October 2, 2015

Dear Jon-

Yahara Materials, Inc. has been made aware of the new ordinance adopted in March 2015 that you are aware of mineral extraction sites and the standard established by it is two-thirds below the State of Wisconsin's standard.

I regret to inform you that Yahara Materials, Inc. will not be able to fulfill the terms of the crushing contract for the Paris Quarry if the event time of enforcement of their blasting orders.

If you have any questions about this matter, please contact us at 608.849.4162.

Sincerely,

Tom Poed
Yahara Materials

Deerfield's intention to enforce their blasting ordinance. The State of Wisconsin regulates blasting for the town of Deerfield in March 2015 for blasting

Deerfield does not

at 608.849.4162.

RE: Town of Deerfield Ordinance 2015-02

Mr. Jon Halverson,

Thank you very much for giving Quicks Supply Company an opportunity to quote your quarry operation in Deerfield, WI. After careful consideration of your imposed zoning ordinance, I regret to inform you that Quicks Supply Company respectfully withdraws from your RFP (request for quote).

Sincerely,

David Montgomery

I want to thank you for the opportunity to look at and discuss your drilling and blasting needs at your Oak Park location in Deerfield. I read through the TOWN OF DEERFIELD CODE OF ORDINANCES REGULATING BLASTING that was given to me and regretfully have to decline bidding the work as this is, in my opinion, the ordinances very restrictive and unreasonable to ever consistently meet the expectations set forth in the ordinance. However, I did forward this opportunity and have Montgomery and Quick Supply Inc. to hopefully bid the work for you.

Thank You

Re: Quarry on Oak Park Road

Mr. Chairman and Town Board Supervisors:

I represent residents of the Town of Deerfield, Brian and Martha Berninger and Ken and Mallory Frjelic. Current Board members have in recent months received correspondence from an attorney for the quarry on Oak Park Road in Deerfield Township regarding conflicts of interest and possible legal action. This is curious because, as I explain below, these same Board members have profited financially from the existence and operation of this quarry operation.

Your recently-elected Chairman, a long-time Board member, runs a trucking business and is transporting gravel for the quarry. He claims to recuse himself from quarry matters but he does not do so to the extent required by law. Recusing oneself from a topic before a governmental body means not saying anything at Board meetings on the topic in question. Recusing oneself also means physically not being present at the table with other Board members when the topic is discussed. I am surprised that your Town attorney has not advised you of this.

X Another Board member received \$25,000 after his father, a former Town official, sold his home and land for \$1.1 million late in 2010 to the new quarry operation. The father continued living in that home until very recently. In his 90s, he is close to passing on the \$1.1 million to surviving family, including his son on the Town Board. This current Board member also agreed to a gag order in a legal arrangement last year to sell his own home and land to the quarry with a document stipulating he could not say anything about the quarry in his private life nor in his capacity as a sitting Board member.

Page 2 of 2

Another one of your current Board members has an inactive quarry on land he owns in your township. He has also previously sold a quarry which is currently being operated by the purchaser. His opposition to strong and effective regulation of quarries in your township could be linked to his own prospective future profits from operating or selling the quarry he still owns.

The current Deerfield Town Board is comprised of four members, with one seat remaining open even though two candidates tied on election night this past April. While your remaining Board member may not have direct financial ties to quarrying in your township, my clients believe that there have been times recently when official actions taken by this Board member could be called into question.

Sincerely yours,
THE JEFF SCOTT OLSON LAW FIRM, S. C.

Dan,

I have read an email regarding Jon's Driveway not being an access point for the quarry as it is not part of the current CUP. I am curious do all quarries' driveways in Dane County currently have the entire driveway part of their CUP? I can think of some fairly long driveways for some of these quarries and I am just making sure that this is the case for all quarries.

Subject: Questions related to activities covered under Non-metallic Mining Operations

From: McCutcheon, Kim M - DNR (Kim.McCutcheon@wisconsin.gov)

To: jhalver@frontier.com;

Date: Friday, November 6, 2015 4:40 PM

1.1. Activities Covered

This permit applies to discharges of wastewater and storm water from nonmetallic mining operations to surface waters or groundwater of Wisconsin directly or indirectly via a storm sewer or other conveyance. Concrete operations contiguous to or located within the mining site can also be covered under this permit when the nonmetallic mine operator has legal responsibility for the concrete plant's wastewater and storm water discharges. Concrete product process wastewater, such as contact cooling water, condensate, material washwater, and equipment washwater, may be discharged along with nonmetallic mining wastewater under this permit. Nonmetallic mining operations include sites and equipment engaged in excavation or processing of sand, gravel, dimension stone, crushed stone, rotten granite, clay, or other similar activities, that result in a discharge of one or more of the following:

- contaminated storm water as defined in s. NR 216.002(3), Wis. Adm. Code,
- washwater associated with cleaning or separating earthen materials,
- mining site dewatering wastewater,
- contact and noncontact cooling water, condensate or boiler water discharged in combination with other wastewater allowed under this permit,
- dust suppression water,
- water from the outside washing of vehicles, equipment, and other objects, or
- other similar wastewaters.

Good Afternoon Jon – Thank you for your earlier call. I hope to clarify for you what your current permit covers. Attached is a section of the general permit WI-0046515-05 that details activities covered by the general permit. Your status under permit coverage is **current** (see coverage letter dated March 25, 2013). You recently submitted (September 30, 2015) an updated Notice of Intent (NOI) clarifying that no mine site dewatering is taking place at this facility. We also acknowledge receipt of the Storm Water Pollution Prevention Plan Summary as required as a condition of your permit coverage.

You specifically asked if any further wastewater permits were required. Based on the information provided, the waste water discharges associated with mining activities are covered under the general permit you currently hold.

Please feel free to contact me with any further questions that you may have.

Kind Regards,

We are committed to service excellence.

INFORMATION TO AUGMENT "THE REPORT ON THE OAK PARK QUARRY" DONE BY DANE COUNTY STAFF FOR THE 11/10/15 ZLR COMMITTEE MEETING

Regarding the "Driveway permit" on pg. 1, the Zoning Department was contacted by concerned Deerfield area residents. They were told the quarry operator had the right to make a new driveway and use it to haul aggregate even though it was outside the CUP because it is his land and he can decide what to do with it. In two taped Town Board meetings when the proposed driveway was discussed, gathered residents strongly opposed it largely because it was too close to the busy Highway 12/18- Oak Park Rd. intersection.

Regarding "Blasting" on pg. 3, Town resident Brian Berninger was in contact with Safety and Professional Services administrator Greg DiMiceli over a several week period starting in mid-August 2015. Mr. DiMiceli said he would obtain the blasting reports for the quarry and review them. But several weeks passed without this being the case. DiMiceli and Berninger talked by phone 8/17, 8/21 (30 min.), 8/31 (30 min.), 9/16 and 10/5. As of 10/5 Mr. DiMiceli still did not have the blasting reports, stating again "they are not in the file" even though he had said since 8/17 that he would get them in a week, look at them and give Berninger a call. Berninger had contacted DiMiceli to express concern over some ongoing violations of state law by the quarry and the blasting company. The concerns he expressed, documented by the seismograph reports and blasting logs, were that reports were missing significant information, seismographs were not always being placed at the closest property to a blast, a seismograph was not being placed at "affected" properties, and a completed pre-blast survey was never given to a property owner. As of 11/6/15 the reports are still missing information required by state law (as outlined in documents given to ZLR Committee members entitled "Violations of the CUP and Law by the Operator At the quarry on Oak Park Rd., Deerfield, WI From August 2014 to late October 2105", and in the document entitled "Deerfield Township Non-metallic Mining Ordinance violations as of 11/6/15"). Additionally, one "affected property" is still not being monitored by a seismograph and a copy of a completed pre-blast survey still has not been provided to the property owner--violations of state law.

Also regarding "Blasting" on pg. 3, the quarry site was not "closed down" for 6 days. Regular mining related activity could still be heard in the quarry during the time Mr. DiMiceli said he had closed down the quarry. In a phone conversation with Berninger 9/16/15, DiMiceli said he had not closed down the site, but that he had closed down the road for blasting from now on as part of "nine safety measures" he had instituted following the 9/8/15 flyrock incident.

Also regarding "Blasting" on pg. 3, a leak was found in the gas pipeline two or three days following a strong blast felt throughout the area in early September 2014. Residents have been told there is no proof the blasting caused it. The distance between the pipeline and a blast as required by the utility company had been explained to residents previously as being a minimum of 200 feet, not 50 feet. Further, blasts 300 feet away can potentially cause damage to the pipeline if they are strong enough. State law requires that the blasting company meet with the utility to determine the "maximum

allowable limit for ground vibration". No document has ever been produced showing that a limit has been set. It is important to have this in writing and available to the public.

Regarding "causing harm to structures", there are more than just "concerns" from the neighborhood regarding damage, there is significant evidence, from among six properties over five years of increasing amounts of blasting, showing that damage has most definitely occurred to private property from the blasting. Residents are also increasingly concerned about their wells and the aquifer(s) serving out area because the quarry blasts very close to the water table, and because through his attorney, the operator recently expressed that they find it burdensome to stay above the water table with the blasting because it is hard for them to know where the water table is since it varies from spot to spot within the quarry.

Finally, regarding the "County" section of the document, the statement "for the most part, the (CUP) conditions are being followed", is not accurate. This is shown by the numerous violations cited in the documents given to ZLR Committee members for their 11/10/15 meeting. A listing of the numbered tenets of the CUP that have been violated or are currently being violated includes: #3, #5, #6, #8, #9, #11, #12, and possibly #13, as well as not continuing to satisfy the "findings of fact" for the ZLR Committee approval of the CUP proposal: #1, #2 and #3.
