Six Standards of a Conditional Use Permit

Provide an explanation on how the proposed land use will meet all six standards.

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

Septic system will either be sized to accommodate or rental of port-a-potties will be provided and maintained. Gravel parking will be designed for 10-20 vehicles - future parking on 6 acres to east of residence. There will be outdoor storage or additional outdoor lighting. Property is 100 yards from closest single family residence.

2. The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.

Main operation will be Saturday and Sunday 10am - 7pm.

The condition of the property will not in any way impair or diminish the surrounding neighborhood value.

3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

For the foreseeable future, no new construction other than interior remodeling of "temple" will occur. Property will remain as is currently and into the future.

4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.

Consideration will be made to assure parking lot will allow for safe entry and exit of vehicles onto Rinden Rd. Owner to speak with town regarding necessary improvements to driveway if necessary.

5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

Proposed changes for parking will assure guests are able to drive in off of Rinden Road on private drive leading to designated spots.

6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

The proposed zoning change is to allow for a district that supports religious uses through a CUP. The property is 100 yds from closest residence. This distance will act as a buffer to maintain the rural nature of the properties. Trees line the property to act as a natural buffer zone for neighboring properties.
