

1 **2019 RES-525**

2 **ESTABLISHING A CAPITAL PROJECT ACCOUNT**
3 **FOR REDUNDANT COOLING SYSTEM FOR THE 911**
4 **CENTER SERVER ROOM**
5

6
7 The server room at the public safety communications center houses essential equipment for the
8 operation of the public safety communications system. The server room needs addition cooling
9 capacity to provide supplemental and redundant cooling to protect this equipment. The need
10 has been assessed and a strategy to install a system identified by personnel in Facilities
11 Management and Public Works.

12
13 The estimated cost of the project at the conceptual stage is \$60,000. Funding is available to
14 transfer into a new project account to accommodate this cost and move the project forward.

15
16 THEREFORE BE IT RESOLVED that a new capital project account CPPUBSAF NEW "Server
17 Room Cooling" be established with an amount of \$60,000 and that account CPPUBSAF 58105
18 "Point to Point Alternative" be reduced by \$23,288 and account CPPUBSAF 58339 "911
19 Telephone System Replacement" be reduced by \$36,712.
