<b>Intent/Justification</b>			
<p>Dane County has made it a priority to address systemic social problems through education and prevention. While the work we currently do in sexual assault intervention is vital, the creation of a funding source aimed solely at prevention would allow us to make meaningful change at the local level.</p> <p>This proposal is for a funding source for primary sexual assault prevention programming for middle and high school students through education aimed at addressing social norms which create and sustain rape culture i.e. addressing gender roles and acceptance of violence over systemically oppressed groups.</p> <p>The respondent should have access to programming that incorporates national best practices and have connections to relevant community structures that work on sexual assault issues through prevention and intervention that impact the target population in order to address the burden of sexual violence in our community.</p>

This amendment would fund 12 case managers, with a caseload of 16 program participants, at \$65,000 per year for salary and benefits. Colonial Club currently offers regular social opportunities for Latinx senior adults and is working with the Dane County Cultural Diversity Latinx program specialist to increase participation. \$5,500 of this 2018 request would be used to translate brochures and other materials into Spanish for Colonial Club.</p>
