prevention is enough. Should this be expanded to address other flooding concerns, prevention, mitigation efforts?
- **Comprehensive Planning:** Minor modification that allows involvement in proposals that undermine, rather than repeals comprehensive planning statutes.
- **Transmission Lines:** Added language in response to 2017 RES 264, which states, “Oppose the construction and operation of the proposed Cardinal-Hickory Creek transmission line pending the receipt of a comprehensive cost-benefit analysis of non-transmission alternatives.”
- **American Transmission Company Requirement:** Suggest changing this language to cover all projects.
