Severity of Offense and Criminal History

The nature of the criminal offense, as well as the criminal history of the resident, will not be a consideration for eligibility into the 3 year CAMP Pilot Program.

Domestic Violence Crimes Guidelines

If the current sentence being served is a domestic related charge, the resident cannot live with the victim. A residence restriction will also apply if there is a domestic history within the last 3 years, regardless if it's a current or pending charge. The CAMP supervisor must approve any requested exceptions.

Transfer Requests

Transfer requests are subject to the approval of the Jail Administration.

Drug Screen

Resident's must provide a negative urinalysis before going out on CAMP. Resident's may only possess medications prescribed by a physician.

Individuals who report to Jail with detectable signs of using drugs and/or alcohol will remain in Jail and be re-tested at standard times. These standard times are not only based on the rate these substances metabolize in the human body and the earliest potential time they can produce a negative test for those substances, but will also give our medical staff time to monitor these subjects for possible signs of withdraw from these substances. The CAMP social worker may also make contact with these individuals during this time to discuss and develop case management if needed. The standard waiting periods are 10 days for THC and 5 Days for all other drugs and alcohol.
