- 1666 compliance with the current requirements for new development of
- 1667 the state plumbing code and Chapter 46, Dane County Code.

 1676 *increase in traffic associated with the proposed conditional use.*
- 1677 *x. The Zoning Administrator or designee may enter the premises of the*
 1678 *operation in order to inspect those premises and to ascertain*

- 1696 **b. Other conditions.** In addition to the standard conditions listed above, the

1732 **(8) Petitions to Rezone (Zoning Map Amendments)**

1733 **(a) Who may petition to rezone.** As described in [s. 59.69\(5\)\(e\), Wis. Stats.](#), petitions to

1734 amend the zoning map to change the zoning district of any new or existing parcels,

1735 or to modify the boundaries of any zoning district may be submitted by any of the

1736 following:

- 1737 1. A property owner in the area affected by the proposed amendment;
- 1738 2. The town board affected by the proposed amendment;
- 1739 3. Any member of the zoning committee, or
- 1740 4. Any county board supervisor.

1741 **(b) Petition requirements.**

- 1763 Chapter 12, Dane County Code.
- 1764 6. *Other information.* Any other information the zoning administrator, or designee,
- 1765 determines necessary to evaluate the nature, location or intensity of the
- 1766 proposed use or consistency with the *Dane County Comprehensive Plan* or the
- 1767 *Dane County Farmland Preservation Plan*.
- 1768 7. Incomplete applications will not be accepted.
- 1769 (c) Approval process.
- 1770 1. Zoning committee, town board and county board action.
- 1771 (a) The zoning committee, town board and county board shall follow the process
- 1772 for public hearing, recommendations, amendment, approval, denial and re-
- 1773 referral of petitions to rezone as described in [s. 59.69\(5\)\(e\), Wis. Stats.](#)
- 1774 (b) The zoning committee or county board may adopt additional rules and
- 1775 procedures for petitions to rezone under the authority of Chapter 7, Dane
- 1776 County Code.
- 1777 2. County executive action. The county executive shall, within a reasonable time of
- 1778 county board action, take action on the proposed rezone petition. The county
- 1779 executive may sign, refuse to sign or veto the rezone petition as described in [s.](#)
- 1780 [59.17\(6\), Wis. Stats.](#)
- 1781 (d) Conditions on rezone petitions.
- 1782 1. The zoning committee may recommend and the county board may adopt an
- 1783 ordinance effecting an amendment of the zoning district map containing the
- 1784 condition that the change in the map will take effect on such date occurring
- 1785 within a specified number of months of the date of county board approval of the
- 1786 amendment when the first on-site inspection for building location is made and
- 1787 approved for the project sought to be established, and in the event such
- 1788 approved inspection has not occurred by the end of the specified time period, the
- 1789 possibility of making effective the rezoning will then be terminated.
- 1790 2. The zoning committee may recommend and the county board may adopt an
- 1791 ordinance effecting an amendment of the zoning district map containing the
- 1792 condition that the change in the map will take effect on such date occurring
- 1793 within a specified number of months of the date of county board approval of the

1794 amendment when a restrictive covenant has been recorded binding the property
 1795 to conditions specified in the amending ordinance, and in the event such
 1796 covenant is not recorded by the end of the specified time period, the possibility of
 1797 making effective the rezoning will then be terminated.

- 1798 3. Conditions specified to be in such required covenants shall be related to the
 1799 purposes of the Dane County Code of Ordinances and consistency with adopted
 1800 town and county comprehensive plans. They may include, as specific cases
 1801 warrant, limits of permissible uses to less than the full range of uses otherwise
 1802 allowable in the district into which the land is being placed. The covenant controls
 1803 shall be amendable or repealable upon petition of the owner of the lands subject
 1804 to the controls and approval by the county board after a hearing similar to a
 1805 rezoning hearing. A rezoning of the lands to a different zoning district shall also
 1806 act to repeal the covenant controls. Except as provided above, the covenants shall
 1807 run with the land.
- 1808 4. Other similar controls appropriate to handling by covenant provisions may also be
 1809 imposed.

1810 (9) Appeals of administrative decisions.

- 1811 (a) *Who may appeal.* Any person aggrieved or any officer, department, board or
 1812 bureau of the municipality affected by any decision of the zoning administrator or
 1813 other administrative officer, may appeal that decision to the board of adjustment.
- 1814 (b) *Application process.* Such appeal shall be taken within a reasonable time, as
 1815 provided by the rules of the board, by filing with the officer from whom the appeal
 1816 is taken and with the board of adjustment a notice of appeal specifying the grounds
 1817 thereof. The officer from whom the appeal is taken shall transmit to the board all
 1818 the papers constituting the record upon which the action appealed from was taken.
- 1819 (c) *Stays.* An appeal shall stay all proceedings in furtherance of the action appealed
 1820 from, unless the officer from whom the appeal is taken shall certify to the board of
 1821 adjustment after the notice of appeal shall have been filed with him or her that by
 1822 reason of facts stated in the certificate a stay would cause imminent peril to life or
 1823 property. In such case, proceedings shall not be stayed otherwise than by a
 1824 restraining order, which may be granted by the board of adjustment or by a court
 1825 of record on application on notice to the officer from whom the appeal is taken and
 1826 on due cause shown.
- 1827 (d) *Hearing appeals.* The board of adjustment shall fix a reasonable time for the
 1828 hearing of the appeal and publish a class 2 notice thereof under ch. 985, Wis. Stats.,
 1829 as well as give due notice to the parties in interest, and decide the same within a
 1830 reasonable time. Upon the hearing any party may appeal in person or by agent or
 1831 attorney.
- 1832 (e) *Board of Adjustment Action.* The board of adjustment may, by majority vote, affirm,
 1833 reverse, reverse partly or modify the order, requirement, decision or determination
 1834 that is the subject of the appeal. The board may make such order, requirement,
 1835 decision or determination as ought to be made, and to that end shall have all the

- 1836 powers of the officer from whom the appeal is taken.
- 1837 **(f)** *Effect of denial.* If the Board of Adjustment denies an appeal, the same, or
- 1838 substantially similar appeal cannot be resubmitted for a period of one year from
- 1839 the date of denial. The Board may waive this requirement if it finds there is valid
- 1840 new evidence or proof of change of conditions.
- 1841 **(10)** Variances
- 1842 **(a)** *Hearing on application.* Upon receipt of a complete and acceptable petition and
- 1843 accompanying materials, the board of adjustment shall hold a public hearing on
- 1844 each rezone petition. The board of adjustment shall establish, by rule, a regular
- 1845 schedule and location for public hearings. The board of adjustment may prescribe
- 1846 or amend rules for the conduct of the hearing and preserving a publicly-accessible
- 1847 recording of the proceedings.
- 1848 **(b)** *Decision.* The Board of Adjustment may approve, conditionally approve, or deny a
- 1849 variance after a public hearing.
- 1850 **(c)** *Majority vote.* The concurring vote of a majority of quorum of the Board of
- 1851 Adjustment is required to grant a variance.
- 1852 **(d)** *Findings of fact.* The decision of the Board of Adjustment shall include findings of
- 1853 fact, related to conditions on the site, the standards for approval of a variance and
- 1854 any impacts on the purposes of this ordinance.
- 1855 **(e)** *Conditions on variances.* The Board of Adjustment may impose conditions on the
- 1856 use, development or activities subject to the variance. The Board of Adjustment
- 1857 may require the conditions in order to comply with the standards in this section, to
- 1858 mitigate the effect of the variance on other property in the neighborhood, and to
- 1859 better carry out the general intent of this ordinance.
- 1860 **(f)** *Standards for approval of a variance.* The Board of Adjustment shall not grant a
- 1861 variance unless it finds that all of the following standards are met
- 1862 **1.** There are conditions unique to the property of the applicant that do not apply
- 1863 generally to other properties in the district.
- 1864 **2.** The variance is not contrary to the spirit, purpose, and intent of the regulations in
- 1865 the zoning district and is not contrary to the public interest.
- 1866 **3.** For a variance from area, setback or dimensional standards in the ordinance,
- 1867 compliance with the strict letter of the ordinance would unreasonably prevent
- 1868 use of the property for a permitted purpose or would render compliance with the
- 1869 ordinance unnecessarily burdensome.
- 1870 **4.** The alleged difficulty or hardship is created by the terms of the ordinance rather
- 1871 than by a person who has a present interest in the property.
- 1872 **5.** The proposed variance shall not create substantial detriment to adjacent
- 1873 property.
- 1874 **6.** The proposed variance shall be compatible with the character of the immediate
- 1875 neighborhood.
- 1876 **(g)** *Effect of denial.* If the Board of Adjustment denies an variance, the same or
- 1877 substantially similar variance cannot be resubmitted for a period of one year from

1878 the date of denial. The Board may waive this requirement if it finds there is valid
1879 new evidence or proof of change of conditions.

1880 **(h) Time limits on construction.**

- 1881 1. The landowner must obtain zoning permits for any construction authorized by
1882 variance within one year from the date the Board of Adjustment approved the
1883 variance.
1884 2. Failure to obtain appropriate permits within one year shall render the variance
1885 null and void.
1886 3. The board of adjustment may, upon request, extend the timeframe for a specific
1887 period, without another public hearing.

1888 **10.102. General Provisions Applicable to All Uses in All Zoning**
1889 **Districts**

1890 **(1) Accommodations for disabled persons.**

1891 **(a)** Where strict interpretation of this chapter would effectively deny disabled persons
1892 equal housing opportunity, and where the property does not meet the criteria for a
1893 variance under [s. 10.101\(10\)](#), the Zoning Administrator may grant a waiver to the
1894 dimensional standards of this chapter in order to provide reasonable
1895 accommodations as required by the Federal Americans with Disabilities Act, the
1896 Federal Housing Act and the Wisconsin Fair Housing Act. The permit shall be subject
1897 to the following conditions:

- 1898 1. Only the minimum relaxation of dimensional standards needed to provide
1899 reasonable accommodation shall be approved.
1900 2. No use, structure or other relaxation of standards shall be approved that would
1901 violate or undermine the stated purpose of this chapter.
1902 3. Where practicable, the improvement authorized by this provision shall be
1903 removed when the premises are no longer occupied or frequented by a disabled
1904 person.

1905 **(b)** If the zoning administrator denies a permit requesting an accommodation under
1906 this subsection, the denial may be appealed to the Board of Adjustment pursuant
1907 to [s. 10.101\(9\)](#).

1908 **(2) Buildings and structures**

1909 **(a) Accessory Buildings.**

- 1910 1. A Zoning Permit is required for any accessory building larger than 120 square feet
1911 in size.
1912 2. Zoning Permits are not required for accessory buildings equal to or less than 120
1913 square feet on non-permanent foundations, provided they meet setback, height,
1914 and lot coverage requirements.
1915 3. Zoning Permit fees may be exempt for buildings for large farm operations on
1916 farms of 35 acres or larger.

- 1917 4. Except for agricultural accessory buildings, a principal building must exist or be
- 1918 under construction prior to the construction of an accessory building.
- 1919 5. Except for accessory dwelling units, accessory buildings may not be used for living
- 1920 spaces. No guesthouses or apartments are allowed.
- 1921 6. Except for accessory dwelling units or as specifically permitted by conditional use
- 1922 permit, plumbing fixtures are prohibited in accessory buildings.
- 1923 7. All accessory buildings must meet size, height and lot coverage restrictions of the
- 1924 applicable zoning district.
- 1925 8. Accessory buildings must meet required setbacks from roads, Shoreland District,
- 1926 Wetlands, and Floodplain.
- 1927 **(b) Modifications to existing buildings.**
- 1928 1. Nothing herein contained shall require any change in the plans, construction or
- 1929 intended use of a building or premises for which plans have been prepared
- 1930 heretofore, and the construction of which shall have been diligently pursued
- 1931 within three (3) months after the effective date of this ordinance.

1932 **(3) Compliance with other laws, regulations and codes.**

1933 **(4) Junk and refuse.**

1934 Except for salvage yards, solid waste disposal operations or solid waste recycling centers

1935 under an approved conditional use permit, all properties shall be maintained to be free

1936 of accumulated junk or refuse.

1937 **(5) Lighting.**

1938 Any outdoor lighting associated with any permitted or conditional use shall be directed

1939 downward and away from adjacent properties and public rights-of-way, and shall be

1940 designed to minimize ambient light spill.

1941 **(6) Noise Reduction.**

1942 **(a) Town boards and the zoning committee may, as necessary, set decibel limits**

1943 **appropriate to the use and location as a condition on a Conditional Use Permit or on**

1944 **a conditional rezone petition.**

1945 **(b) Town boards and the zoning committee may, as necessary, recommend decibel**

1946 **limits appropriate to the use and location as a condition on rezones to General**

1947 **Commercial, Heavy Commercial, Limited Commercial or Hamlet Mixed-Use districts.**

1948 **(c) Noise abatement on blasting sites shall not conflict with or exceed the requirements**

1949 **of SPS 307, Wisconsin Administrative Code, as amended from time to time, or its**

1950 **successor administrative code regulations.**

1951 **(d) Noise levels shall be set to the db(a) decibel scale and should be appropriate to the**

1952 **background noise level of the surrounding area, and to the nature, duration and**

1953 **repetition of the proposed use. Table 1 describes common uses by typical decibel**

- 2023 i. A structure to which sub. d. applies may be larger than the size it was
 2024 immediately before the damage or destruction if necessary to
 2025 comply with applicable state or federal requirements, but no larger
 2026 than necessary to comply with said requirements.
- 2027 **3.** Repair, maintenance and renovation of nonconforming structures.
- 2028 a. A nonconforming principal structure may be maintained and repaired
 2029 within its existing building envelope.
- 2030 b. Maintenance and repair also includes such activities as interior remodeling,
 2031 exterior remodeling, and the replacement or enhancement of plumbing or
 2032 electrical systems, insulation, windows, doors, siding, or roof within the
 2033 existing building envelope.
- 2034 **4.** *Additions or alterations to nonconforming structures.* Any future additions to, or
 2035 any other alterations that expand the building envelope of, a nonconforming
 2036 structure shall conform to the provisions of this ordinance.

2037 **(8)** Parking and loading areas.

2038 **(a)** Purpose.

2039 The purpose of this section is to provide off-street vehicle parking, loading and
 2040 circulation standards sufficient to prevent congestion of public rights-of-way and
 2041 provide safe and efficient public access to properties, while minimizing the impact of
 2042 off-street parking areas on nearby properties and the natural environment.

2043 **(b)** Applicability.

2044 In all districts, in connection with all uses, at the time any new structure is erected, any
 2045 use of a structure or land is enlarged or increased in intensity, or any other use or
 2046 change of use is established, off-street parking, loading and circulation areas shall be
 2047 provided and located in accordance with the requirements of this section. Off-street
 2048 parking areas in existence as of the effective date of this ordinance shall not hereafter
 2049 be reduced below or further below the requirements for a similar new building or use.

2050 **(c)** General provisions.

- 2051 **1.** A scaled and dimensioned parking, loading and circulation plan shall be included
 2052 within a development plan submitted to and approved by the zoning
 2053 administrator prior to issuance of a zoning permit for construction or expansion
 2054 of any use. When a use requires a conditional use permit, such plan shall be
 2055 submitted with the application for the conditional use.
- 2056 **2.** No areas designated for parking, loading or circulation may be used for any other
 2057 purposes. Required parking spaces shall be used solely for the parking of licensed
 2058 automobiles of occupants, patrons and employees and licensed service vehicles.

- 2059 **3.** All parking spaces required to serve buildings erected or uses established shall be
 2060 located on the same zoning lot as the building or use served, except that parking
 2061 may be located off-site on another zoning lot provided all of the following criteria
 2062 are satisfied:
- 2063 **4.** Off-site parking shall be located only in the LC, HC, MI and PUD districts.
- 2064 **a.** The zoning lots including the principal use and off-site parking shall be
 2065 located no farther than 500 feet from one another;
- 2066 **b.** Adequate pedestrian connection and directional signage between the sites
 2067 exists or shall be provided;
- 2068 **c.** The continued availability of such off-site parking areas, necessary to meet
 2069 the requirements of this section, shall be ensured by an agreement among
 2070 all involved property owners describing the rights and limitations of all
 2071 property owners and businesses. Such agreement shall bind all heirs,
 2072 successors and assigns of each owner and shall be approved by the zoning
 2073 administrator before being recorded with the register of deeds.
- 2074 **d.** Off-site parking areas shall be subject to the same design standards as on-
 2075 site parking areas.
- 2076 **5.** The parking or storage of motor vehicles provided for in s. 10.102(8)(f) shall not
 2077 occur within parking spaces otherwise required by this section.
- 2078 **(d)** Design standards.
- 2079 **1.** Access. Adequate ingress and egress to parking and loading areas by means of
 2080 clearly limited and defined drives shall be provided. Access drives shall be
 2081 perpendicular to the public right-of-way wherever possible. Access drives shall be
 2082 spaced a safe distance from street intersections and each other, shall not be
 2083 located within vision corners, and may be limited in number and location
 2084 according to applicable local, county, state and federal standards.
- 2085 **2.** Surfacing. Within urban service areas, except for single family residences,
 2086 duplexes and manufactured homes: all parking areas, loading areas, driveways
 2087 and circulation areas shall be paved with a hard, all-weather surface such as
 2088 asphalt, concrete, Portland cement or brick. Outside of urban service areas and
 2089 for single family residences, duplexes and manufactured homes: gravel surfacing
 2090 is also permitted unless otherwise restricted by town ordinance, and grass
 2091 surfacing may be permitted for seasonal parking only. Seasonal means limited to
 2092 a period no longer than six months in a twelve month period, or related to a
 2093 unique or annually occurring event or condition of limited duration. All parking
 2094 areas shall be maintained in a smooth and dust free condition.
- 2095 **3.** Dimensions of parking spaces. Perpendicular (90-degree) parking is encouraged.
 2096 Each required off-street parking space shall have a stall width of at least 8 feet for
 2097 90-degree and parallel parking and 9 feet for angle parking, and a stall length of at
 2098 least 17 feet for 90-degree and angle parking and 23 feet for parallel parking.
 2099 Parking for people with disabilities shall be provided at a size, number, location
 2100 and with signage as specified by state and federal regulations, in addition to those

- 2101 spaces required in s. 10.102(8)(e). All spaces on hard-surfaced lots shall be
 2102 striped.
- 2103 **4.** Circulation. Minimum width of internal aisles providing two-way traffic access to
 2104 parking spaces shall be 24 feet. Minimum width of internal aisles providing one-
 2105 way traffic access to spaces shall be as follows: 10 feet for parallel (0-degree) to
 2106 45-degree parking, 16 feet for 46 degree to 60 degree parking, and 20 feet for 61
 2107 to 90 degree parking. Two-way traffic aisles shall not be permitted to serve angle
 2108 parking. Directional marking or signage, or both, shall be provided where required
 2109 to facilitate safe, efficient circulation. Uses with drive-through facilities shall
 2110 provide sufficient space on-site for all vehicles queuing to be served by or
 2111 otherwise waiting to do business at the facility. Such queuing space shall not
 2112 interfere with the use or operation of parking spaces, circulation aisles, access
 2113 drives, entrances or public roads.
- 2114 **5.** Loading areas. Uses which involve deliveries or removal of goods, materials,
 2115 supplies or waste by truck shall provide adequate off-street loading and
 2116 unloading facilities on the same lot as the principal use. Space reserved for
 2117 loading and unloading shall not be used for off-street parking spaces or vehicle
 2118 circulation. For such uses located in buildings with over 10,000 square feet of
 2119 gross floor area, at least one loading berth shall be provided. Each off-street
 2120 loading berth shall have a width of at least 10 feet and a length of at least 50 feet,
 2121 and shall be located no closer than 30 feet from any residence district.
- 2122 **6.** Drainage. Suitable grading and drainage shall be provided to collect and transmit
 2123 stormwater to appropriate retention or detention basins, drainageways, ditches
 2124 or storm sewers.
- 2125 **7.** Lighting. Any lighting used to illuminate off-street parking areas shall be directed
 2126 downward and away from adjacent properties and public rights-of-way.
- 2127 **8.** Setbacks. Parking, loading and circulation areas may be provided within required
 2128 front setbacks and side and rear yards. Areas for parking, loading and circulation
 2129 shall be a minimum of three feet from all property lines, except where this
 2130 requirement prohibits a proposed joint driveway or proposed shared parking.
- 2131 **9.** Screening and landscaping. Screening shall be provided in accordance with
 2132 specifications in s. 10.102(11). All hard-surfaced and graveled parking, loading
 2133 and circulation areas with 10 or more spaces shall be provided with accessory
 2134 landscape areas totaling not less than five percent of the surfaced area. Such
 2135 landscaping shall consist primarily of trees, bushes and shrubs. Landscaping may
 2136 be planted internal to the parking area itself within islands or around the
 2137 immediate perimeter and shall be reasonably distributed. Landscaping shall be
 2138 protected from damage by vehicles and shall be replaced if damaged or killed.
- 2139 **(e)** Required off-street parking spaces.

(f) Potential reductions in required spaces.

The zoning administrator may decrease the required number of off-street parking spaces by up to 25 percent of the requirement based on one or more of the following criteria:

- 2204 **1.** Technical documentation supplied by the applicant indicates, to the satisfaction
- 2205 of the zoning administrator, that actual parking demand for that particular
- 2206 development is less than the standard would suggest;
- 2207 **2.** Bicycle parking facilities will be provided through racks, lockers or equivalent
- 2208 structures located convenient to the proposed use;
- 2209 **3.** A public transportation route is located within 1,000 feet of the property;
- 2210 **4.** Shared parking for more than one use will be implemented, provided that the
- 2211 applicant(s) demonstrate that the same spaces may adequately serve two or
- 2212 more uses by reason of the hours of operation of such uses. The continued
- 2213 availability of such shared parking areas shall be ensured by an agreement among
- 2214 all involved property owners describing the rights and limitations of all property
- 2215 owners and businesses, and providing that if any of the uses sharing the parking
- 2216 changes, the agreement shall become null and void. Such agreement shall bind all
- 2217 heirs, successors and assigns of each owner and shall be approved by the zoning
- 2218 administrator before being recorded with the register of deeds.
- 2219 **5.** Reserve area. In the event the number of required spaces is reduced as allowed
- 2220 by s. 10.102(8)(f), the zoning administrator may also require that sufficient area
- 2221 be held in reserve for potential future development of parking to meet the
- 2222 requirements under s. 10.102(8)(e). If required, such reserve area shall be shown
- 2223 and noted on the development plan, maintained in open space use and
- 2224 developed with parking spaces when the zoning administrator determines that
- 2225 such development is necessary due to parking demand which exceeds original

- 2226 expectations, the loss of bicycle or public transit access or facilities, or the
2227 dissolution of a shared parking agreement.
- 2228 **(g) Parking and storage of trucks, buses and special vehicles.**
- 2229 **1.** In the Residential and Rural Residential districts, and on any lot in the Rural
2230 Mixed Use districts where the principal use is residential, motor vehicles used for

2239 341.266, Wis. Stats., or parts cars therefore, can be stored on a lot in any district
2240 provided that such vehicle is stored in such a manner that it does not constitute a
2241 health hazard and is screened from ordinary public view by means of a fence,
2242 rapidly growing trees, shrubbery or other appropriate means, as required by s.
2243 341.266(4), Wis. Stats.
- 2244 **4.** Farm trucks or trailers licensed under ss. 341.26(3) or 341.30, Wis. Stats., may be
2245 parked on lots in agriculture districts.
- 2246 **5.** Trucks with gross vehicle weight exceeding 12,000 pounds may be stored or
2247 parked only in the LC, HC, RI and MI districts, except that parking or storage of
2248 one truck and one road tractor and its trailer in excess of 12,000 pounds gross
2249 vehicle weight shall be permitted in the residence, rural homes and agricultural
2250 districts, subject to the following conditions:
- 2251 **a.** The vehicle shall be owned and operated by a person residing on the
2252 premises.
- 2253 **b.** In the residence districts, the lot area shall be not less than one acre.
- 2254 **c.** The vehicle shall not be parked or stored within the required highway or
2255 road setback area.
- 2256 **d.** The vehicle shall not be parked closer than 300 feet to another residence.
- 2257 **e.** No new buildings shall be constructed to house the vehicle.
- 2258 **f.** Before the vehicle may be parked or stored on the property, a certificate of
2259 compliance shall be issued by the zoning administrator.
- 2260 **6.** One racing vehicle and spare parts for such vehicle may be stored in the residence
2261 and rural homes districts, provided that such vehicle and spare parts are screened
2262 from public view in an enclosed building.
- 2263 **7.** Storage of no more than two racing vehicles and spare parts for such vehicles is
2264 permitted in any district except the residence and rural homes districts, provided
2265 that such vehicles and spare parts are screened from public view in an enclosed
2266 building.

- 2267 8. In any district, one school bus driven by a person residing on the premises may be
 2268 parked provided that in residence districts the minimum lot area for bus parking
 2269 is one acre.
 2270 9. Except as provided in s. 341.266(4), Wis. Stats., a motor vehicle that is inoperable
 2271 or unlicensed is considered salvage or junk and shall only be stored in a licensed
 2272 salvage recycling center. Trucks licensed on a monthly or quarterly basis shall be
 2273 considered currently licensed if they have been licensed for at least one period
 2274 during the previous year.

2275 **(9) Road setbacks / required front yards.**

2276 **(a)** Except as indicated in (a)1.c. and (b) below, or as permitted by variance, all
 2277 structures shall be set back from public roads as follows:

2278 **1. Divided highways.**

2279 **a. Except as exempted in c. below, all principal residential buildings must be at**
 2280 **least 200 feet from the right-of-way line.**

2281 **b. Accessory structures must meet the setbacks described for undivided**
 2282 **highways below.**

2283 **c. Exceptions. Principal dwellings meeting either of the following criteria must**
 2284 **meet the setbacks for undivided highways in 2. below:**

2285 **i. Principal dwellings on lands originally zoned for residential use prior**
 2286 **to May 1, 1992.**

2287 **ii. Lands where noise control barriers effectively reduce the noise level**
 2288 **from traffic to 67 decibels [db(a)] or less.**

2289 **2. Undivided highways.**

2290 **a.** State and Federal Highways. All structures must be at least 100 feet from
 2291 the centerline, or 42 feet from the right-of-way line, whichever is greater.

2292 **b.** County Trunk Highways. All structures must be at least 75 feet from the
 2293 centerline, or 42 feet from the right-of-way line, whichever is greater.

2294 **c.** Town Roads. All structures must be at least 63 feet from the centerline, or
 2295 30 feet from the right-of-way line, whichever is greater.

2296 **d.** Service Roads. All structures must be at least 30 feet from the right-of-way
 2297 line.

2298 **(b) Exceptions.**

2299 **1.** In lots or platted subdivisions created before (insert date) where a building line
 2300 shall have been established by the construction of buildings on 30 percent of the
 2301 lots in any one (1) block, such established setback line shall be the setback for
 2302 that block, but in no event shall such setback be less than 20 feet.

2303 **2.** For lots in the HAM-M or HAM-R zoning districts, setbacks shall be as described in
 2304 ss. 10.261(5) and 10.262(5).

2305 **(10) Setback measurements and exceptions.**

2306 **(a)** For purposes of entry to buildings, steps, stoops, decks or ramps may be
 2307 constructed in such a manner that they intrude into required yard or setback or

- 2308 areas provided that all of the following limitations and conditions are satisfied:
- 2309 1. Height shall not exceed 5 feet aboveground level, not including railings.
- 2310 2. Width shall not exceed 12 feet side to side.
- 2311 3. Structure shall extend no farther than 10feet from the front of the building to
- 2312 which it is attached or up to the front property line, whichever is less.
- 2313 4. Structure shall not be enclosed. Railings which do not exceed 3 1/2 feet in height
- 2314 and which are of open architecture and not solid in appearance are permitted.
- 2315 5. Structure shall not interfere with existing or planned roads, sidewalks, gas and
- 2316 electrical lines, sewers, drainageways, and other utilities or public improvements.
- 2317 The zoning administrator may require written verification from appropriate
- 2318 agencies before issuing a zoning permit.
- 2319 6. No part of the structure shall extend into any required vision clearance triangle.
- 2320 (b) For single family residences or duplexes, single story bay windows may be
- 2321 constructed in such a manner that they project three (3) feet or less into a required
- 2322 yard or setback area provided that such windows do not occupy, in the aggregate,
- 2323 more than one-third (1/3) of the wall of the building.
- 2324 (c) Roof overhangs, soffits and awnings that are not supported to the ground may
- 2325 extend into any required setback or yard by not more than three (3) feet.
- 2326 (d) In platted subdivisions recorded before the adoption of this ordinance where a
- 2327 building line shall have been established by the construction of buildings on 30
- 2328 percent of the lots in any one (1) block, such established setback line shall be the
- 2329 setback for that block, but in no event shall such setback be less than 20 feet.
- 2330 (e) More restrictive setback requirements may be required under Chapters 11 or 17,
- 2331 Dane County Code.

2332 (11) Topography Near Property Lines.

2333 (a) Purpose.

2334 The purpose of this subsection is to set forth the minimum requirements for preserving

2335 existing topography near property lines whenever development is planned, and to

2336 promote and protect the public health, safety, convenience and general welfare. This

2337 sub-section is intended to regulate development:

- 2338 7. to protect adjacent property owners from possible damage due to changes to the
- 2339 existing topography of adjoining lands;
- 2340 8. to retain stormwater runoff on each property undergoing development; and
- 2341 9. to preserve the general character of neighborhoods.

2342 (b) Standards.

- 2343 1. Except as authorized in sub. (c), the topography, including both surface and
- 2344 subsurface structure, within five (5) feet of any property line at the
- 2345 commencement of any development shall remain unchanged.
- 2346 2. When land disturbing activities associated with development occur within five (5)
- 2347 feet of any property line, finished grades in that area shall be restored to the
- 2348 topography in existence before the land disturbing activity began.

- 2349 **3.** The established grade of the adjoining property shall determine the finished
 2350 grade at the property line for any development. The owner of the property under
 2351 development bears the burden of proof as to the established grade at the
 2352 property line and the topography within five (5) feet of the property line. The
 2353 Zoning Administrator may require detailed site grading plans of existing and
 2354 proposed conditions prior to commencement of land disturbing activities.
- 2355 **4.** Natural watercourses along property lines shall be maintained. Existing drainage
 2356 ways and drainage easements along property lines including, but not limited to,
 2357 stormwater management areas shown on subdivision plats and certified survey
 2358 maps, shall be maintained.

2359 **(c)** Exceptions.

- 2360 **1.** A positive slope of one-half (1/2) inch vertical per one (1) foot horizontal within
 2361 five (5) feet of the property line is allowed to provide proper drainage away from
 2362 a one or two family residence.
- 2363 **2.** Development in Floodplain Districts requiring fill to comply with chapter 17 is
 2364 exempt from this section.
- 2365 **3.** Upon written application, the Zoning Administrator may authorize exceptions
 2366 resulting in changes to the existing topography at and within five (5) feet of any
 2367 property line that would promote the purposes stated in this ordinance, only if
 2368 the results do not direct additional stormwater runoff toward adjacent
 2369 properties. Proposed exceptions may include, but are not limited to, retaining
 2370 walls, berms and other structures, and other changes to existing grade at and
 2371 within five (5) feet of a property line. The Zoning Administrator may require the
 2372 submittal of detailed site grading plans of existing and proposed conditions
 2373 including, but not limited to, detailed topographical information of the subject
 2374 and adjoining properties, before land disturbing activities commence.

2375 **(12)** Visual Screening

2376 **(a)** Purpose.

2377 **(b)** Applicability.

- 2378 **1.** Screening is required along the interior boundary of any lot in the Limited
 2379 Commercial (LC), General Commercial (LC), Heavy Commercial (HC) and
 2380 Manufacturing/Industrial (MI) districts that are adjacent to land in the Single
 2381 Family Residential (SFR), Two Family Residential (TFR), Multi Family Residential
 2382 (MFR), Rural Residential (RR) or Rural Mixed-Use (RM) Districts.
- 2383 **2.** At the town board and zoning committee’s discretion, screening may also be
 2384 required as a condition on any conditional use permit, where appropriate to
 2385 minimize visual impact to neighboring properties.
- 2386 **(c)** When a use requires a vegetative screening, the requirements of this section shall
 2387 apply. A vegetative screening plan shall be submitted at the time of permit
 2388 application, and no permit shall be issued until an acceptable vegetative screening
 2389 plan has been approved. The plan shall provide for a minimum of 30 feet in depth,
 2390 parallel to any area used for vehicles or buildings. The vegetative screening area

2391 shall not be used for any purpose other than screening, except at designated points
2392 of ingress and egress delineated in the plan. Vegetative screens that are within
2393 1,000 feet of the ordinary high water mark of a lake, pond or flowage, or 300 feet
2394 of the ordinary high water mark of a navigable river or stream, must comply with
2395 applicable portions pursuant to Chapter 11, Dane County Code.

2396 **(d) Dimensions and design.**

2397 **1. Vegetative screening.** Within the screening area, vegetation shall consist of:

2398 **e.** A minimum of 2 parallel rows of trees, with all rows planted 10 feet apart.

2399 **f.** Within any given row, there shall be a minimum of one tree every 12 feet.

2400 **g.** Vegetative screening densities along the front of the property adjacent to

(4) Zoning Maps

(a) Base and overlay zoning districts established by this chapter are shown on the Official Zoning Map of Dane County, on file with the Zoning Administrator. Together with all explanatory materials thereon, the Official Zoning Map of Dane County is hereby made part of this chapter. Where the Official Zoning Map does not indicate a zoning district for a particular area, unless the Map is in error, that area is either within the corporate limits of a city, within an area subject to extraterritorial zoning, and/or not subject to any rules associated with a zoning district.

- 3166 centerlines of streams, rivers, or other continuously flowing watercourses shall be
3167 construed as following the channel centerlines of such watercourses, and, in the
3168 event of a natural change in the location of such streams, rivers, or other
3169 watercourses, the zoning district boundary shall be construed as moving with the
3170 channel centerline.

3175 which heretofore have been vacated, or which may be vacated hereafter, shall be
3176 in the same zoning district as the lots, pieces or parcels abutting both sides of the
3177 street, highway, road or alley involved. If the lots, pieces or parcels abutting each
3178 side of the street, highway, road or alley were located in different zoning districts
3179 before the said street or alley was vacated, the centerline of the said vacated street
3180 or alley shall be the boundary line of the respective zoning districts..
- 3181 **(g)** Where the exact location of a zoning district boundary, as shown on the Official
3182 Zoning Map, is uncertain, the boundary location shall be determined by the Zoning
3183 Administrator.

3288 (a) Conditional Use Standards in Farmland Preservation Districts. In addition to the
3289 requirements of [s. 10.101\(7\)\(d\)](#), the zoning committee must find that the following
3290 standards are met before approving any conditional use permit in any Farmland
3291 Preservation zoning district.

- 3292 1. The use and its location in the Farmland Preservation Zoning District are
-
- 3293 consistent with the purposes of the district.
-
- 3294 2. The use and its location in the Farmland Preservation Zoning district are
-
- 3295 reasonable and appropriate, considering alternative locations, or are specifically
-
- 3296 approved under state or federal law.
-
- 3297 3. The use is reasonably designed to minimize the conversion of land, at and around
-
- 3298 the site of the use, from agricultural use or open space use.
-
- 3299 4. The use does not substantially impair or limit the current or future agricultural
-
- 3300 use of surrounding parcels of land that are zoned for or legally restricted to
-
- 3301 agricultural use.
-
- 3302 5. Construction damage to land remaining in agricultural use is minimized and
-
- 3303 repaired, to the extent feasible.

3304 (b) Rezones out of a Farmland Preservation Zoning District. The county board must find
3305 that the following standards are met before approving any petition to rezone any
3306 land from a Farmland Preservation Zoning district to a non-Farmland Preservation
3307 zoning district:

- 3308 1. The land is better suited for a use not allowed in the farmland preservation
-
- 3309 zoning district.
-
- 3310 2. The rezoning is consistent with the current adopted version of the
- Dane County*
-
- 3311
- Comprehensive Plan*
- .
-
- 3312 3. The rezoning is substantially consistent with the current state- certified
- Dane*
-
- 3313
- County Farmland Preservation Plan*
- .
-
- 3314 4. The rezoning will not substantially impair or limit current or future agricultural
-
- 3315 use of surrounding parcels of land that are zoned for or legally restricted to
-
- 3316 agricultural use.

4682 **10.260. Hamlet Zoning Districts**4683 **(1) Principles of Traditional Neighborhood Design.**

4684 The Hamlet Design zoning districts are intended to accommodate existing or new
4685 developments, or redevelopments that have the following characteristics:

4686 **(a) Compact and walkable.** Neighborhoods should be compact enough to encourage
4687 development of pedestrian connections and destinations without excluding
4688 automobiles.

4689 **(b) A hierarchy of interconnected streets.** Streets and roads function as a connected
4690 network, dispersing traffic and offering a variety of pedestrian and vehicular routes
4691 to any destination while connecting and integrating the neighborhood with
4692 surrounding communities.

4693 **(c) An identifiable neighborhood/community center and edges.** A center that includes
4694 public spaces—such as a square, green or important street intersection—and public
4695 buildings—such as a library, church or community center, transit stop and retail
4696 businesses—provides a civic focus and informal place of gathering; and edges that
4697 promote neighborhood identity.

4698 **(d) A variety of housing choices within the same neighborhood.** The neighborhood
4699 includes a variety of dwelling types so that younger and older people, singles and
4700 families, of varying income levels may find places to live.

4701 **(e) A diverse mix of activities (residences, shops, schools, workplaces and parks, etc.)**
4702 occur in proximity. Many activities of daily living should occur within walking
4703 distance, allowing independence to those who do not drive and adding to
4704 neighborhood vitality.

4705 **(f) A range of transportation options.** Streets are designed to promote the safe and

5238 10.290. Special Use Zoning Districts

5239 10.291. PUD (Planned Unit Development) Zoning District

5240 (1) Purpose.

5241 The purpose of the PUD Planned Unit Development district is to promote improved
5242 development design by allowing greater flexibility and imagination in urban and rural
5243 development while ensuring substantial compliance with the intent of the zoning
5244 ordinance and adopted plans. The district allows variations in uses, structures, densities,
5245 setbacks and yard requirements, building heights, landscaping and other provisions for
5246 developments which are cohesively planned and implemented. In exchange for such
5247 flexibility, the project (hereinafter referred to as Planned Unit Development or PUD)
5248 must provide a higher level of design and functionality than normally required for other
5249 developments.

5250 (2) Permitted uses.

5251 The only uses permitted within each mapped PUD district shall be those lawful use(s)
5252 in place at the time of PUD district mapping plus those uses explicitly listed, depicted and
5253 described as permitted uses within that particular PUD district.

5254 (3) Other standards.

5255 Building height limit, Area, frontage and population density regulations; Lot coverage;
5256 Number of principal buildings per lot; Setback from road and front property line and
5257 front yard requirements; Side and rear yard requirements; Off-street parking; Screening
5258 and landscaping provisions; Sign regulations. Zoning limitations on or requirements for
5259 building height, lot area, lot frontage/width, housing unit or population density, number
5260 of buildings per lot, lot coverage, setbacks, yard areas, off-street parking and loading,
5261 screening or landscaping, and signage shall be specified for each particular PUD district.
5262 Such requirements shall be generally described as part of an approved General
5263 Development Plan (GDP) for each PUD and explicitly specified as part of an approved
5264 Specific Implementation Plan (SIP). Where they provide sufficient detail, such
5265 specifications shall supersede similar specifications found elsewhere in the zoning
5266 ordinance.

5267 (4) Criteria for approval of PUDs.

5268 Planned unit developments shall meet all of the following criteria to be approved:

- 5269 (a) The development shall be consistent with a town comprehensive plan approved by
5270 both the town and county.
5271 (b) The uses and their intensity, appearance, design and arrangement shall be

- 5272 compatible with the physical nature of the site and area, and shall not have a
5273 significant adverse impact on the natural environment.
- 5274 (c) The uses and their intensity, appearance, design and arrangement shall in no
5275 foreseeable manner diminish or impede the uses, values and normal and orderly
5276 development of surrounding properties.
- 5277 (d) The uses and their intensity, appearance, design and arrangement shall not create
5278 access issues, traffic or parking demand inconsistent with existing or anticipated
5279 transportation facilities.
- 5280 (e) The development shall include adequate provision for the continued preservation,
5281 maintenance and improvement of natural areas and open space.
- 5282 (f) The applicant shall provide evidence of financial feasibility and assurances that each
5283 phase can be completed in a manner which would not result in an adverse effect
5284 upon the community as a result of termination at that point.
- 5285 (g) The development shall comply with all other applicable ordinances.
- 5286 (5) Planned unit development approval process.
- 5287 There is a two step review and approval process for establishing a PUD district. The first
5288 step consists of submittal of a General Development Plan (GDP) that outlines the nature
5289 of the Planned Unit Development and provides information necessary for consideration
5290 and decision-making by the town and county. The second step involves submittal of a
5291 Specific Implementation Plan (SIP) which documents the detailed actions the applicant
5292 will take to implement the General Development Plan. No PUD zoning district can be
5293 established without an approved GDP and corresponding SIP(s). If approved by the
5294 zoning administrator, the applicant may combine steps for simple PUDs involving a small
5295 tract of land or proceed with both steps concurrently.
- 5296 (a) General Development Plan (GDP).
- 5297 1. Prior to submitting a formal application, the prospective applicant shall present
5298 the concept of the proposed PUD to, and consult with, representatives from the
5299 affected town, staff from the planning and development department, and the
5300 zoning committee regarding the project, required application materials, and the
5301 PUD review process. These representatives may comment on the concept, but
5302 their comments are not binding on the representatives nor indicative of their
5303 position on a formal application. The review by the town and the zoning
5304 committee may take place at a joint meeting.
- 5305 2. The applicant shall submit to the zoning administrator a formal application for
5306 GDP review and approval, along with required application materials. The zoning
5307 administrator shall process such applications under the standard zoning map
5308 amendment procedure, plus additional procedures established herein. The
5309 applicant shall include twenty-five (25) copies of all required materials, along with
5310 the applicable fee provided for in chapter 12.

- 5311 **3.** The zoning administrator shall determine whether the GDP submittal is complete
 5312 in reference to the following required application materials:
 5313 **a.** Name of the applicant, agent, property owner(s) and entity which intends to
 5314 develop the land.
 5315 **b.** A complete written legal description of the subject property.
 5316 **c.** A map(s) of the subject property showing all lands for which the PUD is
 5317 proposed, and all other lands within 1,000 feet of the subject property.
 5318 Said map shall clearly indicate the current property owners and zoning of
 5319 the subject property and all lands with 500 feet, the boundaries of all
 5320 political jurisdiction(s) in the area and all lot dimensions of the subject
 5321 property. The map shall be at a scale not less than one inch equals 800
 5322 feet.
 5323 **d.** A general written description of the proposed PUD, including:
 5324 i. general project themes, images and design concepts;
 5325 ii. general mix of dwelling unit types and land uses;
 5326 iii. approximate development densities;
 5327 iv. general treatment of natural features and provisions for open space
 5328 preservation;
 5329 v. general relationship to nearby properties and existing and planned
 5330 streets, highways and other transportation improvements;
 5331 vi. general relationship to the approved town land use plan; and
 5332 vii. a general plan for phasing, including a planned timeline for submittal
 5333 of one or more SIPs.
 5334 **e.** A description of why the applicant wishes to develop the project using PUD
 5335 zoning. This description shall include justification for the proposed PUD,
 5336 and shall indicate how the criteria in sub. 10.153(4) will be met.
 5337 **f.** A list of standard zoning provisions which will be met by the proposed
 5338 PUD, standards which will not be met by the proposed PUD, standards
 5339 which will be more than met by the proposed PUD, and the location(s) in
 5340 which they apply. This list shall be organized in the following manner:
 5341 i. land use types and mix (list range of permitted uses);
 5342 ii. density and intensity of land uses (list range of dwelling units per
 5343 acre, lot sizes, lot frontages/widths, setbacks and yard requirements,
 5344 lot coverage, building heights, lot dimensions, number of units, and
 5345 floor area ratios for non-residential uses);
 5346 iii. landscaping and screening;
 5347 iv. off-street parking and loading;
 5348 v. signage; and
 5349 vi. other applicable standards.
 5350 **g.** GDP map(s) at a minimum scale of 1 inch equals 100 feet (11" x 17"
 5351 reduction shall also be provided) of the proposed project showing at least
 5352 the following information:
 5353 i. land use layout and the location of major public streets and/or

- 5354 private drives;
- 5355 ii. location of recreational and open space areas and facilities; and
- 5356 iii. statistical data on lot sizes in the development, the approximate
- 5357 areas of large development lots and pads, and density/intensity of
- 5358 various parts of the development.
- 5359 iv. A conceptual landscaping plan, noting approximate locations and
- 5360 types of existing and planned landscaping, screening and fencing.
- 5361 v. A general signage plan, including approximate locations, types,
- 5362 heights, lighting and sign face areas.
- 5363 vi. Evidence of financial capability pertaining to construction,
- 5364 maintenance and operation of all public and private improvements
- 5365 associated with the proposed development.
- 5366 vii. Other maps or information requested by the town or county.
- 5367 viii. In the case of a rural PUD, the GDP shall identify any areas proposed
- 5368 to be subject to conservancy easements, the nature of the
- 5369 conservancy easements to be imposed, and other features designed
- 5370 to protect the rural character of the area in which the PUD is
- 5371 proposed.
- 5372 ix. After the GDP submittal is complete, the zoning administrator shall
- 5373 forward two copies of the submittal to the town clerk of the affected
- 5374 town and schedule the petition for zoning committee public hearing.
- 5375 x. The affected town shall review and act on the proposed GDP. The
- 5376 town may approve the GDP with conditions that identify specific
- 5377 limits or elements the town requires to be included in the SIP.
- 5378 xi. The zoning committee, after a public hearing and after receiving
- 5379 comments from the affected town, shall forward its
- 5380 recommendation on the proposed GDP to the county board. The
- 5381 GDP may be approved with conditions that identify specific limits or
- 5382 elements the county requires be included in the SIP. If the town
- 5383 board approves the GDP subject to conditions and such conditions
- 5384 are amended or deleted by the county, the GDP as approved by the
- 5385 county shall be submitted to the town board for approval of the
- 5386 county's conditions or denial of the GDP.
- 5387 xii. The county board shall act on the GDP and, if the GDP is approved,
- 5388 shall establish through its approval a delayed effective date (DED)
- 5389 totaling at least 12 months within which one or more SIPs must be
- 5390 filed in order to effectuate the rezoning and establish the PUD on the
- 5391 zoning district map. Such timeframe may later be extended through
- 5392 an amendment to the approved GDP, which shall follow the same
- 5393 process as GDP approval. Failure to file an SIP(s) within the delayed
- 5394 effective date, or to extend said date, shall cause the rezoning to
- 5395 become null and void.
- 5396 xiii. Approval of the GDP shall establish the basic right of use for the

5397 subject property in conformity with the approved plan, but approval
5398 of such plan shall not make permissible in any area of the PUD those
5399 uses proposed until an SIP is approved for that area. No
5400 development may occur within a PUD district which is inconsistent
5401 with an approved GDP.

5402 **(b) Specific Implementation Plan (SIP).**

- 5403 1. The applicant may submit to the zoning administrator an application for one or
5404 more SIPs along with required application materials within the delayed effective
5405 date period as established through county board approval of the rezoning to PUD
5406 (GDP approval). If such SIP(s) has not been submitted by the Delayed Effective
5407 Date, the approved GDP shall be null and void for those portions of the subject
5408 property not yet covered by an approved SIP, and the zoning administrator shall
5409 approve no further SIPs for the property under the previously approved GDP. In
5410 the event all or part of a GDP is rendered null and void, the zoning on the
5411 property shall revert to the zoning category existing prior to the PUD rezoning.
- 5412 2. The zoning administrator shall determine whether the SIP submittal is complete
5413 in reference to the following required application materials
- 5414 3. Name of the applicant, agent, property owner(s) and entity which intend to
5415 develop the land.
- 5416 4. A complete written legal description of the SIP area.
- 5417 5. A map showing the relationship of the SIP area to the approved GDP area.
- 5418 6. A written description of the proposed SIP area within the PUD, including:
- 5419 a. specific project themes, images and design features;
- 5420 b. a specific list of permitted dwelling unit types and land uses;
- 5421 c. specific development densities by dwelling units per acre, lot sizes, lot
5422 frontages/widths, setbacks and yard requirements, lot coverage, building
5423 heights, lot dimensions, number of units, and floor area ratios for non-
5424 residential uses;
- 5425 d. specific treatment of natural features and provisions for open space
5426 preservation;
- 5427 e. specific relationship to the remainder of the PUD included in the approved
5428 GDP, nearby properties and existing and planned streets, highways and
5429 other transportation improvements; and
- 5430 f. a development schedule indicating project stages.
- 5431 g. A written description demonstrating the consistency of the proposed SIP
5432 with the approved GDP and the criteria in s. 10.291(4)., and identifying any
5433 and all deviations between the approved GDP and the proposed SIP.
- 5434 h. An SIP map at a minimum scale of 1 inch equals 100 feet (11" x 17"
5435 reduction shall also be provided) of the proposed project showing at least
5436 the following information:
- 5437 i. locations, sizes, dimensions and permitted uses of all lots and
5438 building sites (detailed lot layout/conceptual subdivision plan
5439 required for SIPs with multiple lots);

- 5440 ii. locations, sizes and dimensions of all structures (minimum setbacks
5441 and yard areas);
- 5442 iii. delineations of all water bodies, wetlands, floodplains, steep slopes
5443 and other sensitive environmental areas;
- 5444 iv. locations, dimensions and surface type of all driveways, walkways,
5445 trails, parking and loading areas and roads;
- 5446 v. detailed off-street parking lot and stall design;
- 5447 vi. location of all public and private utilities;
- 5448 vii. location, type and intensity of outdoor lighting;
- 5449 viii. location of recreational and open space areas and facilities,
5450 specifically describing those that are to be reserved or dedicated for
5451 public use; and
- 5452 ix. statistical data on lot sizes in the development, the exact areas of all
5453 development lots and pads, density/intensity of various parts of the
5454 development, floor area ratios, and lot coverage percentages.
- 5455 i. A detailed landscaping plan for the area included in the SIP, specifying the
5456 location, species, and installed and mature size of all existing and proposed
5457 trees, shrubs and fencing.
- 5458 j. A signage plan for the project, including the type, location, height,
5459 dimensions, lighting and sign face area of all proposed signs.
- 5460 k. An erosion control, drainage and stormwater management plan.
- 5461 l. Building elevations for all buildings, including building heights and
5462 materials.
- 5463 7. After the SIP submittal is complete, it shall be forwarded to the town clerk of the
5464 affected town. The town may then forward any comments and recommendations
5465 on the proposed SIP to the zoning administrator within 60 days. Alternatively, at
5466 the sole discretion of the affected town, the town may forward its comments and
5467 recommendations to the zoning administrator prior to the zoning administrator's
5468 determination of SIP submittal completeness, in which case the 60 day review
5469 period is not required.
- 5470 8. The planning and development director and zoning administrator shall review the
5471 submitted SIP with reference to the GDP approval, the evaluation criteria in s.
5472 10.291(4), and town comments and recommendations. Within 50 days of receipt
5473 of a complete submittal (of within 10 days of such receipt in the event that the
5474 town offers comments and recommendations before the zoning administrator's
5475 determination of completeness is made), the director and zoning administrator
5476 shall determine whether the SIP is consistent with the approved GDP.
5477 Inconsistencies shall require an amendment to the GDP according to the
5478 procedure in sub. 10.291(5)(a). If generally consistent with the approved GDP and
5479 the evaluation criteria, the director and zoning administrator shall, within such
5480 timeframe, approve the SIP as submitted or with modifications necessary to
5481 achieve full consistency. If approved with modifications, the applicant shall

5482 submit modified SIP materials consistent with the approval before the issuance of
5483 zoning permits.

5484 **9.** The approved SIP shall provide the basis for the issuance of all subsequent
5485 permits including, but not limited to, zoning permits, to allow development with
5486 the SIP area. Any portion of an approved SIP for which a zoning permit is not
5487 issued within three years of SIP approval shall expire, and a new SIP must be
5488 submitted and approved for that area before any development may occur.

5489 **10.** As an alternative to SIP technical review by the zoning administrator, planning
5490 and development director and affected town, approval of the GDP may include
5491 detailed restrictive covenants specific to the PUD that establish a design review
5492 committee and design review process to review SIP submittals so as to ensure
5493 compliance with the GDP. All other requirements for the SIP per para. (b) above
5494 shall remain in effect if this option is approved by the town and county as part of
5495 the GDP.

5527 10.300. Overlay Districts

5528 10.301. AED (Adult Entertainment) Overlay District

5529 (1) Statement of Purpose.

5530 It is the purpose of this district to establish reasonable and uniform regulations of the
5531 use of property for adult entertainment establishments in order to prevent the adverse
5532 secondary effects associated with these businesses and thereby promote the health,
5533 safety, morals, and general welfare of the citizens of Dane County. It is not the intent or
5534 effect of this ordinance to restrict or deny access by adults to sexually oriented
5535 entertainment protected by the First Amendment, or to deny access by the exhibitors of
5536 sexually oriented entertainment to their intended market.

5537 (2) Findings.

5538 While the County Board recognizes that freedom of speech is among our most precious
5539 and highly protected rights, and wishes to act consistently with full protection of those
5540 rights, based on evidence concerning the adverse secondary effects of adult
5541 entertainment establishments on the community presented in hearings and in reports
5542 made available to the Board, and on findings incorporated in the cases of City of Los
5543 Angeles v. Alameda Books, Inc., 535 U.S. 425 (2002); Renton v. Playtime Theaters, Inc.,

5563 information from other communities including, but not limited to, Fort Worth & Dallas,
5564 Texas; Palm Beach County, Florida; Garden Grove, California; Austin, Texas; Phoenix,
5565 Arizona; Indianapolis, Indiana; and Los Angeles, California, the County of Dane, relying
5566 upon the experience of other local governments in this state and throughout the
5567 country, finds as follows:

- 5568 (a) That adult entertainment establishments may have an adverse secondary effect on
5569 the surrounding community because the sexual nature of the business may,
5570 regardless of the intentions of the proprietors, attract persons seeking prostitution
5571 or unlawful drugs, or who are inclined to be disorderly or disruptive;
- 5572 (b) Adult entertainment establishments are an intense commercial use which create a
5573 large volume of foot and automobile traffic in the vicinity of the establishment,
5574 which may require police and other municipal services which may not be readily
5575 available in towns, and which may conflict with the preservation of farmland by
5576 encouraging scattered commercial development;
- 5577 (c) Adult entertainment establishments have their peak activity at hours and days
5578 which are incompatible with residential uses, and have a larger customer volume
5579 than other entertainment establishments;
- 5580 (d) Because of the potential for negative impacts on property values, the peace and
5581 good order of the community and the welfare of individuals affected by adult
5582 entertainment establishments, it is necessary to minimize the secondary effects of
5583 adult entertainment;
- 5584 (e) It is the intent of this section to protect the health, safety and welfare of the
5585 citizens of Dane County and to further preserve the quality of life and to preserve
5586 the urban and rural characteristics of its neighborhoods. The intent of the Adult
5587 Entertainment Overlay District is to regulate the location of such establishments.

5588 (3) Limitations.

5589 Nothing in this section shall be construed to permit the regulation of any activities
5590 conducted in adult entertainment establishments which are entitled to protection under
5591 the First Amendment of the United States Constitution, including:

- 5592 (a) plays, operas, musicals or other dramatic works that are not obscene;
- 5593 (b) classes, seminars, or lectures which are held for a serious scientific or educational
5594 purpose and that are not obscene.
- 5595 (c) rental or sale of video cassettes, DVD videodiscs, or other electronic media for
5596 private viewing off the premises.

5597 (4) Determination of obscenity.

5598 Whether or not an activity is obscene shall be judged by consideration of the following
5599 factors:

- 5600 (a) whether the average person, applying contemporary community standards, would

- 5601 find that the activity taken as a whole appeals to prurient interest in sex;
- 5602 **(b)** whether the activity depicts or describes sexual conduct in a patently offensive
- 5603 way, as measured against community standards; and
- 5604 **(c)** whether the activity taken as a whole lacks serious literary, artistic, political or
- 5605 scientific value.
- 5606 **(5) Applicability.**
- 5607 The overlay district shall apply only to lands zoned M-I, Manufacturing and Industrial.
- 5608 **(6) Permitted Uses.**
- 5609 An adult entertainment establishment shall be a permitted use within the overlay
- 5610 district.
- 5611 **(7) Standards for siting of adult entertainment establishments.**
- 5612 Adult entertainment establishments shall meet all of the following requirements:
- 5613 **(a)** Location of any particular adult entertainment establishment must be not less than
- 5614 1,000 feet from any church, synagogue, temple, mosque or any other place of
- 5615 worship, any residentially zoned district, park, school, playground, day care center,
- 5616 public library and any other adult book store or adult entertainment establishment.
- 5617 **1.** Measurement shall be made in a straight line, without regard to intervening
- 5618 structures or objects, from the nearest portion of the building or structure used
- 5619 as the part of the premises where adult entertainment is conducted, to the
- 5620 nearest property line of the premises of a use listed in sub (a). Presence of a City,
- 5621 County or other municipal boundary shall not affect the calculation and
- 5622 application of the distance requirements of sub (a).
- 5623 **(b)** There shall be no display windows on the premises;
- 5624 **(c)** The business may have only one (1) non-flashing business sign, and which shall be
- 5625 not larger than 4 feet by 4 feet;
- 5626 **(d)** A one square foot sign shall be placed on each public entrance which shall state
- 5627 “Admittance to adults only” and may include other pertinent business information;
- 5628 **(e)** The owner and operator of an adult entertainment establishment shall agree to
- 5629 comply with all Federal, State and Local laws and ordinances, including those
- 5630 regulating obscenity and alcoholic beverages, and shall further insure that minors
- 5631 are not allowed on the premises. Solicitation for purposes of prostitution shall be
- 5632 strictly prohibited; and
- 5633 **(f)** There shall be no areas in the adult entertainment establishment in which
- 5634 entertainment is provided which are not fully visible from the main area of the
- 5635 establishment. No entertainment may occur in areas of thee stablishment which
- 5636 are set off by doors, curtains, screens, barriers, café or saloon doors or other
- 5637 obstructions.
- 5638 **(8) Severability.**

5639 The provisions of this ordinance shall be severable. The County Board finds that it would
5640 have enacted all the provisions of this ordinance on the basis of any one of the findings
5641 in section (1).

5642 10.302. HD (Historic) Overlay District

5643 (1) Statement of purpose.

5644 The purpose of the historic overlay district is to effect and accomplish the protection,
5645 enhancement and perpetuation of such sites and structures which represent or reflect
5646 elements of the county's cultural history, and to safeguard the county's historic and
5647 cultural heritage as embodied in such sites and structures, expanding upon such
5648 protection as is afforded by chapter 157, 1987 Wis. Stats.

5649 (2) Designation.

5650 No site may be designated which is not cataloged and no structure may be designated
5651 without the owner's written consent. The County of Dane is hereby deemed to have
5652 consented to the designation of all county-owned sites and structures which may
5653 hereafter be designated by the park commission with the approval of the county board.

5654 (3) Indication.

5655 Sites and structures which are designated shall be indicated by attaching the suffix "HD"
5656 to the zoning district in which the site or structure is located.

5657 (4) Protection of historic sites.

5658 No building or structure, whether or not a permit therefore is required under this
5659 ordinance, shall be erected on, and no use which involves soils disturbance shall be
5660 made of, any historic site except that with consent of the committee, an owner may
5661 remove, replace or add vegetation designed to preserve the site. There shall be a clear
5662 area extending 25 feet in all directions from any historic site except that on substandard
5663 lots where the clear area distance of 25 feet cannot reasonably be maintained, the clear
5664 area distance shall be reduced to a distance equal to twice the depth of any excavation
5665 intended to be constructed on the lot or 10 feet, whichever is greater, unless a more
5666 restrictive minimum distance is imposed by state statute in which case the statutory
5667 minimum shall apply.

5668 (a) The committee is empowered to grant a waiver from the clear zone requirements
5669 above for any lot provided that the committee finds that the owner cannot
5670 otherwise make reasonable use of the lot for the zoning classification it bears and
5671 that the site is preserved intact. The committee shall seek the advice of the park
5672 commission when considering any waiver application.

5673 (b) In no event shall a waiver under this section allow a structure to be located closer

5674 to an historic site than a distance equal to twice the depth of any excavation
5675 intended to be used for that part of the structure closest to the historic site, and in
5676 any event not closer than is permitted by statute.

5677 (c) Replacement private onsite sewage treatment systems, and existing roads,
5678 including repairs thereto, may be located in clear areas.

5679 (d) Where the designation of a particular parcel of land as an historic site under this
5680 ordinance results in a property owner being deprived of all, or substantially all, of
5681 the beneficial use of the property, compensation shall be paid as provided for by
5682 law.

5683 (5) Protection of historic structures.

5684 Historic structures may be modified, altered or changed only when necessary to protect
5685 the continued existence of the structure or, for other purposes, when done according to
5686 the standards outlined by the department of the interior for the restoration,
5687 rehabilitation and adaptive reuse of historic structures. The owner of an historic
5688 structure who or which has opened the structure to the public may erect and maintain
5689 supporting structures, including lighting, protective fences and fire protection systems,
5690 as may be necessary for the maintenance or ease of use of the site.

5720 10.304. TDR-S (Transfer of Development Rights Sending) Overlay
5721 District

5722 (1) *Statement of purpose.*

5723 The purposes of the TDR-S overlay district are to:

5724 (a) Support Transfer of Development Rights, as follows:

- 5725 1. establish a county-wide framework which allows a participating municipality to
5726 transfer development rights within or outside its jurisdiction;
5727 2. reduce spot development of rural land;
5728 3. encourage efficient transportation planning by reducing truly scattered
5729 development;
5730 4. encourage environmental preservation by enhancing open space;
5731 5. preserve and enhance property rights;
5732 6. provide support and input into the agricultural community by encouraging the
5733 preservation of large intact agricultural areas in some locations and individual
5734 farms in other areas;
5735 7. direct development in rural areas away from areas planned for long-term

5745 (b) *Protect property rights.* Nothing in this section is intended to restrict, curtail or

5750 objectionable on the grounds that it is not being undertaken with transferred
5751 development rights.

5754 county comprehensive plans as suitable for:

5768 must detail the number of rights transferred or sold, and must describe any
5769 receiving property or properties.
5770 **3.** TDR agricultural conservation easements must list, at a minimum, the county and
5771 the town as parties with enforcement rights and must require, at a minimum, the

5795 of incomes;
5796 (h) facilitate development in rural areas of towns already experiencing or seeking
5797 development;
5798 (i) encourage the efficient use of land that has no history of, or is no longer suitable
5799 for, agriculture; and
5800 (j) help Dane County and participating communities achieve the goals and objectives
5801 contained in adopted plans

5802 (2) *Areas affected.*

5803 This district is generally intended to apply to lands identified in adopted town and
5804 county comprehensive plans as suitable for:

5814 adopted town and county comprehensive plan.
5815 (b) If there are inconsistencies between the comprehensive plans of the town and the
5816 incorporated municipality with extraterritorial jurisdiction, prior to county board
5817 action the town and municipal governments must resolve the inconsistencies,

5819 plans as required by s. 66.1001(2)(g), Wis. Stats.

- 5820 (5) *Permitted uses.*
5821 All permitted uses in the underlying zoning district, provided all of the following criteria

5824 parcel or parcels in the TDR-S overlay district consistent with, and at a ratio
5825 determined by, an adopted town and county comprehensive plan.
 - 5826 (b) All transferred development rights in (a) above are from TDR-S overlay districts
5827 within the same town as the proposed dwelling unit, unless inter-town transfers
5828 are expressly authorized in adopted town and county comprehensive plans for both
5829 the sending and receiving towns.
 - 5830 (c) The landowner records a notice document for each new dwelling unit that details

 - 5834 (d) Copies of any recorded notices and copies of recorded TDR agricultural
5835 conservation easements on the sending parcel or parcels in the TDR-S district, must
5836 be provided to the zoning administrator before zoning permits will be issued.
- 5837 (6) *Conditional uses.*
5838 All conditional uses in the underlying zoning district, provided all of the following criteria
5839 are met:
- 5840 (a) Any application for a conditional use permit in the TDR-R overlay district that would
5841 increase the number of permanent dwelling units, except for those uses listed in
5842 paragraph (b) below, is accompanied by transferred development rights from a
5843 parcel or parcels in the TDR-S overlay district consistent with, and at a ratio
5844 determined by, an adopted town and county comprehensive plan
 - 5845 (b) Exceptions. The following conditional uses are not considered an increase in the
5846 number of permanent dwelling units and do not require a transferred development
5847 right:
 - 5848 1. community living arrangements;
 - 5849 2. attached accessory dwelling units;
 - 5850 3. extended care facilities; and
 - 5851 4. nursing homes.

10.03 ZONING DISTRICT MAPS. (1) The location and boundaries of the zoning districts other than the A-1 Agriculture District and the flood prone areas (regional flood) are hereby established as shown on maps entitled "Zoning District Maps" on file in the office of the zoning administrator. The A-1 Agriculture District shall consist of all areas not otherwise designated on the "Zoning District Maps." The zoning administrator shall periodically update the

"Zoning District Maps" to show any changes in the zoning district boundary lines resulting from amendments to the zoning ordinance, annexations and changes resulting from city or village extraterritorial zoning provisions. The "Zoning District Maps", together with all information shown thereon and all amendments thereto, shall be as much a part of this ordinance as if fully set forth and described herein.

(2) Location of district boundaries. The following rules shall apply with respect to the boundaries of the zoning districts as shown on the zoning district maps:

(a) Where zoning district boundary lines are indicated as following streets, highways, roads or alleys, or extensions thereof, such boundary lines shall be construed to be the centerlines of said streets or alleys or extensions thereof unless clearly shown to the contrary.

(b) Where a dimensioned boundary line coincides approximately but not exactly with a lot line which existed on the effective date of incorporation of such boundary line into the zoning map, the said boundary line shall be construed to be the said lot line at that location.

(c) Streets, highways, roads or alleys which are shown on the zoning district maps and which heretofore have been vacated, or which may be vacated hereafter, shall be in the same zoning district as the lots, pieces or parcels abutting both sides of the street, highway, road or alley involved. If the lots, pieces or parcels abutting each side of the street, highway, road or alley were located in different zoning districts before the said street or alley was vacated, the centerline of the said vacated street or alley shall be the boundary line of the respective zoning districts.

(d) Where any uncertainty exists as to the exact location of zoning district boundary lines, the board of adjustment, upon written application, shall determine the location of such boundary lines.

(3) The adoption of the following zoning petitions, referred to below by zoning petition number and heretofore adopted by the county board, are hereby ratified and reaffirmed in all respects as valid amendments to the Dane County zoning map:

(b) Accessory buildings. Any number of detached accessory buildings associated with a permitted or conditional use are permitted on lots in the various zoning districts, subject to the regulations specified below and in the applicable district regulations of this ordinance:

1. Principal residential use required. Notwithstanding the provisions of s. 10.04(1)(c), or as may be allowed under the applicable district regulations of this ordinance, a principal

residential use must exist or be under construction prior to the erection or placement of an accessory building.

2. Sanitary fixtures are prohibited in accessory buildings except in agricultural accessory buildings on zoning lots over 35 acres in size, or if required by law, or allowed by a conditional use permit.

3. *Size limitations – residential accessory buildings.* In the R-Residence districts, the total gross floor area of all detached accessory buildings shall not exceed one hundred (100%) of the total building footprint area of the associated residence.

4. *Lot coverage.* No residential building together with its accessory buildings on parcels between 2 and 35 acres in size in the RH Rural Homes, A-2 Agriculture, A-1 Agriculture, A-1 EX (Exclusive Agriculture), and A-4 (Small Lot Agriculture) districts shall cover in excess of 10% of the lot area. For parcels under 2 acres in size, the lot coverage limitation shall conform to the standards in s. 10.05(5), unless a greater lot coverage is permitted under the applicable district regulations of this ordinance.

5. *Setback requirements, front yard.* Except as provided under section 10.16(4) of this ordinance, no building, including barns and other farm buildings of any description whatsoever, shall be erected, moved or structurally altered so as to be nearer the highway than is prescribed by section 10.17.

6. *Setback requirements, side yard.*

a. Except on parcels of land over 35 acres in size in the A-1, A-1EX, and A-3 zoning districts, and on parcels in the A-2 and A-4 districts, accessory buildings for the housing of livestock or insects shall be located not less than 50 feet from any side lot line, unless a greater distance is required under sub. (b) of this section, or the applicable district regulations of this ordinance.

b. Accessory buildings, cages, kennels, hives and runs for housing of animals or insects shall be located at least 100 feet from an R-1, R-1A, R-2, R-3, R-3A, or R-4 Residence District, except with respect to existing buildings when the residence district has been created for an existing farm residence or by separating a farm residence from a farm property and the separated parcel has been rezoned to a residence district after or at the time of the division.

c. All other accessory buildings over 120 square feet in size shall be located not less than ten (10) feet from any side lot line, unless eligible

for a reduced size yard setback under s. 10.16(6).

d. All other accessory buildings less than 120 square feet in size shall be located not less than four (4) feet from any side lot line, unless eligible for a reduced side yard setback under s. 10.16(6).

e. Accessory buildings located between the front and rear building lines of a principal residence shall conform to the minimum side yard requirements for principal buildings specified in the respective district regulations of this ordinance.

7. *Setback requirements, rear yard.*

a. Except on parcels of land over 35 acres in size in the A-1, A-1EX, and A-3 zoning districts, and on parcels in the A-2 and A-4 districts, accessory buildings for the housing of livestock or insects shall be located not less than 50 feet from any rear lot line, unless a greater distance is required under sub. (b) of this section, or the applicable district regulations of this ordinance.

b. Accessory buildings, cages, kennels, hives and runs for housing of animals or insects shall be located at least 100 feet from an R-1, R-1A, R-2, R-3, R-3A or R-4 Residence District, except with respect to existing buildings when the residence district has been created for an existing farm residence or by separating a farm residence from a farm property and the separated parcel has been rezoned to a residence district after or at the time of the division.

c. All other accessory buildings over 120 square feet in size shall be located not less than ten (10) feet from any rear lot line, unless eligible for a reduced rear yard setback under s. 10.16(6).

d. All other accessory buildings less than 120 square feet in size shall be located not less than four (4) feet from any rear lot line, unless eligible for a reduced rear yard setback under s. 10.16(6).

8. *Existing accessory buildings.* All accessory buildings lawfully existing as of August 1, 2011 shall be considered a permitted use. Notwithstanding the provisions of secs. 10.21 and 10.23 regarding nonconforming uses, such buildings may be added to, altered, restored, repaired, replaced or reconstructed, provided the locational requirements of the district in which the building is located are complied with.

9. *Permits required.* No accessory building may be erected or placed without first obtaining

a zoning permit as specified in section 10.25(2), except as provided below.

a. Non-permanent accessory buildings less than 120 square feet in gross floor area which are not located on a foundation, concrete slab, pilings, or footings do not require a zoning permit, provided that the proposed building will not be located within a mapped floodplain or within a shoreland area and conforms to all of the locational requirements of this ordinance. It shall be the responsibility of the owner to demonstrate compliance with the setback requirements of this ordinance upon request.

b. Subsection 10.04(1)(b)9.a. shall not apply to covered enclosures used for the purposes of keeping domestic fowl.

(c) Agricultural accessory buildings. On land in the A-1, A-1 Exclusive, A-2, A-3, and A-4 Agriculture Districts, and on land in the Rural Homes District involved in an agricultural or agricultural accessory use, agricultural accessory buildings are permitted but are limited to barns, sheds, silos and other structures that are clearly related to a permitted agricultural or agricultural accessory use. The minimum side and rear yard setback for such structures is 10 feet, unless a greater distance is required by the applicable district regulations of this ordinance.

(2) Height. No building or structure shall be erected, nor shall any existing building or structure be removed, reconditioned, added to or structurally altered to exceed in height the limit established by this ordinance for the district in which that building or structure is located.

(3) Percentage of lot occupancy. No building or structure shall hereafter be erected, nor shall any existing building be moved, altered, enlarged or rebuilt, nor shall any open spaces surrounding any building or structure be encroached upon or reduced in any manner, nor shall a greater percentage of lot be occupied, except in conformity to the building site requirements and the area and yard regulations established by this ordinance, for the district in which such building is located.

(4) Density of population. No building, structure or premises shall be erected, occupied or used so as to provide a greater density of population than is allowed by the terms of this ordinance for the district in which such building, structure or premises is located.

(5) Open space limitations. No yard or other open space provided about any building or structure for the purpose of complying with the regulations of this ordinance shall be considered as providing yard or open space for any other

building or structure. No lot area shall be so reduced or diminished that the yard or other space shall be smaller than prescribed by this chapter.

(6) Topography near property lines. (a) Purpose. The purpose of this subsection is to set forth the minimum requirements for preserving existing topography near property lines whenever development is planned, and to promote and protect the public health, safety, convenience and general welfare. This subsection is intended to regulate development:

- 1.** to protect adjacent property owners from possible damage due to changes to the existing topography of adjoining lands;
- 2.** to retain stormwater runoff on each property undergoing development; and
- 3.** to preserve the general character of neighborhoods.

(b) Standards. 1. Except as authorized in this section, the topography within five (5) feet of any property line at the commencement of any development shall remain unchanged.

2. a. When land disturbing activities associated with development occur within five (5) feet of any property line, finished grades in that area shall be restored to the topography in existence before the land disturbing activity began.

b. Notwithstanding sub. (6)(b)1., a positive slope of one-half (1/2) inch vertical per one (1) foot horizontal within five (5) feet of the property line is allowed to provide proper drainage away from a one or two family residence.

3. The established grade of the adjoining property shall determine the finished grade at the property line for any development. The owner of the property under development bears the burden of proof as to the established grade at the property line and the topography within five (5) feet of the property line. The Zoning Administrator may require detailed site grading plans of existing and proposed conditions to be submitted before commencement of land disturbing activities.

4. Natural watercourses along property lines shall be maintained. Existing drainage ways and drainage easements along property lines including, but not limited to, stormwater management areas shown on subdivision plats and certified survey maps, shall be maintained.

(c) Exceptions. 1. Development in Floodplain Districts requiring fill to comply with chapter 17 is exempt from this section.

2. Upon written application, the Zoning Administrator may authorize exceptions resulting

in changes to the existing topography at and within five (5) feet of any property line that would promote the purposes stated in this ordinance, only if the results do not direct additional stormwater runoff toward adjacent properties. Proposed exceptions may include, but are not limited to, retaining walls, berms and other structures, and other changes to existing grade at and within five (5) feet of a property line. The Zoning Administrator may require the submittal of detailed site grading plans of existing and proposed conditions including, but not limited to, detailed topographical information of the subject and adjoining properties, before land disturbing activities commence.

10.045 NCO NOISE CONTROL OVERLAY DISTRICT. (1) Statement of purpose.

The purpose of the Noise Control Overlay District is to effect and accomplish the protection and enhancement of the quality of residential life in Dane County by restricting residential development adjacent to noise producing areas.

(2) Authority. This section is enacted under s. 59.69, Wis. Stats., and section TRANS 405.05(2), Wis. Admin. Code.

(3) Designation. All lands subject to this ordinance lying within 200 feet of a divided highway as defined in s. 340.01(15), Wis. Stats., are hereby designated as subject to this section. The county board may add other lands from time to time. Lands subject to this section shall be designated by attaching the suffix "NCO" to the zoning district in which the lands are located.

(4) Protection. No residential dwelling shall hereafter be erected in any area designated as part of the Noise Control Overlay District. The designation "Noise Control Overlay District" shall not otherwise affect the uses to which such lands may be put by the underlying zoning district.

(5) Exceptions. (a) The designation "Noise Control Overlay District" shall not apply to lands zoned for residential use prior to May 1, 1992.

(b) The Noise Control Overlay District shall not apply to lands on which noise control barriers have reduced the noise level from traffic to 67 decibels or less.

(6) Variances. The board of adjustment is empowered to remove the "Noise Control Overlay District" from lands to which it applies whenever the Wisconsin Department of Transportation consents to such variance and

the board of adjustment otherwise finds that the protections afforded by such overlay district are no longer necessary for the purposes set forth herein.

(7) Compensation. Where the designation of a particular parcel of land as subject to this section results in a property owner being deprived of all, or substantially all, of the beneficial use of the property, compensation shall be paid as provided for by law.

10.121 A-B AGRICULTURE BUSINESS DISTRICT.

(1) *Purpose.* The A-B Agriculture-Business District is designed to:

(a) Provide for a wide range of agriculture, agricultural accessory and agriculture-related uses, at various scales with the minimum lot area necessary to accommodate the use. The A-B district accommodates uses which are commercial or industrial in nature; are associated with agricultural production; require a rural location due to extensive land area needs or proximity of agricultural resources; and do not require urban services. In appearance and

operation permitted uses in the A-B district are often indistinguishable from an active farm. Conditional uses are more clearly commercial or industrial in nature, and may involve facilities or processes that require a remote location distant from incompatible uses, proximity to agricultural products or suppliers and/or access to utility services or major transportation infrastructure. Examples of activities in the A-B district may include, but are not limited to, agricultural support services, value-added, or related businesses such as implement dealers; veterinary clinics; farm machinery repair shops; agricultural supply sales, marketing, storage, and distribution centers; plant and tree nurseries; and facilities for the processing of natural agricultural products or by-products, including fruits, vegetables, silage, or animal proteins. Such activities are characterized by:

1. Wholesale or retail sales, and outdoor storage/display of agriculture-related equipment, inputs, and products;
2. Parking areas, outdoor lighting, and signage appropriate to the scale of use;
3. Small, medium, or large utilitarian structures/facilities/workshops, appropriate to the scale of use;
4. Low to moderate traffic volumes;

(e) A transportation, utility, communication, or other use that is:

1. required under state or federal law to be located in a specific place, or;
2. is authorized to be located in a specific place under a state or federal law that specifically preempts the requirement of a conditional use permit.

1. Farm residences.

3. A business, activity or enterprise, whether or not associated with an agricultural use, that is conducted by the owner or operator of a farm, that requires no buildings, structures, or improvements other than those described in s. 10.01(2b)(a) and (c) that employs no more than 4 full-time employees annually, and that does not impair or limit the current or future agricultural use of the farm or of other protected farmland.

(b) Agriculture-related uses: In addition to the other requirements of this ordinance, the following uses must meet the definition of an agriculture-related use under s. 10.01(2c).

(e) Non-metallic mineral extraction operations that comply with s. 91.46(6), Wis. Stats., section 10.191 and chapter 74. The application shall include a description of the operation, a site plan, and a reclamation plan.

(4) Standards for conditional uses in the A-B (agricultural business) zoning district. In addition to the requirements of s. 10.255(2)(h), the zoning committee must find that the following standards are met before approving any conditional use permit in the A-B (agricultural business) zoning district.

(a) The use and its location in the A-B agricultural business zoning district are consistent with the purposes of the district.

(b) The use and its location in the A-B agricultural business zoning district are reasonable and appropriate, considering alternative locations, or are specifically approved under state or federal law.

(c) The use is reasonably designed to minimize the conversion of land, at and around

the site of the use, from agricultural use or open space use.

(d) The use does not substantially impair or limit the current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use.

(e) Construction damage to land remaining in agricultural use is minimized and repaired, to the extent feasible.

(5) Building height limit.

(a) For buildings containing offices, sales rooms and service areas and residential buildings, the maximum height shall be two and one-half (2-1/2) stories or 35 feet.

(1) *Purpose and applicability.*

(a) State of purpose. The A-1 Exclusive Agriculture District is designed to:

1. Provide for a wide range of agriculture and agricultural accessory uses, at various scales. The A-1(EX) district accommodates as permitted uses all activities typically associated with the primary production and harvesting of crops, livestock, animal products or plant materials. Such uses may involve noise, dust, odors, heavy equipment, use of chemicals and long hours of operation.

2. Allow for incidental processing, packaging, storage, transportation, distribution or other activities intended to add value to agricultural products produced on the premises or to ready such products for market. Such uses are conditional as they may have the potential to pose conflicts with agricultural use due to: volumes or speed of vehicular traffic; residential density; proximity to incompatible uses; environmental impacts; or consumption of agriculturally productive lands.

3. Allow for other incidental activities, compatible with agricultural use, to supplement farm family income and support the agricultural community.

4. Preserve productive agricultural land for food and fiber production.

5. Preserve productive farms by preventing land use conflicts between incompatible uses.

6. Maintain a viable agricultural base to support agricultural processing and service industries.

7. Reduce costs for providing services to scattered non-farm uses.

²As of January 1, 1997, the following towns have made this election: Albion, Berry, Black Earth, Blooming Grove, Blue Mounds, Christiana, Cottage Grove, Cross Plains, Dane, Deerfield, Dunkirk, Dunn, Madison, Mazomanie, Medina, Montrose, Oregon, Perry, Pleasant Springs, Primrose, Roxbury, Rutland, Springfield, Sun Prairie, Vermont, Verona, Vienna, Westport, Windsor and York.

8. Pace and shape urban growth.

9. Meet the criteria for certification as a Farmland Preservation Zoning District under s. 91.38, Wis. Stats.

(b) *Lands to be included within the A-1 Exclusive Agriculture District.* This district is generally intended to apply to lands in productive farm operations including: lands historically exhibiting good crop yields or capable of such yields; lands which have been demonstrated to be productive for dairying, livestock raising and grazing; other lands which are integral parts of such farm operations; land used for the production of specialty crops such as mint, sod, fruits and vegetables; and lands which are capable of productive use through economically feasible improvements such as irrigation, and undeveloped natural resource and open space areas.

(c) *Applicability.* This section shall apply only to those towns, or portions of said towns, which have filed a resolution with the county clerk indicating the election of the town to come under provisions of this district. Towns which have filed resolutions indicating acceptance of the exclusive agriculture district prior to the date of this amendment shall continue to be under the provision of this section.

(2) *Permitted uses.*

(a) Agricultural Uses, except those uses listed as conditional uses below. Keeping of livestock is prohibited on parcels smaller than 5 acres.

Notwithstanding the provisions of secs. 10.21 and 10.23 regarding nonconforming uses, such structure may be added to, altered, restored, repaired, replaced or reconstructed, without limitation, provided all of the following criteria are met:

a. the use remains residential,

b. the structure complies with all building height, setback, side yard and rear yard standards of this ordinance; and

c. for replacement residences, the structure must be located within 100 feet of the original residence, unless site-specific limitations or town residential siting standards in town plans adopted by the county board require a greater distance. Proposals for a replacement residence that would exceed the 100 foot limitation must be

4. Farm related exhibitions, sales or events such as auctions, dairy breakfasts, exhibitions of farm machinery and technology, agricultural association meetings and similar activities, occurring on five days in a calendar year or less.

10.151 AED ADULT ENTERTAINMENT OVERLAY DISTRICT.

(1) *Statement of Purpose.* It is the purpose of this ordinance to establish reasonable and uniform regulations of the use of property for adult entertainment establishments in order to prevent the adverse secondary effects associated with these businesses and thereby promote the health, safety, morals, and general welfare of the citizens of Dane County. It is not the intent or effect of this ordinance to restrict or deny access by adults to sexually oriented entertainment protected by the First Amendment, or to deny access by the exhibitors of sexually oriented entertainment to their intended market.

(2) *Findings.* While the County Board recognizes that freedom of speech is among our most precious and highly protected rights, and wishes to act consistently with full protection of those rights, based on evidence concerning the adverse secondary effects of adult entertainment establishments on the community presented in hearings and in reports made available to the Board, and on findings incorporated in the cases of *City of Los Angeles v. Alameda Books, Inc.*, 535 U.S. 425 (2002); *Renton v. Playtime Theaters, Inc.*, 475 U.S. 41 (1986); *Thirteen Mile Rd. Inc. v. Warren*, 626 F. Supp. 803, (E.D. Mich. 1985); *Alexander v. City of County of San Diego*, 505 F.3d 935 (9th Cir. 2007); as well as finding from papers, articles, studies and information from other communities including, but not limited to, Fort Worth & Dallas, Texas; Palm Beach County, Florida; Garden Grove, California; Austin, Texas; Phoenix, Arizona; Indianapolis, Indiana; and Los Angeles, California, the County of Dane, relying upon the experience of other local governments in this state and throughout the country, finds as follows:

- (a) That adult entertainment establishments may have an adverse secondary effect on the surrounding community because the sexual nature of the business may, regardless of the intentions of the proprietors, attract persons seeking prostitution or unlawful drugs, or who are inclined to be disorderly or disruptive;
- (b) Adult entertainment establishments are an intense commercial use which create a large volume of foot and automobile traffic in the vicinity of the establishment, which may require police and other municipal services which may not be readily available in towns, and which may conflict with the preservation of farmland by encouraging scattered commercial development;
- (c) Adult entertainment establishments have their peak activity at hours and days which are incompatible with residential uses, and have a larger customer volume than other entertainment establishments;
- (d) Because of the potential for negative impacts on property values, the peace and good order of the community and the welfare of individuals affected by adult entertainment establishments, it is necessary to minimize the secondary effects of adult entertainment;
- (e) It is the intent of this section to protect the health, safety and welfare of the citizens of Dane County and to further preserve the quality of life and to preserve the urban and rural characteristics of its neighborhoods. The intent

of the Adult Entertainment Overlay District is to regulate the location of such establishments; and

(f) 1. Nothing in this section shall be construed to permit the regulation of any activities conducted in adult entertainment establishments which are entitled to protection under the First Amendment of the United States Constitution, including:

- a. plays, operas, musicals or other dramatic works that are not obscene;
- b. classes, seminars, or lectures which are held for a serious scientific or educational purpose and that are not obscene.
- c. rental or sale of video cassettes, DVD videodiscs, or other electronic media for private viewing off the premises.

2. Whether or not an activity is obscene shall be judged by consideration of the following factors:

- a. whether the average person, applying contemporary community standards, would find that the activity taken as a whole appeals to prurient interest in sex;
- b. whether the activity depicts or describes sexual conduct in a patently offensive way, as measured against community standards; and
- c. whether the activity taken as a whole lacks serious literary, artistic, political or scientific value.

(3) The overlay district shall apply only to all lands zoned M-1 Industrial.

(4) An adult entertainment establishment shall be a permitted use within the overlay district.

(5) *Standards for siting of adult entertainment establishments.* Adult entertainment establishments shall meet all of the following requirements:

(a) Location of any particular adult entertainment establishment must be not less than 1,000 feet from any church, synagogue, temple, mosque or any other place of worship, any residentially zoned district, park, school, playground, day care center, public library and any other adult book store or adult entertainment establishment.

1. Measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest portion of the building or structure used as the part of the premises where adult entertainment is conducted, to the nearest property line of the premises of a use listed in sub (a). Presence of a City, County or other municipal boundary shall not affect the calculation and application of the distance requirements of sub (a).

(b) There shall be no display windows on the premises;

(c) The business may have only one (1) non-flashing business sign, and which shall be not larger than 4 feet by 4 feet;

(d) A one square foot sign shall be placed on each public entrance which shall state "Admittance to adults only" and may include other pertinent business information;

(e) The owner and operator of an adult entertainment establishment shall agree to comply with all Federal, State and Local laws and ordinances, including those regulating obscenity and alcoholic beverages, and shall further insure that minors are not allowed on the premises. Solicitation for purposes of prostitution shall be strictly prohibited; and

(f) There shall be no areas in the adult entertainment establishment in which entertainment is provided which are not fully visible from the main area of the establishment. No entertainment may occur in areas of the establishment which are set off by doors, curtains, screens, barriers, café or saloon doors or other obstructions.

(6) The provisions of this ordinance shall be severable. The County Board finds that it would have enacted all the provisions of this ordinance on the basis of any one of the findings in section (1).

10.153 PUD PLANNED UNIT DEVELOPMENT DISTRICT.

(1) *Statement of purpose.* The purpose of the PUD Planned Unit Development district is to promote improved development design by allowing greater flexibility and imagination in urban and rural development while ensuring substantial compliance with the intent of the zoning ordinance and adopted plans. The district allows variations in uses, structures, densities, setbacks and yard requirements, building heights, landscaping and other provisions for developments which are cohesively planned and implemented. In exchange for such flexibility, the project (hereinafter referred to as Planned Unit Development or PUD) must provide a higher level of design and functionality than normally required for other developments.

(2) *Permitted uses.* The only uses permitted within each mapped PUD district shall be those lawful use(s) in place at the time of PUD district mapping plus those uses explicitly listed,

depicted and described as permitted uses within that particular PUD district.

(3) *Building height limit; Area, frontage and population density regulations; Lot coverage; Number of principal buildings per lot; Setback from road and front property line and front yard requirements; Side and rear yard requirements; Off-street parking; Screening and landscaping provisions; Sign regulations.* Zoning limitations on or requirements for building height, lot area, lot frontage/width, housing unit or population density, number of buildings per lot, lot coverage, setbacks, yard areas, off-street parking and loading, screening or landscaping, and signage shall be specified for each particular PUD district. Such requirements shall be generally described as part of an approved General Development Plan (GDP) for each PUD and explicitly specified as part of an approved Specific Implementation Plan (SIP). Where they provide sufficient detail, such specifications shall supersede similar specifications found elsewhere in the zoning ordinance.

(4) *Criteria for approval of PUDs.* Planned unit developments shall meet all of the following criteria to be approved:

(a) The development shall be consistent with a town comprehensive plan approved by both the town and county.

(b) The uses and their intensity, appearance, design and arrangement shall be compatible with the physical nature of the site and area, and shall not have a significant adverse impact on the natural environment.

(c) The uses and their intensity, appearance, design and arrangement shall in no foreseeable manner diminish or impede the uses, values and normal and orderly development of surrounding properties.

(d) The uses and their intensity, appearance, design and arrangement shall not create access issues, traffic or parking demand inconsistent with existing or anticipated transportation facilities.

(e) The development shall include adequate provision for the continued preservation, maintenance and improvement of natural areas and open space.

(f) The applicant shall provide evidence of financial feasibility and assurances that each phase can be completed in a manner which would not result in an adverse effect upon the community as a result of termination at that point.

(g) The development shall comply with all other applicable ordinances.

(5) Planned unit development approval process. There is a two step review and approval process for establishing a PUD district. The first step consists of submittal of a General Development Plan (GDP) that outlines the nature of the Planned Unit Development and provides information necessary for consideration and decision-making by the town and county. The second step involves submittal of a Specific Implementation Plan (SIP) which documents the detailed actions the applicant will take to implement the General Development Plan. No PUD zoning district can be established without an approved GDP and corresponding SIP(s). If approved by the zoning administrator, the applicant may combine steps for simple PUDs involving a small tract of land or proceed with both steps concurrently.

(a) General Development Plan (GDP).

1. Prior to submitting a formal application, the prospective applicant shall present the concept of the proposed PUD to, and consult with, representatives from the affected town, staff from the planning and development department, and the zoning committee regarding the project, required application materials, and the PUD review process. These representatives may comment on the concept, but their comments are not binding on the representatives nor indicative of their position on a formal application. The review by the town and the zoning committee may take place at a joint meeting.

2. The applicant shall submit to the zoning administrator a formal application for GDP review and approval, along with required application materials. The zoning administrator shall process such applications under the standard zoning map amendment procedure, plus additional procedures established herein. The applicant shall include twenty-five (25) copies of all required materials, along with the applicable fee provided for in chapter 12.

3. The zoning administrator shall determine whether the GDP submittal is complete in reference to the following required application materials:

a. Name of the applicant, agent, property owner(s) and entity which intends to develop the land.

b. A complete written legal description of the subject property.

c. A map(s) of the subject property showing all lands for which the PUD is proposed, and all other lands within 1,000 feet of the subject property. Said map shall clearly indicate the current property owners and zoning of the

subject property and all lands with 500 feet, the boundaries of all political jurisdiction(s) in the area and all lot dimensions of the subject property. The map shall be at a scale not less than one inch equals 800 feet.

d. A general written description of the proposed PUD, including:

i. general project themes, images and design concepts;

ii. general mix of dwelling unit types and land uses;

iii. approximate development densities;

iv. general treatment of natural features and provisions for open space preservation;

v. general relationship to nearby properties and existing and planned streets, highways and other transportation improvements;

vi. general relationship to the approved town land use plan; and

vii. a general plan for phasing, including a planned timeline for submittal of one or more SIPs.

e. A description of why the applicant wishes to develop the project using PUD zoning. This description shall include justification for the proposed PUD, and shall indicate how the criteria in sub. 10.153(4) will be met.

f. A list of standard zoning provisions which will be met by the proposed PUD, standards which will not be met by the proposed PUD, standards which will be more than met by the proposed PUD, and the location(s) in which they apply. This list shall be organized in the following manner:

i. land use types and mix (list range of permitted uses);

ii. density and intensity of land uses (list range of dwelling units per acre, lot sizes, lot frontages/widths, setbacks and yard requirements, lot coverage, building heights, lot dimensions, number of units, and floor area ratios for non-residential uses);

iii. landscaping and screening;

iv. off-street parking and loading;

v. signage; and

vi. other applicable standards.

g. GDP map(s) at a minimum scale of 1 inch equals 100 feet (11" x 17" reduction shall also be provided) of the proposed project showing at least the following information:

i. land use layout and the location of major public streets and/or private drives;

ii. location of recreational and open space areas and facilities; and

iii. statistical data on lot sizes in the development, the approximate areas of large

development lots and pads, and density/intensity of various parts of the development.

h. A conceptual landscaping plan, noting approximate locations and types of existing and planned landscaping, screening and fencing.

i. A general signage plan, including approximate locations, types, heights, lighting and sign face areas.

j. Evidence of financial capability pertaining to construction, maintenance and operation of all public and private improvements associated with the proposed development.

k. Other maps or information requested by the town or county.

L. In the case of a rural PUD, the GDP shall identify any areas proposed to be subject to conservancy easements, the nature of the conservancy easements to be imposed, and other features designed to protect the rural character of the area in which the PUD is proposed.

4. After the GDP submittal is complete, the zoning administrator shall forward two copies of the submittal to the town clerk of the affected town and schedule the petition for zoning committee public hearing.

5. The affected town shall review and act on the proposed GDP. The town may approve the GDP with conditions that identify specific limits or elements the town requires to be included in the SIP.

6. The zoning committee, after a public hearing and after receiving comments from the affected town, shall forward its recommendation on the proposed GDP to the county board. The GDP may be approved with conditions that identify specific limits or elements the county requires be included in the SIP. If the town board approves the GDP subject to conditions and such conditions are amended or deleted by the county, the GDP as approved by the county shall be submitted to the town board for approval of the county's conditions or denial of the GDP.

7. The county board shall act on the GDP and, if the GDP is approved, shall establish through its approval a delayed effective date (DED) totaling at least 12 months within which one or more SIPs must be filed in order to effectuate the rezoning and establish the PUD on the zoning district map. Such timeframe may later be extended through an amendment to the approved GDP, which shall follow the same process as GDP approval. Failure to file an SIP(s) within the delayed effective date, or to extend said date, shall cause the rezoning to become null and void.

8. Approval of the GDP shall establish the basic right of use for the subject property in conformity with the approved plan, but approval of such plan shall not make permissible in any area of the PUD those uses proposed until an SIP is approved for that area. No development may occur within a PUD district which is inconsistent with an approved GDP.

(b) Specific Implementation Plan (SIP).

1. The applicant may submit to the zoning administrator an application for one or more SIPs along with required application materials within the delayed effective date period as established through county board approval of the rezoning to PUD (GDP approval). If such SIP(s) has not been submitted by the Delayed Effective Date, the approved GDP shall be null and void for those portions of the subject property not yet covered by an approved SIP, and the zoning administrator shall approve no further SIPs for the property under the previously approved GDP. In the event all or part of a GDP is rendered null and void, the zoning on the property shall revert to the zoning category existing prior to the PUD rezoning.

2. The zoning administrator shall determine whether the SIP submittal is complete in reference to the following required application materials:

a. Name of the applicant, agent, property owner(s) and entity which intend to develop the land.

b. A complete written legal description of the SIP area.

c. A map showing the relationship of the SIP area to the approved GDP area.

d. A written description of the proposed SIP area within the PUD, including:

i. specific project themes, images and design features;

ii. a specific list of permitted dwelling unit types and land uses;

iii. specific development densities by dwelling units per acre, lot sizes, lot frontages/widths, setbacks and yard requirements, lot coverage, building heights, lot dimensions, number of units, and floor area ratios for non-residential uses;

iv. specific treatment of natural features and provisions for open space preservation;

v. specific relationship to the remainder of the PUD included in the approved GDP, nearby properties and existing and planned streets, highways and other transportation improvements; and

vi. a development schedule indicating project stages.

e. A written description demonstrating the consistency of the proposed SIP with the approved GDP and the criteria in s. 10.153(4), and identifying any and all deviations between the approved GDP and the proposed SIP.

f. An SIP map at a minimum scale of 1 inch equals 100 feet (11" x 17" reduction shall also be provided) of the proposed project showing at least the following information:

- i. locations, sizes, dimensions and permitted uses of all lots and building sites (detailed lot layout/conceptual subdivision plan required for SIPs with multiple lots);
- ii. locations, sizes and dimensions of all structures (minimum setbacks and yard areas);
- iii. delineations of all water bodies, wetlands, floodplains, steep slopes and other sensitive environmental areas;
- iv. locations, dimensions and surface type of all driveways, walkways, trails, parking and loading areas and roads;
- v. detailed off-street parking lot and stall design;
- vi. location of all public and private utilities;
- vii. location, type and intensity of outdoor lighting;
- viii. location of recreational and open space areas and facilities, specifically describing those that are to be reserved or dedicated for public use; and
- ix. statistical data on lot sizes in the development, the exact areas of all development lots and pads, density/intensity of various parts of the development, floor area ratios, and lot coverage percentages.

g. A detailed landscaping plan for the area included in the SIP, specifying the location, species, and installed and mature size of all existing and proposed trees, shrubs and fencing.

h. A signage plan for the project, including the type, location, height, dimensions, lighting and sign face area of all proposed signs.

i. An erosion control, drainage and stormwater management plan.

j. Building elevations for all buildings, including building heights and materials.

3. After the SIP submittal is complete, it shall be forwarded to the town clerk of the affected town. The town may then forward any comments and recommendations on the proposed SIP to the zoning administrator within 60 days. Alternatively, at the sole discretion of the affected town, the town may forward its comments and recommendations to the zoning administrator prior to the zoning administrator's determination of SIP submittal completeness, in

which case the 60 day review period is not required.

4. The planning and development director and zoning administrator shall review the submitted SIP with reference to the GDP approval, the evaluation criteria in section 10.153(4), and town comments and recommendations. Within 50 days of receipt of a complete submittal (of within 10 days of such receipt in the event that the town offers comments and recommendations before the zoning administrator's determination of completeness is made), the director and zoning administrator shall determine whether the SIP is consistent with the approved GDP. Inconsistencies shall require an amendment to the GDP according to the procedure in sub. 10.153(5)(a). If generally consistent with the approved GDP and the evaluation criteria, the director and zoning administrator shall, within such timeframe, approve the SIP as submitted or with modifications necessary to achieve full consistency. If approved with modifications, the applicant shall submit modified SIP materials consistent with the approval before the issuance of zoning permits.

5. The approved SIP shall provide the basis for the issuance of all subsequent permits including, but not limited to, zoning permits, to allow development with the SIP area. Any portion of an approved SIP for which a zoning permit is not issued within three years of SIP approval shall expire, and a new SIP must be submitted and approved for that area before any development may occur.

6. As an alternative to SIP technical review by the zoning administrator, planning and development director and affected town, approval of the GDP may include detailed restrictive covenants specific to the PUD that establish a design review committee and design review process to review SIP submittals so as to ensure compliance with the GDP. All other requirements for the SIP per para. (b) above shall remain in effect if this option is approved by the town and county as part of the GDP.

10.157 HD HISTORIC OVERLAY DISTRICT.

(1) Statement of purpose. The purpose of the historic overlay district is to effect and accomplish the protection, enhancement and perpetuation of such sites and structures which represent or reflect elements of the county's cultural history, and to safeguard the county's historic and cultural heritage as embodied in such sites, expanding upon such protection as is afforded by chapter 157, 1987 Wis. Stats., and structures.

(2) Designation. No site may be designated which is not cataloged and no structure may be designated without the owner's written consent. The County of Dane is hereby deemed to have consented to the designation of all county-owned sites and structures which may hereafter be designated by the park commission with the approval of the county board.

(3) Indication. Sites and structures which are designated shall be indicated by attaching the suffix "HD" to the zoning district in which the site or structure is located.

(4) Protection of historic sites. No building or structure, whether or not a permit therefore is required under this ordinance, shall be erected on, and no use which involves soils disturbance shall be made of, any historic site except that with consent of the committee, an owner may remove, replace or add vegetation designed to preserve the site. There shall be a clear area extending 25 feet in all directions from any historic site except that on substandard lots where the clear area distance of 25 feet cannot reasonably be maintained, the clear area distance shall be reduced to a distance equal to twice the depth of any excavation intended to be constructed on the lot or 10 feet, whichever is greater, unless a more restrictive minimum distance is imposed by state statute in which case the statutory minimum shall apply.

(a) The committee is empowered to grant a waiver from the clear zone requirements above for any lot provided that the committee finds that the owner cannot otherwise make reasonable use of the lot for the zoning classification it bears and that the site is preserved intact. The committee shall seek the advice of the park commission when considering any waiver application.

(b) In no event shall a waiver under this section allow a structure to be located closer to an historic site than a distance equal to twice the depth of any excavation intended to be used for that part of the structure closest to the historic site, and in any event not closer than is permitted by statute.

(c) Notwithstanding any language herein to the contrary, replacement private sewage systems, as defined in s. 46.03(14), and existing roads, including repairs thereto, may be located in clear areas.

(d) Where the designation of a particular parcel of land as an historic site under this ordinance results in a property owner being deprived of all, or substantially all, of the beneficial use of the property, compensation shall be paid as provided for by law.

(5) *Protection of historic structures.* Historic structures may be modified, altered or changed only when necessary to protect the continued existence of the structure or, for other purposes, when done according to the standards outlined by the department of the interior for the restoration, rehabilitation and adaptive reuse of historic structures. The owner of an historic structure who or which has opened the structure to the public may erect and maintain supporting structures, including lighting, protective fences and fire protection systems, as may be necessary for the maintenance or ease of use of the site.

10.158 TDR-S TRANSFER OF DEVELOPMENT RIGHTS SENDING AREA OVERLAY DISTRICT. This district is in effect in those towns which voluntarily make the election under sub. (2)(b) below.

(1) *Statement of purpose.* The purposes of the TDR-S overlay district are to:

(a) *Support Transfer of Development Rights, as follows:*

1. establish a county-wide framework which allows a participating municipality to transfer development rights within or outside its jurisdiction;
2. reduce spot development of rural land;
3. encourage efficient transportation planning by reducing truly scattered development;
4. encourage environmental preservation by enhancing open space;
5. preserve and enhance property rights;
6. provide support and input into the agricultural community by encouraging the

preservation of large intact agricultural areas in some locations and individual farms in other areas;

7. direct development in rural areas away from areas planned for long-term agricultural use;

8. provide a potential for compensation for individuals who do not want to develop their property or who live in communities which wish to restrict development;

9. help Dane County and participating communities achieve the goals and objectives contained in adopted plans;

10. facilitate purchase of development rights programs to protect high-priority natural or agricultural resources; and

11. allow for towns, villages and cities to serve as a clearinghouse for development rights in accordance with adopted land use and comprehensive plans.

(b) *Protect property rights.* Nothing in this section is intended to restrict, curtail or abridge the rights of property owners to use their property as currently permitted under ordinance, to petition the county board to rezone property or to apply for conditional use permits under ss. 59.69, 91.46 or 91.48, Wis. Stats., or s. 10.255 of this ordinance. A development proposal which is consistent with adopted plans is not objectionable on the grounds that it is not being undertaken with transferred development rights.

(2) *Areas affected.* (a) *Lands to be included within the TDR-S Transfer of Development Rights Sending Area Overlay District.* This district is generally intended to apply to lands identified in adopted town and county comprehensive plans as suitable for:

1. long-term or permanent agricultural, conservation or natural resource use;
2. limited or no non-farm development; and
3. sending areas for a transfer or purchase of development rights program.

(b) *Applicability.*

1. This section shall apply only to those towns that have filed a resolution with the county clerk indicating the election of the town to come under provisions of this district.

2. This section shall apply only within the A-1 (Exclusive Agriculture) or CO-1 zoning districts.

(3) *Permitted uses.* (a) All permitted uses in the underlying zoning district.

(b) Transfer of development rights consistent with, and at a ratio determined by, an adopted town and county comprehensive plan. Any transferred development rights must be accompanied by a recorded TDR agricultural

conservation easement placed on the sending property. The recorded easement must include a legal description of the sending property in accordance with adopted town and county comprehensive plan guidelines, must detail the number of rights transferred or sold, and must describe any receiving property or properties. TDR agricultural conservation easements must list, at a minimum, the county and the town as parties with enforcement rights and must require, at a minimum, the county, the town and the landowner to agree to any amendment of the agricultural conservation easement in writing and after at least one public hearing held by the zoning committee. All such amendments shall be recorded. No third parties with enforcement rights may be added without approval of the Town and the County.

(4) Conditional uses in the TDR-S Transfer of Development Rights Sending Area Overlay District. All conditional uses in the underlying zoning district.

(5) Area regulations. All lots in the TDR-S overlay district must meet the minimum lot size of the underlying zoning district or meet the requirements for a non-conforming lot of record under s. 10.16(3)(a) of this ordinance.

[HISTORY: 10.158 cr., OA 45, 2009-10, pub. 03/22/10.]

10.159 TDR-R TRANSFER OF DEVELOPMENT RIGHTS RECEIVING AREA OVERLAY DISTRICT.

This district is in effect in those towns which voluntarily make the election under sub. (2)(b) below.

- (1) Statement of purpose. (a)** The purposes of the TDR-R overlay district are to:
 1. establish a county-wide framework which allows a participating municipality to transfer development rights within or outside its jurisdiction;
 2. encourage the clustering of rural development;
 3. encourage the efficient provision of services by clustering residential units;
 4. encourage efficient transportation planning by encouraging compact development;
 5. support planning of development in areas which have less impact on key sources;
 6. preserve and enhance property rights;
 7. encourage rural housing that is adequate and affordable for persons from a range of incomes;
 8. facilitate development in rural areas of towns already experiencing or seeking development;

9. encourage the efficient use of land that has no history of, or is no longer suitable for, agriculture; and

10. help Dane County and participating communities achieve the goals and objectives contained in adopted plans.

(2) Areas affected.

(a) Lands to be included within the TDR-R Transfer of Development Rights Receiving Area Overlay District. This district is generally intended to apply to lands identified in adopted town and county comprehensive plans as suitable for:

- 1. residential development at a density exceeding one dwelling unit per 35 acres; and
- 2. receiving areas for a transfer of development rights program.

(b) Applicability.

1. This section shall apply only to those towns that have filed a resolution with the county clerk indicating the election of the town to come under provisions of this district.

2. This section shall apply only within the A-1, A-2, A-2(1), A-2(2), A-2(4), A-2(8), R-1, R-1A, R-2, R-3, R-3A, R-4, RH-1, RH-2, RH-3 or RH-4 zoning districts.

(c) Applicability near incorporated municipalities.

The county board may not rezone to the TDR-R overlay district any parcel wholly or partially within the extraterritorial plat review jurisdiction of an incorporated municipality, as defined in s. 236.02(5), Wis. Stats., unless consistent with an adopted town and county comprehensive plan. If there are inconsistencies between the comprehensive plans of the town and the incorporated municipality with extraterritorial jurisdiction, prior to county board action the town and municipal governments must resolve the inconsistencies, following the dispute resolution process set forth in their respective comprehensive plans as required by s. 66.1001(2)(g), Wis. Stats.

(3) Permitted uses. All permitted uses in the underlying zoning district, provided all of the following criteria are met:

(a) Each new dwelling unit is accompanied by transferred development rights from a parcel or parcels in the TDR-S overlay district consistent with, and at a ratio determined by, an adopted town and county comprehensive plan.

(b) All transferred development rights in (a) above are from TDR-S overlay districts within the same town as the proposed dwelling unit, unless inter-town transfers are expressly authorized in adopted town and county comprehensive plans for both the sending and receiving towns.

(c) The landowner records a notice document for each new dwelling unit that details the number of development rights transferred, describes the sending property or properties, and references the recorded document number of the TDR agricultural conservation easement required under s. 10.158(3)(b).

(d) Copies of any recorded notices and copies of recorded TDR agricultural conservation easements on the sending parcel or parcels in the TDR-S district, must be provided to the zoning administrator before zoning permits will be issued.

(4) *Conditional uses.* All conditional uses in the underlying zoning district, provided all of the following criteria are met:

(a) Any application for a conditional use permit in the TDR-R overlay district that would increase the number of permanent dwelling units, except for those uses listed in paragraph (b) below, is accompanied by transferred development rights from a parcel or parcels in the TDR-S overlay district consistent with, and at a ratio determined by, an adopted town and county comprehensive plan.

(b) *Exceptions.* The following conditional uses are not considered an increase in the number of permanent dwelling units and do not require a transferred development right:

1. community living arrangements, as defined in s. 10.01(16);
2. dependency living arrangements, as defined in s. 10.01(19a);
3. extended care facilities, as defined in s. 10.01(22); and
4. nursing homes, as defined in s. 10.01(42).

(c) All transferred development rights in (a) above are from TDR-S overlay districts within the same town as the proposed dwelling unit, unless inter-community transfers are expressly authorized in adopted town and county comprehensive plans for both sending and receiving areas.

(d) The landowner records a notice document that details the number of development rights transferred, describes the sending property or properties and references the recorded document number of the restrictive covenant required under s. 10.158(3)(b).

(e) Copies of any recorded notices, and copies of recorded TDR agricultural conservation easements on the sending parcel or parcels in the TDR-S district, must be provided to the zoning administrator before zoning permits will be issued.

[HISTORY: 10.159 cr., OA 45, 2009-10, pub. 03/22/10.]

10.16 GENERAL PROVISIONS AND EXCEPTIONS. (1) *Use.* (a) Any use not listed as a permitted use in a district is prohibited in that district and except as otherwise expressly provided, any use listed as a permitted use in any other district shall be construed as a prohibited use in any other district.

(b) The following uses shall be permitted in the districts specified when these uses do not alter the character of the premises in respect to their use for the purposes permitted in that district:

1. In any district, real estate offices and signs advertising property for sale for a period not to exceed one (1) year.

2. In any district, temporary buildings and the temporary storage of materials and equipment incidental to the construction of buildings on the premises, for a period not to exceed one (1) year.

(c) In the agriculture districts: The production of fuel, using products or byproducts from a farm operation on the premises, is a permitted use incidental to the farm operation. Surplus fuel not needed for the farm operation may be sold as any other farm commodity.

(d) Airports that are listed as "Personal by Owner Only" on an application to the Wisconsin Department of Transportation, Bureau of Aeronautics, for airport site approval are permitted to locate in the Agriculture and Rural Homes Districts, subject to the following limitations:

1. Such airports in the A-1 (exclusive) and A-4 districts must also meet the definition of an agricultural accessory use under s. 10.01(2b).

2. Such airports in the A-B district must meet either:

a. the definition of an agricultural accessory use under s. 10.01(2b) or

b. the definition of an agriculture-related use under s. 10.01(2c).

3. All other airports are subject to the provisions of either ss. 10.12(2)(f) or 10.126(2)(e) of this ordinance.

(2) *Height.* Hospitals, churches, schools, communication towers, water towers, chimneys, spires, penthouses, cupolas, silos, windmills and similar structures may be erected to a height greater than the maximum permitted in the district in which they are located; provided, however, that no part of that structure above such height limit shall be used for residential purposes.

(3) *Area, frontage and population density.* (a) Any lot or parcel shown on a recorded

subdivision, plat or assessor's plat, or conveyance recorded in the office of the Register of Deeds for Dane County prior to the adoption of this ordinance, may be used as a building site, or for any use permitted in the zoning district in which the lot is located even though such lot or parcel does not conform to the minimum frontage or area requirements of the district in which it is located; provided, however, that no multiple family dwelling or residential unit in combination with some other use shall be erected, altered or converted in use on lots having a width of less than 50 feet.

(b) Two (2) or more lots or parcels of land in common ownership, each of which lacks adequate area or dimensions prescribed for the zoning districts in which they are located, may be used as one zoning lot if all of the following conditions are met:

1. The landowner submits to the department of planning and development a site plan of the properties to be combined, in a format and level of detail approved by the zoning administrator;

2. Prior to the combination of lots, the landowner obtains all necessary local, county, state or federal permits related to any construction or earthmoving proposed on the combined lots, including, but not limited to, the following:

a. Filling and grading permits under s. 11.05;

b. Erosion control permits, plans or simplified plan checklists under ch. 14;

c. Sanitary permits under ch. 46;

d. Rezoning of so much of the lots as are classified as wetlands, if required under s. 11.10;

e. Floodway and floodfringe determinations under s. 17.44; and

f. Wetland fill permits from the U.S. Army Corps of Engineers and Clean Water Act certification from the Wisconsin Department of Natural Resources.

3. The landowner creates and executes a restrictive covenant which expressly states that the subject lands are combined into a single parcel for all purposes including, but not limited to, meeting zoning requirements. The restrictive covenant shall:

a. Be in a form approved by the zoning administrator;

b. Expressly provide that the subject lands are combined into a single parcel which may not thereafter be divided without the express written consent of both the County of Dane and the town(s) in which the subject lands are located;

c. Grant joint and several rights of enforcement to the County of Dane and to the town(s) in which the subject lands are located;

d. Recite that the restrictive covenant and its various provisions are binding on the owner's successors and assigns in perpetuity and that the covenant and its provisions otherwise run with the land;

e. Provide that the restrictive covenant or any of its provisions may not be amended, modified or repealed without the express written consent of both the County of Dane and the town(s) in which the subject lands are located; and

f. Be recorded in the office of the register of deeds.

4. At the time the restrictive covenant is recorded, all lots must:

a. Be in common ownership;

b. Appear in a subdivision plat or certified survey map recorded in the office of the register of deeds prior to May 21, 1970;

c. Be in the same zoning district; and

d. Be either contiguous or on opposite sides of a public or private road or right of way, provided that in the case of two or more lots separated by a road or right of way, the distance between the side lot lines of each possible combination of two lots, as measured in a direction parallel to the right of way, does not exceed two hundred feet;

5. Residential accessory buildings are permitted on vacant portions of combined lots, provided that all other conditions of s. 10.04(1)(b) are met.

6. On contiguous lots, all setback, lot coverage, yard and percentage of occupancy provisions shall apply as if the combined lots were a single lot.

7. Lots separated by a public or private road or right of way may be combined for the purposes of placing or erecting a residential accessory building only. On lots so separated, all setback, lot coverage, yard and percentage of occupancy provisions shall apply to each individual lot as if the lots were not combined.

8. Principal buildings or uses shall not exist on more than one of the lots to be combined.

9. After buildings have been erected on combined lots, the area, width or length of the combined lots shall not be reduced, except in conformity with the provisions of this ordinance and applicable provisions of other chapters of the Dane County Code of Ordinances.

(4) Setback, front yard. **(a)** In districts in which retail fuel sales are permitted, pumps,

pump islands and related canopies, including canopy supports, may be located within the setback area, but not closer than 20 feet to the boundary line, provided that in any such district in an urban area, pumps, pump islands, and related canopies, including canopy supports, may be located within the setback area but the pumps, pump islands and canopy supports may not be located closer than 12 feet to the boundary line, and no part of the canopy may be located closer than 3 feet to the boundary line. The total height of any overhead canopy shall not exceed 20 feet as measured to the highest point of the structure and shall be located a minimum of 8 feet above grade. As used in this paragraph (a), *boundary line* means the more restrictive of either the lot line or the highway right-of-way line.

(b) In case of interior lots having frontage on two (2) side streets, no accessory building shall extend into the setback area of either street.

(c) When the side line of an interior lot is formed wholly or in part by the rear line of an abutting corner lot and the street side yard for the main building is less than the setback from the main building facing such street, the setback for the building on such interior lot may be modified so as to be midway between the side yard for the building on the corner lot and the setback from such street.

(d) In platted subdivisions recorded before the adoption of this ordinance where a building line shall have been established by the construction of buildings on 30 percent of the lots in any one (1) block, such established setback line shall be the setback for that block, but in no event shall such setback be less than 20 feet.

(e) For purposes of entry to buildings, steps, stoops, decks or ramps may be constructed in such a manner that they intrude into the required front yard setback area provided that all of the following limitations and conditions are satisfied:

1. Height shall not exceed 5 feet above ground level, not including railings.
2. Width shall not exceed 12 feet side to side.
3. Structure shall extend no farther than 10 feet from the front of the building to which it is attached or up to the front property line, whichever is less.
4. Structure shall not be enclosed. Railings which do not exceed 3 1/2 feet in height and which are of open architecture and not solid in appearance are permitted.
5. Structure shall not interfere with existing or planned roads, sidewalks, gas and electrical lines, sewers, drainageways, and other utilities

or public improvements. The zoning administrator may require written verification from appropriate agencies before issuing a zoning permit.

6. No part of the structure shall extend into any required vision clearance triangle.

(f) For single family residences or duplex residence buildings, single story bay windows may be constructed in such a manner that they project three (3) feet or less into the front yard provided that such windows do not occupy, in the aggregate, more than one-third (1/3) of the front wall of the building.

(g) On lake front lots, accessory buildings may be located in front yards subject to the locational requirements of s. 10.16(6)(a)1. provided, however, that the setback requirements are met.

(5) Side yards. (a) Lots of nonconforming width.

1. On lots 50 feet or more in width but less than 60 feet, the minimum aggregate side yards shall be 15 feet and no single side yard shall be less than five (5) feet.

2. On lots less than 50 feet in width the minimum side yard on each side shall be five (5) feet.

(b) Corner lots.

1. When the long side of a corner lot is formed by a class A, B or C highway the side yard on that street shall conform to the setback requirements for such highway.

2. When the long side of a corner lot is formed by a class D or E highway, the setback from the lot line of the long side shall not be less than one-fifth (1/5) of the lot depth measured from the long side except on lots of less than 60 feet, then the setback shall not be less than 12 feet. For buildings with attached garages facing the long side and having access to the long side of the lot, the minimum setback of the garage from the lot line shall be not less than 20 feet.

(6) Rear yards. (a) Location of accessory buildings in rear yards.

1. On interior lots 60 feet or more in width no accessory building shall be erected, moved or added to so as to be nearer than four (4) feet to the side lot or rear lot line; provided, however, if the front building line of any accessory building is located closer than 10 feet from the rear building line of a residence, the same side and rear yards as required for a principal or residential building shall be maintained.

2. On interior lots less than 60 feet in width no accessory building shall be erected, moved or added to so as to be nearer than two and one-half (2-1/2) feet to a side or rear lot line;

provided, however, if the front building line of any accessory building is located closer than 10 feet from the rear building line of a residence, the same side and rear yards as required for a principal or residential building shall be maintained.

3. On interior lots abutting on two (2) streets, or corner lots abutting on three (3) streets, no accessory building shall be erected, moved or added to so as to be nearer the rear street than the setback for that street. This provision shall not apply to alleys.

4. On corner lots abutting on two (2) streets, no accessory building shall be erected, moved or added to so as to be nearer to the side street than the distance required for the main building on that street; provided, however, that for garages with entrances facing the side street, the minimum distance from such side street shall be 20 feet. When the rear lot line of the corner lot forms the side line of an adjoining or abutting lot, no accessory building shall be erected, moved or added to so as to be nearer such rear lot line than the side line required for the building on the adjoining lot.

(b) Permitted obstructions in a required rear yard.

1. Steps or stoops to provide access to a building that is not more than three (3) feet above ground level and which do not extend more than four (4) feet into a required rear yard.

2. One story bay windows projecting three (3) feet or less into the yard provided that such windows do not occupy, in the aggregate, more than one-third (1/3) of the rear wall of the building.

3. Uncovered decks and porches that are supported by piers or posts may extend into any required rear yard by not more than twelve (12) feet.

4. Uncovered swimming pools both above and below ground provided that they be located not closer than 10 feet from any lot line.

5. Free standing solar collectors provided that they be located not closer than 3 feet from any lot line and not exceeding 12 feet in height.

(6a) Provisions applicable to all required setbacks and yards. (a) No existing building, erected prior to the adoption of this ordinance, which projects into a required setback or yard shall be moved, structurally altered or added to so as to increase that part of the building projecting into the required setback or yard, except as otherwise provided in s. 10.16. This provision shall not be construed to prohibit

additions or alterations which conform to the setback or yard requirements.

(b) Roof overhangs, soffits and awnings that are not supported to the ground may extend into any required setback or yard by not more than three (3) feet.

(7) Screening. Screening shall consist of either a planted evergreen screen at least six (6) feet in width and initially landscaped with four (4) foot tall evergreen shrubs to ultimately form a continuous hedge not less than five (5) feet in height and maintained with healthy shrubs, or a decorative wall or fence without signs and impervious to sight not less than six (6) feet nor more than eight (8) feet in height shall be maintained along the interior boundaries of any lot in the B-1, C-1, C-2, LC-1, LC-2 or M-1 districts that are adjacent to land in the residence district to a point 15 feet from the street right-of-way.

(8) Snowmobile and off-road vehicle operations.

(a) The operation of snowmobiles is permitted in any district provided the operation is confined to those areas which are marked as part of the county-wide snowmobile trail system.

(b) Off-trail use of snowmobiles, motorcycles and ATVs is permitted in the agriculture districts with the consent of the affected landowner.

(9) Race events. (a) Notwithstanding any other provision of this chapter, the zoning administrator is authorized to issue permits allowing snowmobile, ATV and motorcycle races and rallies in any agriculture district, provided that no permit shall be issued for a race or rally which is conducted by a commercial enterprise. Club-sponsored events are eligible for permits under this section.

1. Race events in the A-1 (exclusive), A-4 or A-B districts must also meet all requirements for agricultural entertainment activities under s. 10.123(2)(d).

(b) Only one permit may be issued in any one calendar year and then only for an event to be conducted on consecutive days which shall not total more than 3.

(c) Application for the permit shall be made not less than 20 days prior to the scheduled event. The application shall contain a description of the course or track, its location, the landowner's name and address, the name of the sponsor and if an organization, its authorized representative and such other information as the zoning administrator may require. The zoning administrator shall notify the affected town clerk(s) of any application under this subsection. The town clerk(s) may in turn communicate any

concerns of the town to the zoning administrator who shall take such concerns into account in imposing conditions on the permit.

(d) In deciding upon conditions to be imposed on a permit, if any, the zoning administrator shall take into account the public interest and welfare, together with the character of the neighborhood and any concerns expressed by the affected town(s). The permit shall be issued unless the zoning administrator determines that the event will cause an unreasonable disturbance to adjoining landowners or place an undue burden on local officials or law enforcement personnel.

(e) There shall be no fee for a permit under this subsection.

(f) The applicant may appeal denial of a permit to the committee which may affirm, reverse or modify, with conditions, the decision of the zoning administrator.

(10) This ordinance shall not be construed to regulate site approval for any particular structure, and towns are free to impose site approval requirements which are reasonably related to building permits, driveway permits and other lawful town land regulations.

10.17 SETBACK REGULATIONS. For the purpose of determining the distance buildings and other structures shall be setback from streets and highways, the streets and highways in Dane County are divided into the following classes:

(1) Class A highways. (a) All state and federal highways are hereby classified class A highways.

(b) The setback line for a class A highway shall be 100 feet from the centerline of the highway right-of-way or 42 feet from the right-of-way line, whichever is greater.

(c) Service roads to class A highways a distance of 100 feet from the centerline of said highways shall be considered class C, D or E highways for the purpose of determining the setback along said service roads.

(2) Class B highways. (a) All county trunks except as otherwise provided, are hereby designated class B highways. For the purpose of this ordinance any road will be considered as a county trunk after it has been placed on the county trunk system by the county board and approved by the state highway commission.

(b) The setback from class B highways shall be 75 feet from the centerline of any highway right-of-way or 42 feet from the right-of-way, whichever is greater.

(3) Class C highways. (a) All town roads not included within the boundaries of a recorded subdivision or plat are hereby designated class C highways.

(b) The setback from class C highways shall be 63 feet from the centerline of such highway right-of-way or 30 feet from the right-of-way line, whichever is greater; provided, however, that in the case of a service road, contiguous to the right-of-way of a main highway, where buildings can be built on only one (1) side of such service road, the minimum setback shall be 30 feet, regardless of the width of such service road, and provided, further, that if such service road shall be a street in a platted subdivision, then the setback provisions governing such platted street shall apply.

(4) Class D highways. (a) Roads and streets in subdivisions platted prior to the adoption of this ordinance, except those designated class A or class B highways, are hereby designated as class D highways.

(b) For all class D highways setback lines are hereby established, parallel to and distant 20 feet from the right-of-way line or front lot line.

(5) Class E highways. (a) All streets, highways and roads not otherwise classified are hereby designated class E highways.

(b) For all class E highways setback lines are hereby established, parallel to and distant 30 feet from the right-of-way or front lot line.

10.18 OFF-STREET PARKING AND LOADING.

(1) Purpose. The purpose of this section is to provide off-street vehicle parking, loading and circulation standards sufficient to prevent congestion of public rights-of-way and provide safe and efficient public access to properties, while minimizing the impact of off-street parking areas on nearby properties and the natural environment.

(2) Applicability. In all districts, in connection with all uses, at the time any new structure is erected, any use of a structure or land is enlarged or increased in intensity, or any other

use or change of use is established, off-street parking, loading and circulation areas shall be provided and located in accordance with the requirements of this section. Off-street parking areas in existence as of the effective date of this ordinance shall not hereafter be reduced below or further below the requirements for a similar new building or use.

(3) General provisions. (a) A scaled and dimensioned parking, loading and circulation plan shall be included within a development plan submitted to and approved by the zoning administrator prior to issuance of a zoning permit for construction or expansion of any use. When a use requires a conditional use permit, such plan shall be submitted with the application for the conditional use.

(b) No areas designated for parking, loading or circulation may be used for any other purposes. Required parking spaces shall be used solely for the parking of licensed automobiles of occupants, patrons and employees and licensed service vehicles.

(c) All parking spaces required to serve buildings erected or uses established shall be located on the same zoning lot as the building or use served, except that parking may be located off-site on another zoning lot provided all of the following criteria are satisfied:

1. Off-site parking shall be located only in the C-1, C-2, M-1 and EXP-1 districts.
2. The zoning lots including the principal use and off-site parking shall be located no farther than 500 feet from one another;
3. Adequate pedestrian connection and directional signage between the sites exists or shall be provided;
4. The continued availability of such off-site parking areas, necessary to meet the requirements of this section, shall be ensured by an agreement among all involved property owners describing the rights and limitations of all property owners and businesses. Such agreement shall bind all heirs, successors and assigns of each owner and shall be approved by the zoning administrator before being recorded with the register of deeds.

5. Off-site parking areas shall be subject to the same design standards as on-site parking areas.

(d) The parking or storage of motor vehicles provided for in section 10.18(8) shall not occur within parking spaces otherwise required by this section.

(4) Design standards. (a) Access. Adequate ingress and egress to parking and loading areas by means of clearly limited and defined drives

shall be provided. Access drives shall be perpendicular to the public right-of-way wherever possible. Access drives shall be spaced a safe distance from street intersections and each other, shall not be located within vision corners, and may be limited in number and location according to applicable local, county, state and federal standards.

(b) Surfacing. Within urban service areas, except for single family residences, duplexes and mobile homes: all parking areas, loading areas, driveways and circulation areas shall be paved with a hard, all-weather surface such as asphalt, concrete, Portland cement or brick. Outside of urban service areas and for single family residences, duplexes and mobile homes: gravel surfacing is also permitted unless otherwise restricted by town ordinance, and grass surfacing may be permitted for seasonal parking only. *Seasonal* means limited to a period no longer than six months in a twelve month period, or related to a unique or annually occurring event or condition of limited duration. All parking areas shall be maintained in a smooth and dust free condition.

(c) Dimensions of parking spaces. Perpendicular (90-degree) parking is encouraged. Each required off-street parking space shall have a stall width of at least 8 feet for 90-degree and parallel parking and 9 feet for angle parking, and a stall length of at least 17 feet for 90-degree and angle parking and 23 feet for parallel parking. Parking for people with disabilities shall be provided at a size, number, location and with signage as specified by state and federal regulations, in addition to those spaces required in section 10.18(5). All spaces on hard-surfaced lots shall be striped.

(d) Circulation. Minimum width of internal aisles providing two-way traffic access to parking spaces shall be 24 feet. Minimum width of internal aisles providing one-way traffic access to spaces shall be as follows: 10 feet for parallel (0-degree) to 45-degree parking, 16 feet for 46 degree to 60 degree parking, and 20 feet for 61 to 90 degree parking. Two-way traffic aisles shall not be permitted to serve angle parking. Directional marking or signage, or both, shall be provided where required to facilitate safe, efficient circulation. Uses with drive-through facilities shall provide sufficient space on-site for all vehicles queuing to be served by or otherwise waiting to do business at the facility. Such queuing space shall not interfere with the use or operation of parking spaces, circulation aisles, access drives, entrances or public roads.

(e) Loading areas. Uses which involve deliveries or removal of goods, materials, supplies or waste by truck shall provide adequate off-street loading and unloading facilities on the same lot as the principal use. Space reserved for loading and unloading shall not be used for off-street parking spaces or vehicle circulation. For such uses located in buildings with over 10,000 square feet of gross floor area, at least one loading berth shall be provided. Each off-street loading berth shall have a width of at least 10 feet and a length of at least 50 feet, and shall be located no closer than 30 feet from any residence district.

(f) Drainage. Suitable grading and drainage shall be provided to collect and transmit stormwater to appropriate retention or detention basins, drainageways, ditches or storm sewers.

(g) Lighting. Any lighting used to illuminate off-street parking areas shall be directed away from adjacent properties and public rights-of-way.

(h) Setbacks. Parking, loading and circulation areas may be provided within required front setbacks and side and rear yards. Areas for parking, loading and circulation shall be a minimum of three feet from all property lines, except where this requirement prohibits a proposed joint driveway or proposed shared parking.

(i) Screening and landscaping. Screening shall be provided in accordance with specifications in section 10.16(7) where parking, loading or internal circulation areas adjoin residence districts. All hard-surfaced and graveled parking, loading and circulation areas with 10 or more spaces shall be provided with accessory landscape areas totaling not less than five percent of the surfaced area. Such landscaping shall consist primarily of trees, bushes and shrubs. Landscaping may be planted internal to the parking area itself within islands or around the immediate perimeter and shall be reasonably distributed. Landscaping shall be protected from damage by vehicles and shall be replaced if damaged or killed.

(b) Bicycle parking facilities will be provided through racks, lockers or equivalent structures located convenient to the proposed use;

(c) A public transportation route is located within 1,000 feet of the property;

(d) Shared parking for more than one use will be implemented, provided that the applicant(s) demonstrate that the same spaces may adequately serve two or more uses by reason of the hours of operation of such uses. The continued availability of such shared parking areas shall be ensured by an agreement among all involved property owners describing the rights and limitations of all property owners and businesses, and providing that if any of the uses sharing the parking changes, the agreement shall become null and void. Such agreement shall bind all heirs, successors and assigns of

each owner and shall be approved by the zoning administrator before being recorded with the register of deeds.

(7) Reserve area. In the event the number of required spaces is reduced as allowed by section 10.18(6), the zoning administrator may also require that sufficient area be held in reserve for potential future development of parking to meet the requirements under section 10.18(5). If required, such reserve area shall be shown and noted on the development plan, maintained in open space use and developed with parking spaces when the zoning administrator determines that such development is necessary due to parking demand which exceeds original expectations, the loss of bicycle or public transit access or facilities, or the dissolution of a shared parking agreement.

(8) Parking and storage of trucks, buses and special vehicles.

(a) In the residence and rural homes districts, and on any lot in the A-2 Agriculture District where the principal use is residential, motor vehicles used for personal transportation and recreational vehicles and trailers owned by a person residing on the premises may be parked or stored, provided that the gross vehicle weight shall not exceed 12,000 pounds.

(c) Any automobile licensed as an antique or special interest vehicle under section 341.266, Wis. Stats., or parts cars therefore, can be stored on a lot in any district provided that such vehicle is stored in such a manner that it does not constitute a health hazard and is screened from ordinary public view by means of a fence, rapidly growing trees, shrubbery or other appropriate means, as required by s. 341.266(4), Wis. Stats.

(d) Farm trucks or trailers licensed under ss. 341.26(3) or 341.30, Wis. Stats., may be parked on lots in agriculture districts.

10.193 STANDARDS FOR SITING OF ADULT BOOK STORE.

(1) The County of Dane, relying upon the experience of other local governments in this state and throughout the country, finds that adult book stores have an adverse secondary effect on the surrounding

community and that regulations are necessary to minimize this secondary effect. The experience of other cities are summarized in the case of *Northend Cinema, Inc. v. Seattle*, 585 P. 2d 1153 (1978).

(2) This ordinance does not regulate the content of materials held for sale or rent in adult book stores.

(3) Adult book stores shall meet all of the following requirements:

(a) Location of any particular adult book store must be not less than 1,000 feet from any church, synagogue, temple, mosque or any other place of worship, any residentially zoned district, park, school, playground, day care center, public library and any other adult book store;

(b) Exterior windows shall not be covered or made opaque in any way;

(d) The business may have only one (1) nonflashing business sign which sign may only indicate the name of the business and identify it as an adult book store and which shall be not larger than 4 feet by 4 feet;

(e) A one square foot sign shall be placed on each public entrance which shall state "Admittance to adults only" and may include other pertinent business information; and

(f) There shall be no doors on any viewing booths and each booth must be lighted by a source emitting at least 10 candlepower at all times.

10.194 PROCEDURE AND STANDARDS FOR THE PLACEMENT, CONSTRUCTION OR MODIFICATION OF COMMUNICATION TOWERS.

This section provides the procedures and standards for issuance of conditional use permits for the placement, construction or modification of communication towers as defined in section 10.01(78m).

(1) It is intended that conditional use permits shall be issued under this section to accommodate the expansion of wireless communication technology while minimizing the

number of tower sites through the requirement that permitted towers be placed or constructed so that they may be utilized for the collocation of antenna arrays to the extent technologically and economically feasible.

(2) No conditional use permit for the placement or construction of a tower shall be issued unless the applicant presents to the committee credible evidence establishing to a reasonable degree of certainty the following:

(a) No existing communication tower is located within the area in which the applicant's equipment must be located; or

(b) No existing communication tower within the area in which the applicant's equipment must be located is of sufficient height to meet applicant's requirements and the deficiency in height cannot be remedied at a reasonable cost; or

(c) No existing communication tower within the area in which the applicant's equipment must be located has sufficient structural strength to support applicant's equipment and the deficiency in structural strength cannot be remedied at a reasonable cost; or

(d) The applicant's equipment would cause electromagnetic interference with equipment on the existing communication tower(s) within the area in which the applicant's equipment must be located, or the equipment on the existing communication tower(s) would cause interference with the applicant's equipment and the interference, from whatever source, cannot be eliminated at a reasonable cost; or

(e) The fees, costs or contractual provisions required by the owner in order to collocate on an existing communication tower are unreasonable relative to industry norms; or

(f) The applicant demonstrates that there are other factors that render existing communication towers unsuitable or unavailable and establishes that the public interest is best served by the placement or construction of a new communication tower.

(3) The cost of eliminating impediments to collocation shall be deemed reasonable if it does not exceed by 25 percent the cost of constructing a new tower on which to mount applicant's equipment.

(4) In the event the committee determines that it is necessary to consult with a third party in considering the factors listed in subsection (2) above, all reasonable costs and expenses associated with such consultation shall be borne by the applicant. Failure to pay such costs and expenses or provide information requested by the committee shall be grounds for denial or

revocation of a conditional use permit. The applicant may provide to the committee the names of consultants which the applicant believes are qualified to assist in resolving the issues before the committee.

(5) In applying the standards and criteria set forth in section 10.255(2), D. C. Ords., to applications for conditional use permits for the placement or construction of a communication tower the committee shall, unless it is shown to be unreasonable, condition the grant of the permit upon the applicant placing or constructing the communication tower so as to accommodate, at a minimum height of 150 feet, the collocation of two additional antenna arrays similar in size and function to that placed on the tower by the applicant. Collocation sites need not be available on the tower as initially placed or constructed, provided that the tower will support at the specified minimum height the later addition of the required number of collocation sites. Notwithstanding the height and number of collocation sites on the tower as initially placed or constructed, the communication tower design approved and permitted under this ordinance shall be for a tower of 150 feet in height and shall include the required collocation sites. The holder of a permit under this section shall make the collocation sites required hereunder available for the placement of technologically compatible antenna arrays and equipment upon contractual provisions which are standard in the industry and at prevailing market rates allowing the permit holder to recoup the cost of providing the collocation sites and a fair return on investment.

(6) Unless otherwise provided herein, a conditional use permit is required for any modification of a communication tower which significantly alters the appearance or structural integrity of the tower or which involves the installation of antenna or equipment differing in size and function from that previously installed on the tower. The committee shall apply the standards under section 10.255(2), D. C. Ords., when considering an application for a conditional use permit to allow the modification of an existing communication tower. In addition, the committee shall consider the reasonableness, based on economic and technological feasibility, of conditioning the grant of the conditional use permit upon modifying the tower in a manner which would accommodate the collocation of one or more additional antenna arrays.

(7) Upon written inquiry by the committee the recipient of a conditional use permit under this section shall have the burden of presenting

credible evidence establishing to a reasonable certainty the continued compliance with all conditions placed upon the conditional use permit. Failure to establish compliance with all conditions placed upon the conditional use permit shall be grounds for revocation of the permit. In the event the committee determines that it is necessary to consult with a third party to ascertain compliance with conditions on a conditional use permit, all reasonable costs and expenses associated with such consultation shall be borne by the holder of the subject conditional use permit. Failure to pay such costs and expenses or provide information requested by the committee shall be grounds for revocation of the conditional use permit. The holder of the subject conditional use permit may provide to the committee the names of consultants which the permit holder believes are qualified to assist in resolving the issues before the committee. In any event, where a dispute arises under this ordinance involving an applicant for a conditional use permit and the holder of a conditional use permit hereunder, the committee may allocate consulting costs and expenses between the applicant and permit holder.

(8) A conditional use permit shall not be required for collocation on an existing tower permitted under this section, provided the collocated antenna array or equipment is similar in size and function to that installed by the holder of the conditional use permit for the tower, does not significantly alter the appearance or structural integrity of the tower approved and permitted under this section, and is fully in compliance with all conditions contained in the original conditional use permit. The holder of the conditional use permit for any tower on which collocation occurs shall within 30 days of such collocation provide the committee with written notification of the identity of the collocater and the nature of the equipment installed. Within 30 days of the date on which any collocated use ceases, the permit holder shall provide the committee with written notice of the cessation of such use.

(9) The holder of a conditional use permit for a tower and any user collocating under this ordinance shall each be permitted to construct a building of no more than 14 feet in height and 314 square feet in floor area for use directly incidental and necessary to the use of the tower. Two or more users of the tower may build a single building with a floor area of no more than 314 square feet per user sharing the building. Buildings constructed or used by tower

collocators shall be subject to conditions established for the conditional use permit for the tower.

(10) Conditional use permits issued hereunder shall identify the primary type or types of transmission equipment which is to be placed on the subject communication tower. Any communication tower on which the transmission equipment so identified is no longer placed or used for a continuous period of 12 months shall, upon notification by the committee, be removed by the holder of the conditional use permit issued under this section. If the tower is not removed within 60 days of such notification, the county may remove the tower at the expense of the holder of the conditional use permit.

(11) The committee may require that an applicant for a conditional use permit under this section provide information regarding the applicant's then current plans for future placement or construction of communication towers in Dane County in addition to the tower which is the subject of the application.

10.195 STANDARDS FOR KEEPING DOMESTIC FOWL IN SINGLE FAMILY RESIDENTIAL YARDS.

(1) *Purpose.* The purpose and intent of this section is to provide a listing of standards that shall apply to the keeping of domestic fowl in the yards of single family residences. The standards are designed to ensure that the keeping of fowl is done in a responsible manner that protects the public health, safety, and welfare and avoids conflicts with neighboring uses.

(2) *Use.* The keeping of 6 domestic fowl in the yards of single family residences located in any zoning district shall be a permitted use, if such use complies with the following:

- (a) Domestic fowl shall not be slaughtered.
- (b) Domestic fowl must have access to a covered enclosure.
- (c) Domestic fowl shall not be allowed to roam free and must be kept in a covered enclosure or fenced enclosure at all times.
- (d) Covered and fenced enclosures must be clean, dry and odor-free, and kept in a manner that will not disturb the use or enjoyment of adjacent lots.

(3) *Permits for covered enclosures.* Notwithstanding the exemption set forth in section 10.04(1)(b)9.a., zoning permits shall be required prior to the erection, placement or construction of covered enclosures.

(4) Location of covered and fenced enclosures.

1. Covered and fenced enclosures shall be within the rear or side yard.

2. Covered and fenced enclosures shall not be closer than 25 feet to any residential structure on an adjacent lot.

3. Covered and fenced enclosures shall not be located closer than 75 feet from the ordinary high water mark of any lake, river, or stream.

(5) *Violations.* Any violation of these standards shall be subject to the penalties set forth in section 10.25(5).

(6) *Effective date.* This section shall become effective as of January 1, 2013.

10.196 STANDARDS AND PROCEDURES FOR WIND ENERGY SYSTEMS.

(1) This section provides the standards and procedures for issuance of conditional use permits for wind energy systems, as defined in s. 66.0403(1)(m), Wis. Stats. The purpose of this section is to ensure any proposed wind energy system complies with applicable provisions of PSC 128, Wisconsin Administrative Code as amended, and this section.

(2) No restriction shall be placed, either directly or in effect, on the installation or use of a wind energy system, unless the restriction satisfies one of the following conditions:

- (a) Serves to preserve or protect the public health or safety.
- (b) Does not significantly increase the cost of the system or significantly decrease its efficiency.
- (c) Allows for an alternative system of comparable cost and efficiency.

(3) *Use.* Wind energy systems are a conditional use in any district. The County will apply Wis. Stats. s. 66.0401 and PSC Ch. 128 Wisconsin Administrative Code as amended, in the evaluation of such requests.

(4) *Procedures.* To the extent not inconsistent with state law, the procedures for consideration of conditional uses set forth in s. 10.255(2) shall be followed.

10.20 SALVAGE RECYCLING CENTERS.

(1) *Use.* For purposes of this ordinance, any premises used for the storage, gathering, recycling or sale of junk, as defined in this chapter, is a salvage recycling center. A salvage recycling center need not have a commercial purpose.

(a) Junk, as defined under this chapter, may be stored on any premises on which a permitted business enterprise is actually conducted, provided, that all such junk is actually used in the conduct of such permitted business enterprise, and that all such junk is at all times stored in an enclosed building on the premises, thereby securing it from public view.

(b) Junk, as defined in this chapter, may be stored on any premises used chiefly for residential purposes, provided that it is stored solely for eventual use on the premises, and that all such junk is at all times stored in an enclosed building thereby securing it from public view.

(2) Location and boundaries. No salvage recycling center shall be located within two hundred (200) feet of the boundary of a residential district.

(3) License. (a) Before any premises may be used as a privately operated salvage recycling center, it shall be licensed. Application for such license shall be made to the zoning administrator, setting forth the description of the premises, the nature of the business and the materials to be handled, the type of construction of any building to be used in connection with the business, the applicant's name or names, officers, if any, and address of each. The application shall be referred to the zoning committee which shall, within a reasonable time, hold a public hearing, notice of which shall be given by a class 2 notice under chapter 985, Wis. Stats. If, after such public hearing, the zoning committee finds that the premises are in conformity with the provisions of this ordinance, and that the site is suitable for the conduct of such business, the committee shall grant a license, and such license shall expire on July 1 of each year. Licenses may be renewed from year to year on authorization of the committee when inspection discloses that the business is being conducted in accordance with the provisions of this ordinance.

(b) Revocation of license. Upon the complaint of any interested person, or on its own motion or after inspection discloses that the provisions of this ordinance are being violated, the zoning committee may hold a public hearing to determine whether a privately operated salvage recycling center license shall be revoked, notice of such hearing to be given to all interested parties. After public hearing, the zoning committee may order the license revoked.

(c) Should any town elect to license salvage recycling centers by adoption of an ordinance pursuant to the provisions of section 59.55(5),

Wis. Stats., and file a copy of such ordinance with the zoning department, then the provisions of paragraphs (a) and (b) above shall not apply, but no such license shall be issued by any town for such purpose unless the area is properly zoned and unless the zoning committee, after public hearing, determines that the site is suitable. When a salvage recycling center is licensed by the town, then the responsibility of controlling such salvage recycling center rests with the town.

10.21 NONCONFORMING USES. (1)(a) The lawful use of a building or premises existing at the time of adoption of this ordinance may be continued as a nonconforming use, but if such nonconforming use shall be discontinued for a period of one (1) year, such nonconforming use will be deemed to have terminated and any future use shall be in conformity to the provisions of this ordinance except as otherwise provided by this ordinance.

(b) No building or premises used as a nonconforming use shall be added to or structurally altered so as to increase the facilities for such nonconforming use.

(c) Mineral extraction operations which existed prior to 1969 and were registered with and approved by the Dane County Zoning Administrator shall be considered nonconforming uses.

(d) Mineral extraction sites that were registered as nonconforming sites as provided by this ordinance shall not be considered abandoned or discontinued if the site is inactive for more than one year.

(e) The stockpiling and processing of asphalt and concrete pavements for the purpose of recycling for reuse in asphalt or concrete mixtures or as base course products shall be allowed as part of a nonconforming mineral extraction site.

(2) Any building lawfully erected prior to the adoption of this ordinance which does not conform to the requirements of this ordinance as to setback, side yards or rear yards, may be continued in use, but any future additions or structural alterations shall conform to the provisions of this ordinance.

(3) Any existing nonconforming use may be changed to another nonconforming use of a similar or more restricted classification or to a conforming use; provided, however, that when a use has been changed to a conforming use or a

more restricted nonconforming use it may not again be changed to a less restricted use.

(4) No use which is not the principal use of the land on which it is located shall be considered a valid nonconforming use.

(5) Any nonconforming use, the location of which is changed to another part of the premises, shall be considered abandoned one (1) year after the locational change and, in any event, any nonconforming use at the new location shall be invalid.

10.22 INTERPRETATION AND APPLICATION.

In interpreting and applying the provisions of this ordinance they shall be held to be minimum requirements for the promotion of health, safety, convenience, morals, comfort and general welfare. It is not intended by this ordinance to interfere with or abrogate or annul any easements, covenants or similar agreements between parties, nor is it intended by this ordinance to repeal, abrogate, annul or in any way impair or interfere with any existing provisions of law or ordinance, or any rules, regulations or permits previously issued or adopted, or which may be issued or adopted according to law relating to use, occupancy, location or height of the buildings or premises; provided, however, that when this ordinance imposes a greater restriction upon the use, occupancy, location or height of buildings or premises than imposed by such existing provisions of law or ordinance, or by such rules, regulations or permits, the provisions of this ordinance shall control.

10.23 COMPLETION, RESTORATION OR ENLARGEMENT OF EXISTING STRUCTURES.

(1) Nothing herein contained shall require any change in the plans, construction or intended use of a structure or premises for which plans have been prepared heretofore, and the construction of which shall have been diligently pursued within three (3) months after the effective date of this ordinance.

(2) Nothing herein contained shall prevent the alteration, restoration or repair of any legal structure occupied by a nonconforming use at the effective date of this ordinance; provided, however, that the cost of such alteration, restoration or repairs shall not during the life of the building exceed fifty (50) percent of the assessed valuation of such structure, such

valuation being that in effect for the year in which such use became nonconforming. No structure used as a nonconforming use shall be added to or structurally altered so as to increase the facilities of such nonconforming use.

(3)(a) Nothing contained in this section shall prevent the restoration of a nonconforming structure damaged or destroyed by wind, vandalism, fire, flood, ice, snow, mold, or infestation, if the structure is restored to the size, location, and use that it had immediately before the damage or destruction occurred. Such restoration shall occur within 2 years of the damage or destruction.

(b) A structure to which sub. (a) applies may be larger than the size it was immediately before the damage or destruction if necessary to comply with applicable state or federal requirements, but no larger than necessary to comply with said requirements.

(4) A structure is considered to be demolished and nonexistent if during the course of restoration, enlargement or other improvement, more than 50% of the pre-existing structure is removed or must be replaced to maintain structural integrity. Continuation of the construction or repair shall be subject to the entire structure being in compliance with current zoning regulations based on the parameters for entirely new construction and disregarding any nonconforming status. Any variance that may have been issued for said building or structure shall be null and void and any zoning permits shall be rescinded pending verification of compliance. Except for the provisions of sub. (3), this section shall supersede all other pertinent sections of this ordinance including nonconforming ("grandfathered") use or locational status.

[History: (4) cr., Sub. 1 to OA 31, 1991-92, pub. 04/22/92; (1)-(4) am, 2015 OA-16, pub. 12/04/15.]

10.24 CHANGES AND AMENDMENTS. The Dane County Board of Supervisors may from time to time alter, supplement or change by ordinance the boundaries or classification of districts designated in this ordinance, or any of the provisions of regulations imposed by this ordinance in the manner provided by the law.

10.25 ADMINISTRATION, ENFORCEMENT AND PENALTIES. (1) Zoning administrator.

(a) The provisions of this ordinance shall be administered by or under the zoning administrator, who in person or by duly authorized deputy or assistant shall have the

right to enter upon premises affected by this ordinance at reasonable hours for the purpose of inspection. The zoning administrator shall hold his or her office under civil service, and vacancies in such office shall be filled by procedures established by civil service ordinance. The county executive shall be the appointing authority for the position of zoning administrator.

(b) It shall be the duty of the zoning administrator to receive applications for zoning permits and such other permits and licenses provided in this ordinance, and to issue such permits after applications have been examined and approved; to inspect buildings under construction for compliance with the regulations of this ordinance; to make periodic inspections; to take such action as may be necessary for the enforcement of the regulations provided herein; to attend all meetings of the zoning committee and the board of adjustment; and to perform such other duties as the zoning committee and the board of adjustment may direct.

(2) Zoning permits. (a) No new building shall hereafter be erected, and no existing building shall be added to, structurally altered, moved or changed in use, nor shall any nonconforming building be repaired or restored, in any district, until a zoning permit has been issued, except as otherwise provided by law or ordinance.

(am) Reasonable accommodations for handicapped persons.

1. The zoning administrator may issue a zoning permit that waives specified requirements of this ordinance, if it is determined that the requested accommodation:

a. is necessary to afford handicapped or disabled persons equal housing opportunities or equal access to public accommodations;

b. is the minimum accommodation that will give the handicapped or disabled persons adequate relief; and

c. will not unreasonably undermine the basic purposes of this ordinance.

2. **a.** If the zoning administrator issues a zoning permit that waives specified zoning provisions pursuant to 1. above, the permit will include a condition that the structure authorized by the permit (such as an entrance ramp) shall be removed not more than 30 days after the handicapped or disabled person vacates the property or the structure ceases to be a public accommodation.

b. The permit will not become effective until the property owner records a deed restriction with

the Register of Deeds setting forth the condition that the structure authorized by the permit shall be removed as required by 2.a.

3. If the zoning administrator denies a permit requesting an accommodation under this subsection, the denial may be appealed to the Board of Adjustment pursuant to s. 10.26.

(b) [Rescinded OA 4, 2011-12]

(c) An applicant for a zoning permit shall file a development plan as defined in s. 10.01(19n). If from the development plan submitted by the applicant or based upon information gathered by a zoning inspector, the zoning administrator cannot determine compliance with the provisions of county ordinances, the zoning administrator may require the filing of a development plan prepared by a licensed surveyor. The zoning administrator may also require evidence of compliance with the Dane County Sanitary Code, the Dane County Land Division and Subdivision Ordinance, Dane County Trunk Highway Access Control Regulations or any other state or township access or culvert permit requirements as a condition precedent to the issuance of a zoning permit. The zoning administrator shall not be responsible for determining the location of lot lines.

(d) Application for a permit must contain the following: name and address of the owner of the property, legal description, size and location of the building to be erected or moved on or onto the property, proposed use of the building or premises, type of construction, estimated cost and any other information as the zoning administrator may require.

(e) This application shall be signed by the owner or his or her duly authorized representative or agent; provided, however, that, if a prospective owner desires a prior ruling on a proposed construction or use before consummation of purchase, he or she may apply for a permit, and, if a permit be denied, he or she may appeal to the board of adjustment.

(f) Coincident with the issuing of a permit, the zoning administrator shall prepare a card certifying that a permit has been issued. This card shall bear the same number as the permit and identify the construction and premises covered by the permit. This card shall be posted in a conspicuous place on the premises during the construction, and no construction shall be begun until this card has been posted. For purposes of this ordinance, start of construction shall be when any earth disturbing activity takes place that will lead to the installation of footings, piers, posts, pilings or foundations. Earth

disturbing activity for the purpose of soil evaluation or testing shall not be considered the start of construction.

(g) Each day a non-permitted structure, building, addition, alteration or activity exists shall constitute a separate violation. A non-permitted structure, building, addition, alteration or activity is one which requires the issuance of a permit under this ordinance but which permit has not been issued by the zoning administrator.

(h) Any permit obtained through material misrepresentation shall be null and void.

(i) A permit issued pursuant to the provisions of this section shall expire one year from the date of issuance if construction is not started within that time and will expire if construction once started does not diligently proceed to completion within two years starting time.

(3) Inspections of buildings to be made by the zoning administrator. (a) 1. A location survey as defined herein shall be submitted to the zoning division for all construction which will be located less than ten (10) feet from required setback lines, except as exempted below. The survey shall be done at the time when foundations or basement walls are completed. Such survey shall be submitted to the zoning office prior to the continuation of work on the project.

2. For construction which is located 10' or more from the required setback lines, a location survey is not required. The property owner/s and contractor/s are responsible for determining location compliance.

3. Upon approval by the zoning administrator, a location survey is not required for non-permanent accessory buildings under 120 square feet in gross floor area not located on a foundation, concrete slab, pilings, or footings. It shall be the responsibility of the owner to demonstrate compliance with the setback requirements of this ordinance upon request.

(b) Upon completion of the project the owner/s or their agent shall notify the zoning division and request an inspection. This inspection must be made before a zoning certificate of compliance may be issued as provided by section 10.25(4) of this ordinance. The owner or his or her agent shall have all lot corners visibly staked prior to requesting an inspection. If the zoning administrator is unable to accurately verify the location of a building on its lot, he or she may post a stop work order where appropriate and require that a survey map be prepared by a registered land surveyor that will show the location of the building on its lot before allowing construction to continue.

(c) Stop work order. 1. Whenever the zoning administrator finds that any construction does not comply with the provisions of this ordinance, the zoning administrator shall post, in a conspicuous place on the premises, a stop work order which shall cause all activity to cease until the construction is in compliance with the ordinance.

2. The card shall provide the following information: date of issuance, town and section number, reason for posting and the signature of the inspector posting the card.

3. It shall be a violation of the ordinance for the unauthorized removal of the card from the premises.

(4) Certificate of compliance. (a) No building or addition thereto, constructed after the effective date of this ordinance and no addition to a previously existing building shall be occupied, except accessory buildings used exclusively for farming or agricultural purposes and no land vacant, except that used exclusively for farming or agricultural purposes on the effective day of this ordinance, shall be used for any purposes until a certificate of compliance has been issued by the county zoning administrator. Every certificate of compliance shall state the use and occupancy and the location of the building or buildings and indicate that the use of land complies with all of the provisions of this ordinance.

(b) Every application for a zoning permit shall be an application for a certificate of compliance.

(c) An application for a certificate of compliance for a new use or a change in use of land or a building shall be made directly to the zoning administrator.

(d) No certificate of compliance for a building or addition thereto, constructed after the effective date of this ordinance shall be issued until construction has been substantially completed and the premises inspected and certified by the zoning administrator to be in conformity with the specifications on which the permit was issued. The zoning administrator may establish rules by which a temporary certificate of compliance may be issued for a part of a building.

(e) Any person, firm or corporation having a legal or equitable interest in a property which is nonconforming as to use or building location may request a certificate of compliance. Said applicant shall present documentary proof that said use was a permitted use at the time it originated or that the building has been erected prior to the adoption of this ordinance and was made nonconforming by the adoption of this

ordinance or amendment thereto. After certifying that the use of the building or land is in fact nonconforming the zoning administrator shall issue a certificate of compliance stating the use in question or the location of buildings and the zoning of the property.

For a certificate of compliance for new construction, additions, alterations or remodeling for which a Dane County Zoning Permit has been issued since August 20, 1970, there shall be no fee charged. For all other certificates of compliance, there shall be a fee of \$5.00 for each certificate.

(5) Penalties. (a) Any person or persons, firm, company or corporation, owner, occupant or other user of the premises who violates, disobeys, omits, neglects or refuses to comply with or resists the enforcement of any of the provisions of this ordinance shall be subject to a forfeiture of not less than five dollars nor more than two hundred dollars and costs, except that violations of s. 10.157(4) shall be at the rate of not less than \$1,000 nor more than \$5,000 per violation. Each day that a violation is permitted to exist shall constitute a separate offense. Compliance herewith shall be enforced by injunctive order at suit of the county or occupant of real estate within the district affected by the regulations of this ordinance. It shall not be necessary to prosecute for forfeiture before resorting to injunctive proceedings.

(b) Any person who has the ability to pay any forfeiture entered against him or her under this ordinance but refuses to do so may be confined in the county jail until such forfeiture is paid, but in no event to exceed thirty (30) days. In determining whether an individual has the ability to pay a forfeiture, all items of income and all assets may be considered regardless of whether or not such income or assets are subject to garnishment, lien or attachment by creditors.

(6) Officially mapped areas. (a) No zoning permit shall be issued under this chapter for any lands lying within any officially mapped area of Dane County unless the proper permit from the appropriate city or village shall have been first obtained.

(b) Every applicant for the issuance of any permit required under this chapter shall state in writing that he or she has made diligent inquiry of the applicability of any official map to the applicant's lands; that no such official map is applicable, or if such map is applicable, the approval of the appropriate city or village has been obtained; that the applicant understands the possible adverse consequences of erecting a

structure within an officially mapped area without the proper approval of the city or village involved; and, that the applicant has not relied upon any statements of county employees in giving such written assurances.

(c) If an applicant seeks a zoning permit for lands located within an official mapped area, a zoning permit may be issued only after a permit from the appropriate city or village has been issued under section 62.23(6)(d) of the Wisconsin Statutes.

(d) Any zoning permit issued under this chapter shall be void if applicable to lands located within an officially mapped area for which the applicant has not obtained the proper permit from the appropriate city or village. In the event of an error in any application or any misstatement in any application, the zoning administrator shall issue stop work orders if the administrator discovers any official map to be applicable to the lands in question.

10.255 ZONING COMMITTEE. (1) Duties. (a)

The zoning committee shall be created and constituted by the county board and have the duties as prescribed by subsection (b) hereof.

(b) It shall be the duty of the zoning committee to supervise the administration of the zoning ordinance, to hold hearings on proposed amendments to this ordinance and to make recommendations thereon to the county board, to approve plats for recording in accordance with the provisions of s. 236.10, Wis. Stats.; and to perform such other duties in connection with zoning as may be delegated to it by the county board.

(c) Effect of denial of a petition to change the zoning district boundaries. No petition for a change in the zoning district boundaries which has been denied by the Dane County Board of Supervisors shall be resubmitted for a period of one year from the date of said denial, except on the grounds of new evidence or proof of change of conditions found to be valid by the zoning committee.

(d) The zoning committee shall use plans and maps developed by individual towns and approved by the county board as criteria for zoning recommendations to the county board, and shall review rezone and conditional use permit applications for consistency with town and county comprehensive plans.

(e) In considering land use issues for areas adjacent to local municipalities, notice shall be sent by certified mail to the affected municipality or municipalities. The notice shall include the location, description of use, requested zoning or permit and the date, time and place of the county public hearing. The notice shall state that it shall be incumbent upon the affected municipality to inform the county zoning agency of any concerns, potential problems or questions relative to the impact of the proposed use on a wellhead protection area.

(2) Conditional uses. (a) Statement of purposes. The development and execution of this ordinance is based upon the division of the county into districts, within which districts the use of land and buildings, and bulk and location of buildings and structures in relation to the land are mutually compatible and substantially uniform. However, there are certain uses which, because of their unique characteristics, cannot be properly classified as unrestricted permitted uses in any particular district or districts, without consideration, in each case, of the impact of those uses upon neighboring land or public facilities, and of the public need for the particular use at a particular location. Such uses, nevertheless, may be necessary or desirable to be allowed in a particular district provided that due consideration is given to location, development and operation of such uses. Such uses are classified as conditional uses and are of such an unusual nature that their operation may give rise to unique problems with respect to their impact upon neighboring property or public facilities. The following provisions are then established to regulate those conditional uses which require special consideration.

(b) Authority. The zoning committee is authorized by Wis. Stat. § 59.69(2)(bm) to grant conditional use permits. Subject to sub. (c), the zoning committee, after a public hearing, shall, within a reasonable time, grant or deny any application for conditional use. Prior to granting or denying a conditional use, the zoning committee shall make findings of fact based on evidence presented and issue a determination whether the prescribed standards are met. No permit shall be granted when the zoning committee or applicable town board determines that the standards are not met, nor shall a permit be denied when the zoning committee and applicable town board determine that the standards are met.

(c) Town/zoning committee action. 1. The town board of the town where a conditional use is proposed shall be given notice and opportunity to approve or disapprove a conditional use. The town board shall communicate its position in writing on the conditional use application within sixty (60) days of the date of the public hearing. The town board may request an extension of the review period of up to forty (40) days by submitting a written request to the zoning committee. The zoning committee shall not take action on the application for conditional use until the time period for action by the town board has expired.

2. Either the town board or the zoning committee may deny an application for conditional use permit. If the town board action is denial no further action by the zoning committee is required. The zoning committee may approve or deny a conditional use permit without town action if the town board fails to act within the time period set forth in sub. 1. above.

3. Town board and zoning committee actions shall be supported by written findings of fact. Failure of a town board or the zoning committee to make written findings of fact shall constitute approval of the application. Except for conditional use permit applications for a small scale electric generating station, using wind or solar energy, under s. 10.123(3)(n), written findings of fact shall, at a minimum, address the standards enumerated in sub. (2)(h) and, where applicable, s. 10.123(3). Written findings of fact for conditional use permit applications for a small scale electric generating station under s. 10.123(3)(n), using wind or solar energy, shall exclusively address the standards enumerated in sub. (2)(o). All findings shall be based solely upon the evidence within the public record.

4. If the town board approves the application subject to conditions and such conditions are amended or deleted by the zoning committee, the conditional use permit as approved by the zoning committee shall be submitted to the town board for approval of the zoning committee's conditions or denial of the permit. The town board shall submit a certified resolution indicating their action to the zoning administrator within forty (40) days of the approval by the zoning committee. If the town board does not act within the forty (40) day time period, the permit shall be deemed approved. If the town board denies the permit with the conditions as

amended by the zoning committee, the permit shall be deemed denied.

(d) *Initiation of conditional use.* Any person, firm, corporation or organization having a freehold interest, a possessory interest entitled to exclusive possession, a contractual interest which may be a freehold interest, or an exclusive possessory interest which is specifically enforceable in the land for which a conditional use is sought, may file an application to use such land for one or more of the conditional uses provided for in this ordinance provided that the conditional use is one which is permitted by the zoning ordinance in the zoning district where the parcel is located.

(e) *Application for conditional use.* An application for a conditional use shall be filed with the zoning administrator on a form prescribed by the zoning administrator. The application shall be accompanied by such plans and other information as required by this section or as may be prescribed by the zoning administrator or the zoning committee, and shall include a statement in writing by the applicant and adequate evidence showing that the proposed conditional use shall conform to the standards set forth in par. h. The Zoning Administrator may require, at his or her discretion, site plans to show additional detail, including, but not limited to contours, drainage, screening, fences, landscaping, lighting, signs, refuse dumpsters, and possible future expansion areas.

2. *Operational plan.* All applications for a conditional use permit must be accompanied by an operational plan that describes, at a detail acceptable to the Zoning Administrator, the following characteristics of the operation:

 - k.** Signage.
- (f) *Hearing on application.*** Upon receipt of the application and statement referred to in par. (e) above, the zoning committee shall hold a public hearing on each application for conditional use at such time and place as shall be established by the zoning committee. The hearing shall be conducted and a record of the proceedings shall be preserved in such manner and according to such procedures as the zoning committee shall, by rule, prescribe from time to time.

(g) Notice of public hearing shall be given by publication of a Class 2 notice as provided for in chapter 985 of the Wisconsin Statutes. Notice to parties of interest shall be according to policies established by the zoning committee.

(h) Standards. No application for a conditional use shall be granted by the town board or zoning committee unless such body shall find that all of the following conditions are present:

- 1. That the establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare;
- 2. That the uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use;
- 3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
- 4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made;
- 5. That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets; and
- 6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

(i) Conditions and guarantees. Prior to the granting of any conditional use, the town board and zoning committee may stipulate such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the conditional use as deemed necessary to promote the public health, safety and general welfare of the community and to secure compliance with the standards and requirements specified in subsection (h) above, or subsection (o) in the case of small scale electric generating stations under 10.123(3)(n), using wind or solar energy. In all cases in which conditional uses are granted, the town board and zoning committee shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with.

1. In addition to such other conditions as the town board and zoning committee may impose upon any conditional use, in the case of dependency living arrangements, each body shall require as a condition of approval that the use shall be discontinued at the time that a dependent person ceases to reside in the secondary living area. In no event shall the space so created be used for general rental purposes. The town board and zoning committee may, if they so desire, require the owner to record deed restrictions implementing these additional restrictions and such deed restrictions may be required to run in favor of the county, the town and adjacent landowners.

(j) Appeal. Any person aggrieved by a decision of the zoning committee or a town board regrading the grant or denial of a conditional use permit may appeal to the Dane County Board of Adjustment within 30 days of the final decision.

(k) Effect of denial of application. No application for a conditional use which has been denied wholly or in part shall be resubmitted for a period of one year from the date of said denial, except on the grounds of new evidence or proof of change of conditions found to be valid by the zoning committee.

(L) In any case where the holder of a conditional use permit issued under this ordinance has not instituted the use or begun construction within one year of the date of approval, the permit shall be null and void.

(m) Revocation of a conditional use permit. If the zoning committee finds that the standards in subsection (2)(h) and the conditions stipulated therein are not being complied with, the zoning committee, after a public hearing as provided in subs. (2)(f) and (g), may revoke the conditional use permit. Appeals from the action of the zoning committee may be as provided in sub. (2)(j).

(n) Abandoned conditional uses. Any use, for which a conditional use permit has been issued, upon its cessation or abandonment for a period of one year, will be deemed to have been terminated and any future use shall be in conformity with these ordinances.

(o) Standards for the review of small scale electric generating stations using wind or solar energy.

1. An application for a conditional use permit for a small scale electric generating station under s. 10.123(3)(n) using wind or solar energy shall

be considered by the town and the committee in conformance with Wis. Stats. s. 66.0401(4).

2. No condition or restriction may be placed upon a wind energy system or solar energy system unless such restriction or condition:

- a.** serves to preserve or protect the public health or safety;
- b.** does not significantly increase the cost of the system or significantly decrease its efficiency; or
- c.** allows for an alternative system of comparable cost and efficiency.

(3) Statement of purposes. Conditional rezonings are authorized as provided herein to enable adaptation of zoning to unique circumstances regarding particular sites, uses or neighborhoods when the county has not had sufficient experience with the type of use in question to lead to treatment of the use as a conditional use.

(a) Conditions on rezonings.

1. The zoning committee may recommend and the county board may adopt an ordinance effecting an amendment of the zoning district map containing the condition that the change in the map will take effect on such date occurring within a specified number of months of the date of county board approval of the amendment when the first on-site inspection for building location is made and approved for the project sought to be established, and in the event such approved inspection has not occurred by the end of the specified time period, the possibility of making effective the rezoning will then be terminated.

2. The zoning committee may recommend and the county board may adopt an ordinance effecting an amendment of the zoning district map containing the condition that the change in the map will take effect on such date occurring within a specified number of months of the date of county board approval of the amendment when a restrictive covenant has been recorded binding the property to conditions specified in the amending ordinance, and in the event such covenant is not recorded by the end of the specified time period, the possibility of making effective the rezoning will then be terminated.

(b) Conditions specified to be in such required covenants shall be related to the purposes of the ordinance. They may include, as specific cases warrant, limits of permissible uses to less than the full range of uses otherwise allowable in the district into which the land is being placed. Enforcement rights over such covenant controls shall be afforded to the county, the town and

owners of property within 300 feet of the site. The covenant controls shall be amendable or repealable upon petition of the owner of the lands subject to the controls and approval by the county board after a hearing similar to a rezoning hearing. A rezoning of the lands to a different zoning district shall also act to repeal the covenant controls. Except as provided above, the covenants shall run with the land.

(c) Other similar controls appropriate to handling by covenant provisions may also be imposed.

10.26 BOARD OF ADJUSTMENT.

(1) Personnel, term and compensation. The board of adjustment shall consist of five (5) members, appointed by the county executive with the approval of the county board, each serving for a term of three (3) years, the terms beginning July 1st and being staggered so that the terms of not more than two members shall expire in any year. Members shall reside in the unincorporated areas of the county and no two members shall be from the same town. Compensation of members shall be the same as allowed county board members for attendance at committee meetings.

(2) Rules, meetings and minutes. The county board shall adopt rules for the conduct of the business of said board of adjustment, in accordance with the provisions of any ordinance or ordinances adopted pursuant to sections 59.69, 59.692 or 87.30, Wis. Stats. The board of adjustment may adopt further rules as necessary to carry into effect the regulations of the county board. Meetings of the board shall be held at the call of the chairperson and at such other times as the board may determine. Such chairperson, or in his or her absence the acting chairperson, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact and shall keep records of its examinations and

other official actions, all of which shall be immediately filed in the office of the board and shall be public record.

(3) Appeals to the board. Appeals to the board of adjustment may be taken by any person aggrieved or by any officer, department, board or bureau of the municipality affected by any decision of the zoning administrator or other administrative officer; an appeal may also be taken by the committee. Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. The committee may appeal only those matters properly before it prior to the committee vote and within thirty (30) days of the public hearing on the matter and only by a 2/3 vote of the committee's members. The committee's appeal shall be exempt from fee.

(4) Stays. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken shall certify to the board of adjustment after the notice of appeal shall have been filed with him or her that by reason of facts stated in the certificate a stay would cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the board of adjustment or by a court of record on application on notice to the officer from whom the appeal is taken and on due cause shown.

(5) Hearing appeals. The board of adjustment shall fix a reasonable time for the hearing of the appeal and publish a class 2 notice thereof under ch. 985, Wis. Stats., as well as give due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appeal in person or by agent or attorney.

(6) Powers of the board of adjustment. The board of adjustment shall have the following powers:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by an administrative official in the enforcement of sections 59.69, 59.692 or 87.30, Wis. Stats., or of any ordinance adopted pursuant thereto.

(b) To hear and decide special exceptions to the terms of the ordinance upon which such board is required to pass under such ordinance.

(c) To authorize upon appeal in specific cases such variance from the terms of the ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice done.

(7) Order on appeal. In exercising the above-mentioned powers such board may, in conformity with the provisions of this section, reverse or affirm, wholly or partly, or modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.

(8) Majority rule. The concurring vote of a majority of the board shall be necessary to reverse any order, requirement, decision or determination of such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under any such ordinance, or to effect any variation in such ordinance.

(9) Expiration of authorization. When any construction shall have been authorized by the board of adjustment pursuant to the provisions of this section, a permit for such construction shall be taken out within one year from the date of such authorization, otherwise such authorization shall become null and void; provided that the board of adjustment, upon request, may extend such authorization for a specific period without the necessity of another public hearing.

(10) Effect of the denial of an appeal by the board of adjustment. An appeal that has been denied by the board of adjustment shall not be resubmitted for a period of one year from the date of denial, except on the grounds of new evidence or proof of change of conditions found to be valid by the board.

thereof, other than the part so declared to be invalid.

10.28 REPEAL OF CONFLICTING PROVISIONS. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.
