

Bid Waiver Form

Revised 01/2025

Short Description of Goods/Services	VMI Spectrum 6040 Dual View Scanner	Total Cost	\$52,841.88
Vendor Name	VMI Systems Corp.	MUNIS #	
Req #			
Purchasing Officer	Megan Rogan	Date	March 6, 2025
Department	Dane County Sheriff's Office	Email	greiber.trevor@danesheriff.com
Name	Trevor Greiber	Phone	608- 284- 6185

A VENDOR QUOTE MUST BE ATTACHED TO THE WAIVER FOR APPROVAL

Provide a detailed description of the goods/services intended to be purchased:

VMI Spectrum 6040 Dual View (DV) X-ray unit

The Dane County Courthouse has 17 Circuit Court Branches and 11 Court Commissioners. Additionally, there are several departments housed in the Dane County Courthouse including but not limited to the district attorney's office, clerk of courts, law library, etc. Weapons screeners provide a controlled access to the Dane County Courthouse to prevent weapons, and other suspicious items, from entering the courthouse. On any given day, weapons screeners may need to screen in excess of 1,000 people entering the courthouse.

Weapons screeners are positioned in the interior lobby of the entrance of the courthouse and have two work stations that patrons can enter through for the screening process. Both stations have an x-ray unit/scanner, one of the scanners is the Spectrum 6040 DV. The other scanner needs replacement, is approximately 12 years old, and is failing with outdated software. The older scanning device is also not as easy or efficient to use as the Spectrum 6040 DV. Adding the Spectrum 6040 DV will improve the visibility and clarity of the images, enabling the weapons screeners to identify and analyze suspicious items more effectively. The Spectrum 6040 DV will enhance security.

Spectrum 6040 DV has excellent threat inspection and detection capabilities. It was specifically designed to meet the needs of demanding markets that depend on high quality and robust security systems, such as airports, prisons, stadiums or courts. The equipment operates with powerful X-ray generators, achieving high levels of penetration and quality in image generation.

Fast and effective inspection. Automatic discrimination of organic, inorganic and mixed materials by colorization, combined with an automatic detection algorithm for drugs, explosives and high density materials.

- Monoblock X-ray generator (160kV or 180kV)
- High quality and real time image generation and manipulation, with high penetration function.
- Emission of radiometric report
- Complete documentation with operation manual and emission of radiometric report.
- Dual View System
- With two 18.5" LCD monitors (colored or black/white).
- TIP software, with automatic detection system
- It has TIP image projection software and automatic threat detection algorithm.

Bid Waiver Form

Revised 01/2025

Procurement Exception List

- Emergency Procurement
- Unique and specific technical qualifications are required
- A special adaptation for a special purpose is required
- A unique or opportune buying condition exists
- Only one vendor possesses the unique and singularly available ability to meet the Department's requirements

Provide a detailed explanation as to why the competitive bidding (RFB/RFP) process cannot be used. Also provide a detailed justification in relation to the Procurement Exception(s) chosen:

The VMI Spectrum 6040 DV is needed for consistency, training, and to pair this machine with the other newer one. The Dane County Sheriff's Office weapon screening process will improve and become more efficient by adding the Spectrum 6040 DV. This model is also the preferred model by staff as it makes scanning items easier and improves safety and security for all courthouse visitors.

The vendor that services Wisconsin with VMI products, specifically the Spectrum 6040 DV, is Imaging Systems & Service, INC.

Bid Waiver Approval (For Purchasing Use Only)

Under \$45,000 (Controller)

\$45,000+ (Personnel & Finance Committee)
