**School Programs**

We track 20% of our youth 3<sup>rd</sup> – 5<sup>th</sup> grade participants with Pre and Post tests. All information is entered into the Program Evaluation And Reporting System (PEARS) by educators. Educators fill out classroom data sheets for every classroom. This includes dates and times, curriculum, intervention topics, demographics, etc.

Venkata is currently teaching in 19 classrooms each week.

**School Programs**

Schools meet the criteria for our services when they have 50% or more of the student population eligible for Free & Reduced Lunch.
