Intent/Justification

While this will mark the end of the multi-year planning effort, it also is the beginning of the work needed to put the plan into practice. The ambitious plan cannot be completed all at once, by Dane County alone, or by government alone. This is a complex process with many stakeholders and factors to be considered.</p> <p>This amendment provides funding for a consultant to support the next steps in the redevelopment process including support for project management, governance and finance strategy execution, development of a private development approach and RFP, consultant selection process for Expo pre-design study, project communications, public engagement, coordination with surrounding property owners, and coordination with the city annexation area planning process.</p>

CPADMIN	58720	Affordable Housing Development Fund	\$3,000,000
CPADMIN	84974	Borrowing Proceeds	\$3,000,000
Intent/Justification			
<p>According to Dr. Kurt Paulsen's 2015 Report, "Housing Needs Assessment: Dane County and Municipalities" over 22,000 very low income households pay more than 30% on rent. Over 12,000 very low income households pay more than 50% of their income in rent in Dane County, of those 2,200 are seniors. There is a gap of 11,414 units of affordable housing for households at 30% of area median income (AMI) or less and a gap of 5,800 units for households at 50% AMI or less. In 2018, Dane County doubled the number of units it had previously created in prior funding years. In 2018, Dane County received \$6.3M in requests for funding from the Affordable Housing Development Fund, but only \$3M was authorized in the 2018 Capital Budget. With double the funding authorization, Dane County can make more progress in closing the significant housing gap that persists.</p>

Intent/Justification			
<p>Land and Water Resources administers several programs that could benefit from a passenger van. Transportation to county parks is a barrier in the youth volunteer program established in 2018. Other programs and events related to volunteerism and community engagement will use the van, such as watershed tours, committee tours, and transportation of both youth and adult volunteers. The van will also help provide access to park properties that are not served by public transportation. Similar to other shared resources, such as the rainfall simulator, the van will also be available for use by UW-Extension.</p>

<p>The funding provided in this amendment will pay for a portion of installation costs at Dane County's Silverwood Park, for two demonstration projects related to sustainable agricultural practice: A 6-7 acre riparian buffer demonstration area immediately above wetlands at the north end of the park to aid infiltration and prevent run-off and soil erosion, and a 25-acre alley cropping demonstration area at the entrance of the park to show successful "polycultural" farm techniques. These areas will provide hands-on education areas for the public, and specifically for farmers who wish to prepare for climate change and change in small-scale farm markets. The investment will also further Dane County's goal of carbon sequestration and reducing energy use in the face of climate change. The projects will be carried out and maintained jointly by the Savannah Institute and the Friends of Silverwood Park.</p>
