

1                                    **SUB \_\_ TO 2023 RES-378 (PROPOSED-RIPP)**  
2

3                                    AUTHORIZING AGREEMENT WITH PELLITTERI WASTE SYSTEMS, LLC.  
4

5                                    The Dane County Department of Waste & Renewables operates the County's landfills,  
6                                    construction and demolition recycling facility, and various other recycling programs and the  
7                                    Department charges tipping fees for these services. The Department operates as an enterprise  
8                                    fund and as such is required to cover all expenses with the revenue from these tipping fees.  
9

10                                    Dane County Ordinance allows the County Board to approve contracts for disposal rates other  
11                                    than those set forth in the user fee schedule with individual customers in order to guarantee  
12                                    specific waste volumes which provides budget stability for landfill operations.  
13

14                                    The Department of Waste & Renewables is recommending a 5 year contract, with ~~one~~ **two**  
15                                    **possible** 5-year extensions, effective January 1, 2025, that establishes minimum tonnages  
16                                    requirements and disposal rates with Pellitteri Waste Systems, LLC,  
17

18                                    Pellitteri Waste Systems, LLC  
19                                    7035 Raywood Road  
20                                    McFarland, WI 53558  
21

22                                    The total contract value is expected to exceed \$5,300,000 annually for the term of the ~~10-year~~  
23                                    agreement.  
24

25                                    **NOW, THEREFORE, BE IT RESOLVED** that an Agreement is authorized with Pellitteri Waste  
26                                    Systems, LLC that establishes tipping fees for waste disposal at the County's landfills and  
27                                    recycling facilities, and  
28

29                                    **BE IT FURTHER RESOLVED** that the County Executive and the County Clerk be authorized  
30                                    and directed to sign the Contract; and  
31

32                                    **BE IT FINALLY RESOLVED** that the Department of Waste & Renewables be directed to  
33                                    ensure complete performance of the Contract.
