D. Presentations

1. Metro Transit - Nancy Senn, Paratransit Manager

Senn explained from 2013 through 2017, prior to the implementation of Family Care in Dane County, a steady increase in Paratransit rides occurred. See trends attachment. Family Care transition occurred from 2/1/18 - 5/1/18. When comparing 2017 ridership data to 2018 data, ridership decreased 47%. See comparison attachment. A work group is preparing a report on the impact of Family care related to number of Paratransit rides.

Senn also discussed Paratransit Performance Indicators: number of trips, types of trips, mobility status of rides, ride cancellation, bus timeliness and customer service data.

Metro contracts with three transportation providers to provide all paratransit rides. Metro no longer owns paratransit vehicles.

Metro is in the process of recertifying all paratransit riders in order to update records. Most participants will complete an application to receive recertification. In-Person-Assessments will be required for all new Paratransit participants.

[2018 Ride Summary](#)

Betzig discussed ridership details and trends from 2014 to 2018. See Ride Summary Detail and Ride Trends attachments. Volunteer Driver rides continue to increase as the aging population grows. Most rides are medical and home delivered meals. The County Coordinated Group Rides drastically decreased from the impact of Family Care. GAS and RSG group rides to nutrition, grocery shopping and general shopping decreased slightly. In 2019 transportation outreach Meet and Greet meetings will be scheduled at all Dane County Focal Points to increase DCDHS transportation program awareness to staff and seniors. The Transportation Call Center continues to be one of a kind in the region and call volume grows.

Betzig summarized the 2018 total rides. See attached 2018 Rides Pie Chart. Total rides provided from Dane County Transportation is 245,567. The Call Center authorized 38,787 of those rides.
