Subject: Statement from Town of Albion for CUP 02260 appeal

Roger,

Bob asked me to send this statement for the appeal on the CUP at the meeting on Aug 14, 2014

The Town of Albion unanimously feels that this appeal is ridiculous and a waste of the County Boards time. We at the Town Board and the Planning Commission for the Town of Albion have documented and went through the procedure correctly. We feel our decision was the correct decision and the County ZLR approved justly so. We made this decision knowing all the tax payers in our township would benefit financially by having this material locally for our gravel roads and shoulders.

Albion Town Board

Albion Planning Commission

Thanks

Julie Hanewall
