Six Standards of a Conditional Use Permit

Provide an explanation on how the proposed land use will meet all six standards.

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

No change from the current use. The CUP enhances public health and safety by providing local government services

2. The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.

Value and enjoyment of other property will not be diminished. No expected changes from current use.

3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

The use will no impede normal and orderly development as allowed by the Comprehensive Plan.

4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.

Adequate utilities and roads already exist. Drainage would be improved by expansion of the conditional use; stormwater facilities will be possible with the expansion.

5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

Safe ingress and egress already exists. No expected changes from current use.

6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

Use conforms to district regulations. No expected changes from current use.

Zoning Change Application

Items that must be submitted with your application:

11220

- Written Legal Description of the proposed Zoning Boundaries
Legal description of the land that is proposed to be changed. The description may be a lot in a plat, Certified Survey Map, or an exact metes and bounds description. A separate legal description is required for each zoning district proposed. The description shall include the area in acres or square feet.
Scaled Drawing of the location of the proposed Zoning Boundaries
The drawing shall include the existing and proposed zoning boundaries of the property. All existing buildings shall be shown on the drawing. The drawing shall include the area in acres or square feet.
