Six Standards of a Conditional Use Permit

Provide an explanation on how the proposed land use will meet all six standards.

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

We store, sell, and redistribute manufactured packages that are in safe, proper containers.
All products on site will be stored in proper containers.

2. The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.

We operate mainly between 7:00am and 4:00pm M-F. Very minimal outside noise, with no loud speakers or heavy equipment.

3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

Our property is on a hill with 2 sides wooded and the other two zoned A1.
We maintain a clean site.

4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.

The driveway is maintained from erosion and proper drainage is already in place.

5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

We anticipate 5-10 deliveries per week, including semis, UPS, USPS, and Speedy van trucks.

6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

The proposed A2 property would be a limited family business, sell agricultural products. The setbacks and regulations will be met from property lines.
