ATIP	10250	Salary Savings	(\$1,800)
<b>Intent/Justification</b>			
<p>Dane County implemented the Pretrial Safety Assessment (PSA) in 2017. The PSA is a pretrial assessment which provides race-neutral information for court commissioners to consider when deciding bail and other conditions at initial appearance. These two positions complete the PSA to assist court personnel to determine whether a defendant will be detained or released before trial. Originally funded via a grant from the Laura and John Arnold Foundation which covered personnel costs for 2017 and part of 2018, county funding is needed to continue project positions 3058 and 3100 throughout 2019. Their work is another critical component to the county's efforts to be able to increase transparency and potentially reduce the number of jail beds.</p> <p>Additionally, Dane County has committed to complete the initial data collection phase of the PSA random control trial study with Harvard University's Access to Justice Lab through 2019.</p>

<b>Motion:</b> (revenue/expenditure/text effect)	Increase expenditures and position authority for 1.0 FTE Social Worker for the Bail Monitoring Program and to assist in background checks and pretrial service assessments (required for all initial appearances).		
<b>Program Effect:</b>			
<b>FTE Effect:</b>	<b>1.00</b>		
<b>Line Item Detail (not required for introduction, attach additional listing if necessary)</b>

ATIP	10171	Disability Ins	\$100
ATIP	10189	Workers Comp	\$100
ATIP	10250	Salary Savings	(\$1,000)
<b>Intent/Justification</b>			
<p>There are currently 4.0 FTE Social Worker positions in the Bail Monitoring Program that serve clients referred for pretrial supervision by judges and judicial court commissioners. The caseload maximum established for these workers is 45 per FTE. When caseloads exceed this maximum, the Clerk of Court will ask the judiciary and commissioners to freeze new program referrals until case loads are at or under the maximum. Three times in 2018, the Clerk of Courts has asked for such freezes, with each freeze lasting approximately two to three weeks. Program participation benefits the County by ensuring that supervised pretrial release is an available option for defendants, as opposed to pretrial incarceration, or pretrial release without supervision where the defendant's risk of failing to appear for court dates or risk of committing new offenses during the pretrial period is high enough to warrant supervision. By bolstering case worker staffing, program capacity will be brought to a level where requests to freeze referrals should no longer have to occur. The position will also assist with the generation of risk assessments as a back-up to the two Pretrial Risk Assessors.</p>

<b>Department:</b>	Family Court Services		
<b>Program:</b>	Family Court Services		
<b>Motion:</b> (revenue/expenditure/text effect)	Increase expenditures by \$18,396 in the Family Court Services office for additional Limited Term Employee costs. This is a one-time increase for the 2019 Budget. The PP&J Committee recommends that if the Personnel and Finance Committee determines that this amount is too high, a lower amount would still ensure that the project moves forward.

FAMCC	10072	LIMITED TERM EMPLOYEES	\$17,000
FAMCC	10108	SOCIAL SECURITY	\$1,396
<b>Intent/Justification</b>			
<p>The purpose of this additional funding is to support the Family Court Services paperless initiative to scan old files and store them in electronic format. Family Court Services operation is very record intensive and the storage of paper records is encroaching upon the work space of that office as well as other departments. The scanning and electronic storage of these records is a greener, more efficient and ultimately less costly solution than continuing to make paper copies, fill departmental work space and likely procure offsite storage at paid facilities.</p>

JCSLHM	80630	Charges for Services	(\$18,000)
<b>Intent/Justification</b>			
<p>Dane County does not charge adult inmates to stay in Dane County Jail, but we do charge youth's families when youth are incarcerated in Dane County Juvenile Detention. In 2017, 417 youth were incarcerated in Dane in Dane County Detention. 73% were youth of color. No youth is sentenced to Detention; youth are there either because they are awaiting a hearing or because they have been sanctioned for noncriminal violations.</p> <p>Assessing these fees increases the financial insecurity of vulnerable families. This proposal stops Dane County from charging any families for incarcerating their children in Dane County Detention.</p>

<b>Intent/Justification</b>			
<p>92 percent of Americans age 18 to 49 have smartphones which is their primary means of communication; 90 percent of digital content time on a smart phone is via an application. A mobile alert application navigates critical information and will connect the Sheriff's Office and Dane County citizens to important safety information, news, and alerts, allowing for timely access to information to help keep law enforcement officers and citizens safe. Some resources in the application include active shooter notification, crime information, most wanted, warrants, submit a tip, sex offenders, inmate information, and social media integration. An alert application directly engages citizens with the law enforcement community by providing a convenient option to report crime, quality of life issues, and suspicious activity and will improve efficiency of Sheriff's Office operations.</p>

It is imperative that Dane County reduce the jail population by 10 percent as soon as possible. <p>With the front end justice approach of a pre-filing programs, completion leads a case never to be brought to court. Diversion programs seek to save scarce system resources and allow defendants to avoid the well-known collateral consequences of a conviction or incarceration, including the potential loss of housing or employment, risk of deportation for non-citizens, or myriad other deleterious effects on long-term income prospects, employment, or psychological wellbeing.
