Hans and Roger,

Please be advised that the Plan Committee met regarding the variance request for Reggie Lund at 2777 Marshall Parkway. The Plan Committee's only comment is that the garage addition and driveway are not to cross the neighboring property lines.

Please contact me if you need further information.

Thank you,
Renee Schwass

Hi Renee,

I submitted our variance application yesterday to Dane County. Hans mentioned that he would still need a letter from the Town of Madison. Can you send a email with a letter acknowledging that the Town of Madison is aware of our request for the variance.

Hilbert.hans@countyofdane.com

Thanks,

Reggie

Hi Renee,

Thank-you for the update. When we update the driveway we will make sure to stay on our property line.

Thanks,

Reggie

Reggie,

The Plan Committee met this morning regarding your variance. I will contact Dane County Zoning. The only concern the Plan Committee has is that they want to see the driveway/project contained to your property, and not cross over to the neighbor's property.

Please let me know if you have any questions.

Thank you,

Renee

Hi Renee,

Thanks again for the information today. I have attached the building plans showing the garage addition we are requesting a variance for from Dane County. I have also included the survey site map of the property. The house is currently a one-story which we will also be updating with second story. If you have any questions or need more information please let me know.

Also would you please send me the date of the Plan Commission meeting so I can let Dane County know when we apply on Tuesday.

Thanks,

Reggie
