Zoning Change Application

Items that must be submitted with your application:

- o **Written Legal Description of the proposed Zoning Boundaries**
Legal description of the land that is proposed to be changed. The description may be a lot in a plat, Certified Survey Map, or an exact metes and bounds description. A separate legal description is required for each zoning district proposed. The description shall include the area in acres or square feet.
- o **Scaled Drawing of the location of the proposed Zoning Boundaries**
The drawing shall include the existing and proposed zoning boundaries of the property. All existing buildings shall be shown on the drawing. The drawing shall include the area in acres or square feet.

Six Standards of a Conditional Use Permit

Provide an explanation on how the proposed land use will meet all six standards.

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.
2. The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.
3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.
5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.
6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

Application for Conditional Use Permit

North Paw, LLC would like to file an application for a Conditional Use Permit for the property located at 202 Regas Road, Madison WI 53714.

Business Operations:

North Paw, LLC would be a Dog Daycare and Boarding Center, operating during the hours of 6:30am-6:30pm, Monday-Friday and 9:00am-4pm, Saturday-Sunday. During the first year of operation, it is expected that North Paw will employ 4-5 people. Our anticipated number of daily customers aims to be between 15-30. Peak business times will be Monday-Friday, 6:30am-8:30 am, 11:30am-1:30pm and 4:30pm-6:30pm. These are the proposed scheduled drop off and pick up times for our customers.

Outside Activities:

We don't plan on adding or utilizing any outdoor storage buildings at this time. We anticipate to have adequate storage within the building. The only outdoor modifications we plan to make would be adding a 6-foot fence around the perimeter of the rear parking lot, turning this area into an outdoor play area for the dogs. Although this space would only be utilized during the day, we would like to add some motion lights around the fence for security during the evening hours.

Proposed Signs:

The only signage currently displayed on this property is on the front and side of the building. We plan to follow suit, changing the signs to our business name but not adding any additional outdoor signage.

Trash Removal:

We have already spoken with Pellitteri Waste Systems regarding waste removal for the property. We decided that a once weekly waste removal and bimonthly recycling removal would more than likely suit our needs. We plan to have 2- 2 yd dumpsters to serve this purpose.

Six Standards of CUP:

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

By having hours of operation that coincide with normal business hours, and having no immediate residential neighbors to have concern with, our dog daycare should be of little bother to the surrounding public. There will be no excessive noise after hours, as daycare dogs will have already gone home for the day and boarding dogs will be resting. We plan to keep the outside areas as clean as possible, picking up and disposing of dog waste frequently throughout the day. All dogs will be securely contained within our planned fenced-in area, within the building itself, or leashed if outside on a walk.

2. The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.

There will be no negative impact to the uses and enjoyment of other properties in the neighborhood, as the bordering facilities are all commercial properties. There are no residential neighbors in the direct vicinity of the property. The building on the right side of the property is only being used for storage, and the business to the left is only visited periodically by employees.

3. That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

I have already spoken with the Town of Blooming Grove, and they have given approval of our idea to open a dog daycare. As far as they are concerned, it fits in with the masterplan of the town, and is well-suited for our proposed location.

4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.

Due to the fact that this property has housed previous businesses for many years, there is already adequate utilities, access roads and drainage present. There are no foreseeable site improvements that will need to be made.

5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

As stated above, the history of this property has already provided us with proper ingress and egress. We don't anticipate having a substantial increase in traffic over what the previous tenants of this building have had.

6. That the conditional use shall conform to all applicable regulations of the district in which it is located.

At one point in time, this parcel was originally zoned as a commercial district. It was rezoned to M-1 in recent years. The current rezone will bring the property back to its original designation, and the CUP being applied for fits under allowed C-2 conditional uses.
