Standards of conditional use permit

1. We are certified in all of the services we offer and keep our environment clean.
2. We keep our property clean and maintained. We follow all rules and regulations of our governing bodies the FAA and USPA. We also follow all local laws and regulations. We also strive to be courteous and friendly to our neighbors.
3. We stay within our property and follow all local laws and regulations.
4. We stay within our property limits and do not spill into the surrounding area.
5. Our current capacity for traffic exceeds our need at this time and in the foreseeable future.
6. We follow all local laws and regulations.

Seven Hills Skydivers Operations Plan

Seven Hills Skydivers is a non-profit 501C3 Skydiving operation that provides skydiving facilities and instruction for experienced skydivers and beginners. We run 2 Cessna 182 aircraft which are hangered at the South end of the airport. We have a classroom in our club house for instruction of skydiving of many disciplines and experience levels. We have a packing area and manifest/instruction area with a plane mock up for training and load preparation. We are open Saturday and Sunday primarily from 8am to 9pm and on Wednesdays from 3pm-9pm. We have occasional operations on Thursday and Friday from 3pm-9pm.

We have around 40-50 volunteers that help run our operation with Tandem and solo skydiving. Also organizing experienced loads. Outside you we have a large landing area and loading area with barricades for safety. We board just outside of the clubhouse and have spectators at picnic tables on the safe side of our barricades. There is camping space for our club members and guests (workers/skydivers/students) at the northwest corner of our part of the airport. We have speakers on the north, east and west side of our clubhouse for manifest operations. There is a floodlight on the east side of our clubhouse for any night time operations which occur after sunset. We also have a wind meter and wind sock at the south side of our landing area and a wind sock on the roof of our clubhouse for safety.

We have a sign to go on the side of our clubhouse and a small sign by the road. We also have a freestanding sign by the front door with some directions for any of our guests.

Our trash is kept in an enclosed area on the west side of the clubhouse and is picked up bi-weekly. We have 2 bathrooms in the clubhouse with a public health board monitored septic system. We do not allow on-site waste disposal of any campers on our property, any disposal is to be taken off-site and disposed of (pumped out) properly at a sanctioned facility.

Our Camping area is kept clean and mowed. It is only used during our main operating season and any campers or tents are stored off site for the winter months.

We have been maintaining the trees on the lot and have recently taken out 1 dying tree for safety, but have planted 3 new trees with permission from the airport association.

At Seven Hills we follow all of the rules and regulations of the FAA and USPA. We are a family friendly establishment that has our mantra of "How can we help you?".

Seven Hills Usage and Events

Seven Hills is a seasonal organization and primarily operates from April to October. We have on average anywhere from 1-10 campers and/or tents on any given weekend due to a lot of our members/workers/volunteers coming in to help from up to 3+ hours away. On any given weekend we may have a solo class of between 1-15 students on a Saturday and 1-16 per Saturday/Sunday of Tandem students that come in throughout the day. We stagger the Tandems with classes at 9am, 12pm and 3pm to limit the amount of traffic. Of course each student may have spectators that come with and we promote having them bring some lawn chairs to watch, or we have a few picnic tables for them to sit at. Generally, the Tandem students are only there for 3-5hrs at a time. Solo students are there for a full day of instruction. All of the spectators and students have generally left the premises by sunset. We also have returning students that come and go, as do experienced skydivers.

As for events, we have 1 larger event every year around mid to late June, that is an opportunity to bring in a larger amount of students for a weekend. It also allows us to facilitate an event called Freedom Freefall primarily sponsored by an organization called 4th H.O.O.A.H. that takes up to 40 vets skydiving at no charge to them. This event is to promote awareness of PTSD and Veteran suicide and hopefully helps bring down the number of Veteran suicides by giving them something positive in their lives to focus on, a Skydive. This event is larger, so that we need to bring in more workers and guests that come from all over the country to support our aircraft. People come from Iowa, Illinois, Minnesota, Michigan and even from as far away as Seattle. There can be between 7-20 campers and maybe 15-40 tents. We have had no problem in the past with managing this amount of "camping" and could go further. We even bring in professional porta potties to make sure we have the public good at the forefront. These are also serviced throughout the event.

We do have weekends that vary due to business so the amount of "Camping" varies. Being a non-profit organization, we rely on our members/workers/volunteers to keep us going. We have been in business since 1962 and have been on the current Airport since 1973 with no issues up until now. We are looking to make this change in zoning with a conditional use permit so that we can comply with our local and state regulations, restrictions and laws. We also want to remain a supportive part of the community as we regularly give to local charities and good causes that help the community and the people in it that are our neighbors.

Subject: RE: Mathaire Field Airport

I didn't take the new ordinance into perspective when suggesting a solution to the problem.

The HAM-M zoning district is only for hamlet areas; e.g. Paoli, Mt. Vernon, Deansville. Most of the B-1 is going to GC if not in a hamlet.

With the new zoning ordinances, a spot zone to RE-1 would allow camping with a conditional use permit. Indoor assembly (club house) will be added as one of the suggested changes to the RE-1 District as land use that is permitted by right.

The camping area and the club house should be zoning to RE-1 with a CUP for campgrounds to fit in with the new ordinance.

Subject: Mathaire Field Airport

Roger,

As you may recall, you suggested B-1 zoning for the portion of the property that has been used as a campground at 7530 State Hwy 73. B-1 zoning district has private club and recreational facilities as permitted uses.

It looks like B-1 is going to be changing to HAM-M with the revision, and HAM-M does not have private club or recreational facilities as permitted uses. It does have "governmental, institutional, religious, or nonprofit community uses" and "active or passive recreational uses" as permitted uses. Would this still fit then? Would the town map be revised in the future to HAM-M if he rezones to B-1 now? Would you still advise rezoning to B-1? (if the town supports it)

The revised zoning map shows the area being zoned RM16, which allows for the airport as a conditional use. It also lists "governmental, institutional, religious, or nonprofit community uses" and a conditional use, but does not include "active or passive recreational uses" as a permitted or conditional use.

Greg Porter (with the skydiving club) has contacted John Prosser, and John has informed him that the town will be rezoned with the revision. Greg is now asking me about it, so I am checking with you to make sure that we are still on the right track with advising a rezone to B-1 before I get back to Greg.

Thank you.

Sarah Johnson
Zoning Inspector
