

Bid Waiver Form

Revised 02/2020

Short Description of Goods/Services	Purchase of Mobile Hydrogen Sulfide (H ₂ S) Containers (2)
--	---

Date	7/12/2021
Department	Department of Waste & Renewables
Name	Roxanne Wienkes
Email	Wienkes.Roxanne@countyofdane.com
Phone	608.509.6681
Purchasing Officer	Pete Patten

Vendor Name	InTerra Global Corp
Vendor MUNIS #	30988
Requisition #	PO 20210832
Requisition Year	2021
Total Cost	\$ 114,500

A VENDOR QUOTE MUST BE ATTACHED TO THE WAIVER FOR APPROVAL

Provide a detailed description of the goods/services intended to be purchased:

The vendor will supply 2 mobile vessels compatible with 2 existing vessels that hold granular/pelletized media that removes hydrogen sulfide (H₂S) from the landfill gas (LFG).

An existing PO will be modified to accommodate this additional equipment.

Bid Waiver Form

Revised 02/2020

Procurement Exception List (place an "X" next to any that apply)	
	Emergency Procurement
	Only one vendor possesses the unique and singularly available ability to meet the Department's requirements
X	Unique and specific technical qualifications are required
	A special adaptation for a special purpose is required
	A unique or opportune buying condition exists

Provide a detailed explanation as to why the competitive bidding (RFB/RFP) process cannot be used. Also provide a detailed justification in relation to the Procurement Exception chosen:
<p>Dane County Department of Waste & Renewables (W&R) owns and operates a Renewable Natural Gas (RNG) Plant that converts landfill gas (LFG) to pipeline quality RNG that is injected into the interstate transmission pipeline. As part of the cleaning process, the H₂S needs to be removed from the LFG.</p> <p>The vendor will supply two mobile container vessels to pretreat the LFG for H₂S. In 2020 the Department of Waste & Renewables previously purchased 2 of the vendor's mobile vessels as a temporary pre-treatment system for the LFG.</p> <p>The vessels provided reliable processing capacity for the removal of H₂S from the LFG during maintenance of the primary H₂S removal system and also allows for additional capacity to effectively manage seasonal surges in H₂S.</p> <p>The Department is requesting to purchase 2 more to expand/supplement the existing system. The new vessels have the option to be installed in sequence with the existing vessels and procurement of compatible vessels is necessary to allow for efficient transmission of the LFG through the vessels.</p>

Bid Waiver Approval (Purchasing Use Only)

Under \$37,000 Controller Approval	Date

\$37,000 or over Personnel & Finance Committee Approval	Date
