**2016 RES-160**

**AUTHORIZING PURCHASE OF SERVICES AGREEMENT WITH LEGACY COMMUNICATIONS LLC FOR PROVISION OF AN EMERGENCY AND INFORMATIONAL NOTIFICATION SYSTEM AT THE AIRPORT**

Pursuant to Dane County's sole source contracting ordinance, staff at the Dane County Regional Airport have negotiated an agreement with Legacy Communications LLC to provide labor and materials to update and upgrade the emergency and informational communications system at the Dane County Regional Airport, known as the Innovative Electronics Designs ("IED") System. The IED System currently provides fire alarm notifications, weather alerts, duress alarms, paging, public announcements, and other airport related emergency and non-emergency communication services. The IED System provided by Legacy Communications LLC will include visual paging and announcement capabilities to ensure compliance with the Americans with Disabilities Act. The existing IED System has very limited connectivity to current technologies and upgrades, and the manufacturer has ceased support and production of numerous replacement parts.

Under the terms of the purchase of service agreement, Legacy Communications LLC will provide a state of the art upgrade to the IED System, including hardware, software, installation, calibration, configuration, commissioning, documentation, and warranties. The maximum cost for the labor and materials to be provided by Legacy Communications under the purchase of services agreement is \$425,834. Commencing on January 1, 2018, Legacy Communications LLC will provide ongoing system monitoring and maintenance under a one-year extended warranty and maintenance agreement at a cost of \$28,060, with the option to thereafter renew the warranty and maintenance agreement with annual cost increases not to exceed two and one-half percent.

NOW, THEREFORE, BE IT RESOLVED that the Dane County Executive and the Dane County Clerk are hereby authorized to execute a purchase of services agreement with Legacy Communications LLC, as set forth above.
