Subject: STH Connection Application
STH 138, Dane County
T5N R10E Sec7 NENW

Reference #: 100250907

Dear Steve Suter:

Wisconsin Department of Transportation (WisDOT) supports the connection at 4645 State Highway 138, Rutland as long as WisDOT guidelines, standards, and safety are followed. As the land develops, further improvements are expected with this connection.

The original Traffic Evaluation dated June 19, 2018, included the storage units. This evaluation is good for 3yrs. If this area becomes a problem, we expect the development to address the connection and improve that area affiliated with the development, at the property owner's responsibility.

At this time, we find the current configuration acceptable.

Sincerely,

Wendy Braun, P.E.

Wendy Braun, Access Engineer
