CONDITIONS

You are required to contact the authorized representative on the previous page before starting construction. THIS PERMIT IS VOID ONE YEAR AFTER THE DATE IT IS ISSUED. If construction is not completed at that time, the applicant is responsible for obtaining a new permit.

You are required to contact the Township and other governmental agencies, including but not limited to, the Dane County Land and Water Resources Department, who have authority to permit the construction of the driveway on and off of highway right-of-way.

Runoff from the driveway shall not be directed toward the roadway shoulder, nor shall the driveway obstruct drainage on the highway. Concrete driveways are not allowed to directly abut the edge of roadway pavements. Decorative paving on highway right-of-way will not be repaired or replaced in kind if damaged during maintenance or removed during repaving/reconstruction. Normal setback is 20 feet from the edge of pavement for concrete and decorative pavement. No poured concrete, stone, brick, wood, or other types of endwalls/headwalls shall be constructed on highway right-of-way. Proper traffic control and signing shall be provided in accordance with the "Manual of Uniform Traffic Control Devices". This permit does not exempt the applicant from any State, County or Local Agency permits or approval processes.

INDEMNIFICATION/HOLD HARMLESS

For purposes of this document, "the Permit Holder or their Agent(s)" is understood to mean the individual(s) causing this access construction and/or access improvements.

- a. Permit holder shall indemnify, hold harmless and defend County, its boards, commissions, agencies, officers, employees and representatives against any and all liability, loss (including, but not limited to, property damage, bodily injury and loss of life), damages, costs or expenses which County, its officers, employees, agencies, boards, commissions and representatives may sustain, incur or be required to pay as a result of the permit or activities associated with the permit, provided, however, that the provisions of this paragraph shall not apply to liabilities, losses, charges, costs, or expenses caused by or resulting from the acts or omissions of County, its agencies, boards, commissions, officers, employees or representatives. The obligations of the permit holder under this paragraph shall survive the expiration or termination of the permit.
- b. If any and all claims against Dane County or any of its officers, agents, or employees by any employee of the Permit Holder's Agent(s), anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under this contract shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Permit Holder's Agent(s) under worker's compensation acts, disability benefit acts, or other employee benefit acts.
- c. The obligations of the Permit Holder or the Permit Holder's Agent(s) under this Contract shall not extend to the liability of an architect or engineer, his/her agents or employees arising out of (1) the preparation or approval of maps, drawings, opinions, reports, surveys, change orders, designs, or specifications or (2) the giving of or the failure to give directions or instructions by an architect or engineer, his/her agents or employees provided such giving or failure is the primary cause of the injury or damage.
- d. Dane County shall not be liable to the Permit Holder or the Permit Holder's Agent(s) for damages or delays resulting from work by third parties or by injunctions or other restraining orders obtained by third parties.

CONTROLLED/NON-CONTROLLED ACCESS COUNTY TRUNK HIGHWAYS

CTH "TT"..... From Seminary Springs to Ridge Road.
