The property lines in the survey have been wrong since the 1970's, and we've have had that corrected. The piece of property that the KRUEGER TR, JOHN L & JOSEPHINE A are giving to us contains our septic system in our front yard. As first time homeowners, 27 years ago, we never knew that that piece of property was owned by the Kruegers. This will clean up our property lines and make it easier for resale in the future.

The proposed rezoning allows the applicants to split off one of the 4 splits associated with their parcels. It is consistent with the Town land use plan and long-standing practice. The proposed lot is served by an existing town road. The applicants are willing to dedicate additional right of way if necessary in order to make the road a full 66' wide road.

We propose to create a residential lot using one of the 4 lot splits available to our parcel. The proposal is consistent with the Town's land use plan and decades-long practice of allowing creation of residential lots. We would not object to a condition requiring dedication of an additional 16.5 feet of right of way to create a 66' wide road. However, the proposed lot does have legal access. We will be represented at the public hearing by legal counsel, Attorney Mark Hazelbaker, who will register to speak.

Our homestead is next to, and our home directly over-looks from an elevated position, the parcel in question. We purchased our homestead in 2018 with the understanding that the FP-35 Acreage (002/0512-182-9000-8) neighboring us would never be able to be built on given that more than half of the parcel is a natural pond and wetlands.

If the parcel in question is rezoned residential, and a home were to be built, it would have a significant negative impact on the privacy and future value of our homestead.

We would NOT be opposed to a residential lot anywhere else on the Johnson Farm and only oppose the rezoning of Parcel 002/0512-182-9000-8.

Also, we have extended a verbal offer to purchase the parcel in order to preserve it as farmland.
