Applicant

Location:  
**275 RODNEY ROAD**

**DESCRIPTION:** Applicant, Complete Phytochemical Solutions LLC, requests amendment of existing deed restrictions on the C-2 zoned property to allow operation of an experimental laboratory for natural products and related consulting business. Complete Phytochemical Solutions provides, "...intellectual and technical expertise in phytochemistry that enables our clients to develop, manufacture and market high quality and efficacious botanical and food products for human and animal nutrition."

**OBSERVATIONS:** No sensitive environmental features located on the property. Surrounding uses include commercial operations, including a car lot and contractor businesses. No new structural development proposed at this time.

**TOWN PLAN:** The property is located in the town's agricultural preservation area, within the 1.5 mile "commercial corridor" along Highway 12/18 as described in the plan text.

**RESOURCE PROTECTION:** No areas of resource protection corridor are located on the property.

**STAFF:** The proposal appears consistent with town plan policies which allow for commercial uses within the town's commercial corridor area along US 12/18. Staff recommends that the property be deed restricted as follows: limit land uses exclusively to experimental laboratories for natural products, not to exceed 5,000 square feet of floor area and consulting service business; prohibit outdoor storage of materials; prohibit division of the property; prohibit the installation of off-premises advertising (billboard) signs.

**TOWN:** Approved with conditions - revised deed restrictions limiting uses of the property (see attached action report).
