PROPERTY INFORMATION

Township:	08N R12E (Medina)	Parcel Number(s):	0812-122-8110-0
Section:	12 NW1/4	Property Address or Location:	No address; view Exhibit A - Location & Adjacent Parcels Map

REZONE DESCRIPTION

Reason for the request. In the space below, please provide a brief but detailed explanation of the rezoning request. Include both current and proposed land uses, number of parcels or lots to be created, and any other relevant information. For more significant development proposals, attach additional pages as needed.

Is this application being submitted to correct a violation?
 Yes No

This is one (1) parcel with plans for land subdivision via two (2)-lot CSM (please see Exhibit D). The existing parcel is zoned FP-35. This proposal requests a rezone for 16.4 acres to Farmland Preservation-Business to accommodate a pickle tankyard (defined as an agriculture-related use which is permitted in the FP-B Zoning district) capable of 200,000-300,000 cucumber bushel storage and fermentation (the cucumbers are grown elsewhere). The cucumbers would come in over an 8-12 week span in the summer. Trucks would take product to Van Holten's factory one mile to the east throughout the year. This facility will be comparable to our tankyard facility in Waterloo ~one mile east. Please view our Rezone Written Description for more information on: A) the site plan and B) our Operational Narrative. ~~The second proposed lot would be 18.6 acres and rezoned to RR-16. A future house would go on this second proposed lot.~~

Existing Zoning District(s)	Proposed Zoning District(s)	Acres
FP-35	FP-B	16.4
FP-35	RR-16 FP-1	18.6

Applications will not be accepted until the applicant has contacted the town and consulted with department staff to determine that all necessary information has been provided. Only complete applications will be accepted. All information from the checklist below must be included. Note that additional application submittal requirements apply for commercial development proposals, or as may be required by the Zoning Administrator.

<input checked="" type="checkbox"/> Scaled drawing of proposed property boundaries	<input checked="" type="checkbox"/> Legal description of zoning boundaries	<input checked="" type="checkbox"/> Information for commercial development (if applicable)	<input checked="" type="checkbox"/> Pre-application consultation with town and department staff	<input checked="" type="checkbox"/> Application fee (non-refundable), payable to the Dane County Treasurer
--	--	--	---	---

I certify by my signature that all information provided with this application is true and correct to the best of my knowledge and understand that submittal of false or incorrect information may be grounds for denial. Permission is hereby granted for Department staff to access the property if necessary to collect information as part of the review of this application. Any agent signing below verifies that he/she has the consent of the owner to file the application.

Executive Summary

1.1 Overview

[Van Holten's Inc.](#) wishes to rezone parcel number [0812-122-8011-0](#) in the Town of Medina, Dane County, WI into two (2) different zoning districts. The legal description, as reported on Plat of Survey 2023-00002 (**Exhibit C**), is:

PART OF THE NE 1/4 OF THE NW 1/4 AND PART OF THE NW 1/4 OF THE NE 1/4 OF SECTION 12. T.BN .. R.12E. OF THE 4TH P.M. .. TOWN OF MEDINA. DANE COUNT□ WISCONSIN.

DESCRIBED AS FOLLOWS: BEGINNING AT AN IRON PIN AT THE NORTH 1/4 CORNER OF SAID SECTION; THENCE N89°24'29"E ALONG THE NORTH LINE OF THE NE 1/4 OF SAID SECTION, 500.94 FEET; THENCE S26°38'37"W 993.68 FEET TO AN IRON PIN ON THE NORTH LINE OF A DRIVEWAY EASEMENT DESCRIBED ON DOC .NO. 4489058; THENCE WESTERLY ALONG SAID NORTH LINE, ALONG A CURVE TO THE LEFT, 426.56 FEET, HAVING A RADIUS OF 5812.12 FEET AND A CHORD BEARING S82°29'18"W 426.46 FEET TO AN IRON PIN AT THE WEST ENO OF SAID EASEMENT; THENCE S9°36'51"E ALONG SAID WEST ENO, 33.0 FEET TO AN IRON PIN ON THE NORTH LINE OF THE RAILROAD PROPERTY; THENCE WESTERLY ALONG SAID NORTH LINE, ALONG A CURVE TO THE LEFT, 88.63 FEET, HAVING A RADIUS OF 5779.12 FEET AND A CHORD BEARING S79°56'47"W 88.63 FEET TO AN IRON PIN; THENCE

S79°29'17"W CONTINUING ALONG SAID NORTH LINE, 911.51 FEET TO AN IRON PIN ON THE WEST LINE OF THE NE 1/4 OF THE NW 1/4 OF SAID SECTION; THENCE N0°44'09"E ALONG SAID WEST LINE, 1113.44 FEET TO THE NORTH LINE OF THE NW 1/4 OF SAID SECTION; THENCE N88°17'31" E ALONG SAID NORTH LINE, 1331.75 FEET TO THE PLACE OF BEGINNING.

This is one (1) parcel to be subdivided via future two (2)-lot CSM. The land is currently zoned [FP-35](#) for agricultural use, and corn is currently grown on the property. This project intends to utilize the "limited amount of non-farm residential and commercial development" permissible in Agricultural Preservation Areas per the [Town of Medina Comprehensive Plan's Planned Land Use Map](#).

This proposal requests a rezone of the western ~16.4 acres to Farmland Preservation-Business Zoning District [FP-B](#) to accommodate a pickle tankyard (defined as an agriculture-related use which is permitted in the FP-B Zoning district). The pickle tankyard will be an operation capable of 200,000-300,000 cucumber bushel storage and fermentation. This facility will be comparable to Van Holten's tankyard facility in Waterloo one mile east. The cucumbers are grown elsewhere and arrive over an 8-12-week span in the summer. The fermented cucumbers will be taken to Van Holten's factory one mile to the east throughout the year. The eastern 18.6 acres will be rezoned to Small Lot Farmland Preservation Zoning District [FP-1](#) (**Exhibits A & D**). Van Holten's possesses a housing density right (**Exhibit E**) for a future home (with its own land division and rezone) beyond the scope of this application.

This document contains information regarding Neighborhood Characteristics (**Exhibit A**), the Site Plan (**Exhibit B**), Plat of Survey (**Exhibit C**), proposed land division (**Exhibit D**), Housing Density Right (**Exhibit E**) and Density Study (**Exhibit F**), and Operational Narrative in fulfillment of Town of Medina plus Dane County requirements.

Site Plan Commentary

2.1 Existing Subject Property Lines & Dimensions

This parcel is 35.00 acres excluding right-of-way (36.39 acres including R.O.W).

Per Plat of Survey 2023-00002 (**Exhibit C**), the property line measurements are as follows:

Property Line	Length(s) (in feet) & Bearing
North	1,331.75 bearing N88°17'31"E
East	956.57 bearing S26°38'37"W
South	426.56 bearing S82°29'18"W; 33.00 bearing S9°36'51"E; 911.51 bearing S79°56'47"W
West	1,080.41 bearing S0°44'09"W (west line of the NE¼ of the NW¼ of Section 12-8-12)

The existing parcel will be split into two (2) lots via future Certified Survey Map (CSM). The following legal descriptions correspond to their respective proposed lots as seen in **Exhibit D**.

Proposed Lot 1, intended to have [FP-B](#) Zoning:

Being located in the NE1/4 of the NW1/4 of Section 12, T8N, R12E, Town of Medina, Dane County, Wisconsin, described as follows: Commencing at the northwest corner of said Section 12; thence N88°17'31"E, 1331.75 feet along the north line of said NW1/4 to the point of beginning; thence N88°17'31"E, 696.90 feet along the south right-of-way line of Canal Road; thence S00°44'09"W, 1,004.69 feet to the north line of the Wisconsin and Southern Railroad; thence S79°29'17"W, 709.90 feet along the north line of said Railroad; thence N00°44'09"E, 1113.44 feet along said west line of the NE1/4 of the NW1/4 to the point of beginning. Contains 737,392 square feet (16.928 acres); 714,384 (16.40 acres) excluding right-of-way.

Proposed Lot 2, intended to have [FP-1](#) Zoning:

Being located in the NE1/4 of the NW1/4 and the NW1/4 of the NE1/4 of Section 12, T8N, R12E, Town of Medina, Dane County, Wisconsin, described as follows: Beginning at the north quarter corner of said Section 12; thence N89°24'29"E, 500.94 feet along the north line of said NE1/4; thence S26°38'37"W, 993.68 feet to a point of curve; thence southwesterly on a curve to the left which has a radius of 5,812.12 feet and a chord which bears S82°29'18"W, 426.46 feet; thence S09°36'51"E, 33.00 feet to the north line of the Wisconsin and Southern Railroad and point of curve; thence southwesterly on a curve to the left which has a radius of 5,779.12 feet and a chord which bears S79°56'47"W, 88.63 feet; thence S79°29'17"W, 201.61 feet; thence N00°44'09"E, 1,004.69 feet; thence N88°17'31"E, 634.85 feet along the

north line of said NE1/4 of the NW1/4 to the point of beginning. Contains 847,556 square feet (19.46 acres); 810,340 square feet (18.60 acres) excluding right-of-way.

2.2 Existing and Proposed Wastewater Treatment Systems & Wells

Currently, no wastewater treatment systems or wells are on the site.

This plan proposes one (1) well with capacity of 70 gallons per minute (gpm) and depth of 200 ft to supply the tankyard site's water needs.

The wastewater needs on the proposed site will be handled by a new Septic Sewage System.

The existing parcel's eastern 18.6 acres are to be rezoned to [FP-1](#). A possible future home, outside the scope of this submission, would have its own well and private onsite wastewater treatment system (POWTS).

2.3 Existing or Proposed Buildings, Outdoor Use, and Storage Areas

Currently, one (1) dilapidated/abandoned shed exists amidst the triangular stand of timber adjacent to Canal Road. This structure will be removed in the future.

The site's western third comprising 16.4 acres will host the project. This includes two (2) buildings and one (1) storage tank:

- One (1) storage shed containing 6,000 square ft, with dimensions 106 ft length, 66ft width and 28 ft height, plus
- One (1) salt shed containing 495 square ft, with dimensions 50 ft length, 17.5 ft width and 11 ft height, and
- One (1) 11,000-gal Calcium Chloride Tank with dimensions 11ft diameter, 16 ft height

A chain-link fence of 6 ft height, 3,340 ft perimeter will surround the 16.4 acre site.

Surface parking will be provided and is discussed in greater detail in **Section 2.7 Parking**. Given the site's purpose, "storage areas" include 200 storage tanks that will contain cucumbers for fermentation. The tanks will be organized into three (3) groups, and each of the three (3) groups has two (2) tanks arranged side-by-side in columns organized north-south. Around 70 tanks will be in each group. Each 11 ft diameter tank is constructed of fiberglass, has a 7,500 gallon capacity, and is buried 7 feet in the ground, with 4 ft sticking above the surface. We are designing the site to be capable of expansion to a maximum of 900 tanks. Access driveways between and around the groups facilitate easy access for adding new cucumbers to the tanks, or removing product into the 4 x 4 ft totes which hold the cucumbers on a flatbed trailer transport to our factory one mile to the east in Waterloo, WI.

The eastern 18.6 acres of the existing parcel is to be rezoned to [FP-1](#). A future home would utilize a future land division and rezone outside the scope of this submission.

2.4 Dimensions & Setbacks

As seen on the previous page, the buildings on the site will respect the dimensional zoning standards required for the Farmland Preservation-Business Zoning District [FP-B](#) or Small Lot Farmland Preservation Zoning District [FP-1](#).

Regarding setbacks applicable to the tankyard, the storage shed is the closest structure to Canal Road, and its 36 ft setback distance fulfills the County's 30 ft requirement from edge of right-of-way. The closest the initial phase storage tanks approach a property line is 205 ft on the site's west side, and 310 ft on the property's south side. Future expansions may change the proximity to a lot line, though FP-B zoning district standards requiring a side yard of 25 ft and a rear yard of 50 ft, respectively, will continue to be followed.

2.5 Existing and Proposed Driveway Entrances, Locations, and Widths

The parcel does not currently have formal access from Canal Road, a town road, though a driveway exists in the southeast corner (see **Section 2.6**).

The project proposes one (1) driveway entrance 425 ft from the western property line. This driveway will be 30 ft wide to facilitate simultaneous entry and exit traffic and be constructed of gravel.

2.6 Location & Dimensions of Existing Utilities, Easements, or Rights-of-Way

There are no existing utilities on the property. Utilities to the property will be provided by City of Waterloo (Electrical) and WE Energies (Natural Gas)

Per **Exhibit C**, the parcel includes the southern half of Canal Road's right-of-way in its northern extents. No easements are portrayed on the parcel, though a 33' driveway easement recorded as Doc. No. 4489058 is southeast of the property.

2.7 Parking Lot

The parking lot will be west of the parking lot. The surface will be gravel, and contain nine (9) parking stalls to fulfill the vehicle storage needs for the (4) seasonal employees on the site. The proposed parking lot layout is in compliance with Dane County Code [S10.102\(8\)](#).

2.8 Proposed Loading & Unloading Areas

The loading and unloading of cucumbers and pickles moves throughout the tankyard going from one tank to another. The loading dock attached to the storage building is the other loading and unloading area.

2.9 Zoning District Boundaries

Exhibit A shows there are ten (10) parcels within 300ft of the property's boundary. Six (6) parcels are zoned [FP-35](#), one (1) parcel is zoned [RE](#), one (1) parcel is zoned [RR-8](#), one (1) parcel is zoned [RR-4](#), and one (1) parcel has two (2) zoning designations of [FP-35](#) & [RR-2](#).

2.10 Relevant Natural Features

Vierbicher staff utilizing DCI Map discovered the existing 35.0 acre parcel:

- Does not have one-hundred-year FEMA floodplain within its extents, though such floodplain exists to the west due to the Maunasha River.
- Does not have DNR wetlands present within its extents
- Does have DNR wetland indicators in the southeast extents of the proposed 18.6 acre lot
- Does not have navigable or non-navigable waters
- Does have slopes over 12 percent grade, though it should be noted these locations, which contain wooded areas, are not to be disturbed with the tankyard operation in the parcel's western extents.

The Wisconsin Historical Society's [Wisconsin Archaeological Site Inventory](#) tool hosted by the State Historic Preservation Office yielded zero (0) results for archaeological sites on the site in Township 8NR12E S12.

2.11 Location & Type of Proposed Screening, Landscaping, Berms, or Buffer Areas

The site will be screened from the east with existing stands of woodland, as well as a tree line along the southern extents of the property. A chain-link fence will surround the site. With the one (1) loading dock in the storage building, concrete side walls would hold back dirt if it cannot be done through contouring the landscape.

2.12 Lighting, Signs, Refuse Dumpsters, Possible Future Expansion Areas

The lighting will consist of seven (7) fixtures on the facades of the two (2) buildings. Thirteen (13) light poles are proposed adjacent to the tanks and will be Dark Sky Compliant.

There will be signage identifying location for Trucking company's understanding. This will not be on the fencing or on the northern façade of the storage shed, which faces Canal Road.

There will be two (2) 5yd covered dumpsters located near the storage building.

The site is beneficial due to its proximity to our current Waterloo factory operation and the site's room to expand to the east.

Neighborhood Characteristics

3.1 Current Uses of the Property

The land is currently zoned [FP-35](#) for agricultural use, and currently growing corn. Van Holten's acquired the property in 2022.

3.2 Current Uses of Neighborhood's Surrounding Properties

Exhibit A shows there are ten (10) parcels within 300ft of the property's boundary. Two (2) parcels have rural residential uses, six (6) parcels have agricultural land uses, one (1) parcel has recreational uses, and one (1) parcel has combined agricultural plus rural residential uses.

Operational Narrative

4.1 Hours of Operation

This new facility will have the following hours of operation:

Day	Hours of Operation	Notes
Sunday	6am to 4pm	Seasonal
Monday	6am to 4pm	
Tuesday	6am to 4pm	
Wednesday	6am to 4pm	
Thursday	6am to 4pm	
Friday	6am to 4pm	
Saturday	6am to 4pm	Seasonal

4.2 Number of Employees

There will be four (4) seasonal full-time equivalents (FTEs), and the maximum number of personnel to be on the premises at any time is 10.

For greater clarification: after cucumbers are fermented, employees arrive at the new location, daily, to retrieve pickles. This takes about 1 hour per load and could happen 3 times per day. Employees arrive periodically to collect samples and bring back to factory.

4.3 Anticipated Negative Externalities & Mitigation Measures

Per Dane County, the following are negative externalities that can be experienced in commercial operations. For those negative impacts that may occur on the site, accompanying mitigation measures are presented.

Negative Externality	Anticipated/Present on Site? (Y/N)	Mitigation Measures
Noise	Y	Noise to be kept below 80 Decibels
Odors	N	
Soot	N	
Runoff	Y	Terrace and Vegetation
Pollution	N	

4.4 Materials or Activities Outside Enclosed Building(s)

It is anticipated that machinery such as trucks will be operating on the access driveways to access the fermented cucumbers in their holding tanks. During cucumber season trucks will arrive and fill fermentation tanks with cucumbers. While the fermentation is happening, tank conditions are monitored, salt and calcium chloride are added as needed. After the fermentation is complete, pickles are pulled out of tanks daily and brought to the main facility for processing.

4.5 Compliance with Dane County Stormwater & Erosion Control (Chp 11+14)

It is Van Holten’s intent to comply with all applicable Town, County, DNR, State, and Federal regulations pertaining to this use.

4.6 Sanitary Facilities

Given there will be a maximum ten (10) employees on the site, it is planned to have one (1) sanitary facility for staff members.

4.7 Facilities for Managing Trash, Solid Waste, and Recyclables

Van Holten contracts with LRS for Trash, LRS for Solid Waste (No solid waste is generated, i.e. bad pickles, sludge, etc..), and LRS for recyclables.

Van Holten’s is installing a Brine Recycle Facility for reclaiming dry salt and the water will be reused in our main facility. It will be fully operational by the end of 2024. Van Holten’s will be near net zero discharge.

4.8 Anticipated Traffic & Vehicle Types

This 200,000 – 300,000 bushel tankyard is for the storage and fermentation of cucumbers grown elsewhere. The tankyard would consist of two hundred (200) 7,500 gallon fiberglass tanks buried 7 feet in the ground (this could expand to more tanks in the future). Van Holten

would bring fresh cucumbers to the tank yard over an 8 - 12 week period in the summer. We would then ferment the cucumbers in the tanks, and they would be stored there until needed for production. The fermented cucumbers will be transported via tractor with flatbed wagons or semi with flatbed trailer on Canal Road to our factory one mile away in Waterloo (Jefferson County) throughout the year.

The vehicles bringing the cucumbers to the site will have 5-axles, with a loaded weight of 78000lbs (39 tons) and an empty weight of 30,000 lbs (15 tons). It is anticipated that nine (9) of these vehicles will visit the site daily during harvest season.

The Flatbed Wagons bringing the fermented cucumbers to Van Holten's factory will have 2-axles, with a loaded weight of 18,000 lbs (9 tons) and an empty weight of 2000 lbs (1 tons). There are three wagons hooked end to end, it is anticipated that (two) 2 of these wagon assemblies will visit the site daily.

4.9 Hazardous, Toxic, or Explosive Material On-Site & Mitigation Measures

It is not currently planned for any hazardous, toxic, or explosive materials to be on-site which would necessitate mitigation measures.

4.10 Light Pollution

As referenced in **Section 2.12**, the lighting will consist of seven (7) fixtures on the facades of the two (2) buildings. Thirteen (13) light poles are proposed adjacent to the tanks and will be Dark Sky Compliant.

4.11 Signage

There will be signage identifying location for the trucking company's understanding. This will not be on the fencing or on the northern façade of the storage shed, which faces Canal Road.

Eduard Straubhaar
47 Canal Road
Waterloo, WI 53594
Delivered via email

Dear Mr. Straubhaar,

Attached is a density study report for property you own in section 12 of the Town of Medina. The property is located within the town's Agricultural Preservation Area, where the density of nonfarm development is limited to 1 density unit (or, "split") per 35 acres of land owned as of February 4, 1981. The property was part of a larger landholding owned by Edward Zimmerman, which totaled approximately 330 acres as of February 4, 1981. Based on the 1981 acreage of the Zimmerman property, a potential total of 9 density units were available.

As indicated on the attached density study report, three prior density units have been used per the residences located at 47, 48, and 104 Canal Road.

The 6 remaining density units are allocated proportionally based on current acreage owned, taking into account the number of density units already used. Based on the town's policy, it appears the 6 remaining density units are allocated as follows:

- Eduard Straubhaar = ~85 acres, 1 density unit used, 1 density unit remaining
- James Krause = ~160 acres, 2 density units used, 3 density units remaining
- Trek Trails LLC = ~85 acres, 0 density units used, 2 density units remaining

The town plan includes guidelines for transferring property in parcels over 35 acres in size and encourages property owners to clearly specify the allocation of any density units in deeds or other agreements recorded with the Dane County Register of Deeds. I would also advise that you present such land sale proposal to the town Plan Commission and/or Board for their consideration.

Please note that this density analysis does not guarantee or preclude town or county approval of a particular land division, rezone, or development proposal. A copy of this density analysis is being forwarded to the Town of Medina Clerk, Tammy Jordan.

If you have any questions about this density analysis, please contact me at 608-720-0167 or allan@countyofdane.com.

Sincerely,
Majid Allan
Senior Planner

cc: Tammy Jordan, Town of Medina Clerk

DRAFT: FOR DISCUSSION PURPOSES ONLY

IMPORTANT NOTE: ACREAGE VALUES AND OWNERSHIP HEREIN ARE DERIVED FROM HISTORICAL AND CURRENT RECORDS LOCATED AT THE DANE COUNTY DEPARTMENT OF PLANNING AND DEVELOPMENT (EG. GIS, PLAT BOOKS, ZONING PERMIT DATA, CSM'S, ETC). DENSITY POLICIES VARY AMONG TOWNS AND MAY REQUIRE INTERPRETATION.

		Applicant: Ed Straubhaar			
Town	Medina	A-1EX Adoption	10/2/1980	Orig Farm Owner	Edward Zimmerman
Section:	01, 12	Density Number	35	Original Farm Acres	329.83
Density Study Date	9/16/2022	Original Splits	9.42	Available Density Unit(s)	6

Reasons/Notes:

The 1981 farm unit totaled ~330 acres and was eligible for 9 density units ("splits"). The town counts all homes as a split. 3 density units taken. 6 remaining density units allocated based on current acreage owned. See attached letter for more info.

Note: Parcels included in the density study reflect farm ownership and acreage as of the date of town plan adoption, or other date specified. Density study is based on the original farm acreage, NOT acreage currently owned.
