2020 RES-429  
2021-2023 DANE COUNTY LEGISLATIVE AGENDA

**General Principle**

The state shall foster equitable and inclusive opportunities for all state residents by supporting and funding proactive, evidence-based programs and policies that advance the elimination of racial and socio-economic disparities and recognize the unique role counties play in administering state programs by:

1. Fairly sharing responsibility with the counties in determining the scope, design, and cost of statewide programs;
2. Providing adequate and predictable shares of funding for state services delivered by the counties;
3. Helping counties reduce the need to rely on property taxes; and
4. Enhancing the ability of counties to more effectively manage county government.

In furthering these principles Dane County will assess policies via an analysis that asks:

Who benefits?

Who is burdened?

Who does not have a voice at the table?

How can policymakers mitigate unintended consequences?

**Surface and Ground Water Quality**

- **Water Quality:** Maintain DNR funding for water quality planning and watershed projects. Seek a fair share of state funding for inland waterways and lakes. Target state funds to where there is a high likelihood of project success, where recipient units of government have a proven track record of meeting state and local water resource goals. Support additional funding and staffing for local water quality protection and improvement.
- **Stormwater Utility:** Amend WI Stats. to allow counties to create and manage stormwater utility. Support local control of erosion and storm water management standards. Oppose standardizing regulation of construction site erosion, storm water management, and prohibiting local governments from enacting local ordinances that are stricter than statewide standards.
- **Comprehensive Approach to Control Lake Levels:** Support a comprehensive approach to managing the levels of the lakes through collaboration with affected parties including dam operators, municipalities and regulatory agencies toward improving natural hydrologic conditions and habitat. Support efforts to manage the Yahara Chain of Lakes by improving the volume of water leaving the Yahara River system, reducing stormwater runoff volumes through increased stormwater infiltration, and improving management of stormwater on impervious surfaces.

- 52 • **Keep Asian Carp Out of Wisconsin Waterways:** Urge DNR and  
53 federal government to increase efforts to stop the advance of Asian carp  
54 in Wisconsin.
- 55 • **Mining Reform:** Support provisions restoring local government role for  
56 mining and suspend floodplain rules that would nullify flood insurance and  
57 federal disaster assistance.
- 58 • **Water Management:** Support local governmental efforts to improve  
59 water management through water conservation, a balanced water  
60 budget, and enhanced groundwater recharge.
- 61 • **High-Capacity Wells:** Support science-based regulation of high-  
62 capacity wells that considers the individual and cumulative effects of  
63 high-capacity irrigation wells on nearby water systems.
- 64 • **Public Trust Doctrine:** Oppose legislation that erodes the Public Trust  
65 Doctrine and DNR's ability to regulate navigable waters and wetlands.  
66

92 implementing existing agricultural nonpoint pollution performance  
93 standards (NR 151) with a goal of statewide compliance by 2035. Support  
94 ensuring adequate funding is available to meet cost-share requirements  
95 to implement performance standards and prioritize systematic  
96 implementation of agricultural performance standards and targeting
