Department of Public Works, Highway and Transportation

RE: Approval to Recruit a Highway Worker Position for the Highway Department

County Ordinance 29.52(15) requires the Personnel and Finance Committee, along with the County Executive, to approve filling positions that are vacant longer than six months. I wish to request Personnel and Finance approval for filling a vacant Highway Worker position (position number 850).

What is the nature of the work or what is the essential function of the position?

Highway Workers are the main portion of the Highway work force, taking part in construction projects and performing highway maintenance and snow plowing. Winter is approaching and there are currently not enough employees for winter section coverage.

How has this function been fulfilled during the vacancy?

For plowing, mechanics are being utilized to cover sections and we have also used Parks and Public Works employees. However, there are times when we still do not have enough employees. Already short on employees, current employees are being moved around for the highest priority projects causing routine maintenance road work unable to be performed.

What will the impact be on the department's function and mission if the position remains vacant?

If there are not enough employees for winter, decisions would need to be made as to what sections were plowed first. Also, non-winter projects may be delayed due to not having a sufficient number of employees and routine maintenance is delayed causing deterioration of the roads.
