Why What You Do Matters!

A few comments from seniors about what the meals mean to them...

- I would not always prepare a balanced meal with hot food sometimes only a little junk food or leftovers because it's so time consuming and I get tired.
- My girls were very happy that I asked for meals because I was not eating the way I should.
- Sometimes my daughter doesn't have time to shop for me.
- I don't know what we'd do without you as I can't stand long enough to make a meal.
- The meals are a Godsend.
- This program, along with improved meds have been 2 of the most important improvements in the quality of my life.

Themes from Comments

- Appreciate staff and volunteers (professional, kind, caring, friendly, nice, courteous, helpful)
- Don't like overcooked vegetables – we should never serve canned squash and all beets should stay in the ground.
- Don't like substitutions – serve what's on the menu.
- Want variety, not bland or all soft food, not the same things all the time.
