Re: Dane County Parks - Town of Burke
Rezone & CSM Petition 11103

Mr. Lane,

This letter will provide a summary of the steps to be taken following Dane County Parks purchase of the approximately 54-acre vacant parcel for the Token Creek Natural Resource Area from the Sandra K. Jahn Revocable Living Trust. This land is located in the Northwest ¼ of Section 3, Town of Burke.

Consistent with other new land purchases, Dane County Parks will stabilize the property including installing boundary signs, securing access points, removing debris and identifying safety issues. In general, natural resource or wildlife areas similar to this property will have minimal development. Parks provides a public information process related to any future developments, or when a property is designated as a Wildlife Area

Sincerely,

Darren Marsh
Director
