

Dane County Broadband Task Force

Background

The Dane County Board of Supervisors approved 2020 RES-415 in mid-2020 that created the Dane County Broadband Task Force.

The 15-member task force was appointed shortly after with representatives from:

- The Dane County Board
- Healthcare provider
- A school district in Dane County
- An economic and/or agricultural perspective
- A Town Board
- Senior focal point
- Internet/broadband service provider
- Youth community-based organization
- Members at large
- Dane County Executive or designee
- President of the Dane County Towns Association or designee
- President of the Dane County Cities and Villages Association or their designee

Membership

- Andrew Hoyos
- Bill Dickmeyer
- Bob Wipperfurth
- Cathy Sutter
- Dave Ripp
- Deana Zentner
- James Danky
- Joyce Tikalsky
- Kate McGinnity
- Melissa Ratcliff
- Michelle Jensen
- Peter Weil
- Renee Lauber
- Sarah Ghee
- Todd Violante

Goals

- Create a greater community understanding of Dane County's challenges related to high-speed, reliable and affordable internet access for the County as a whole
- Prepare local partners in Dane County to have the background and knowledge to apply for various grants and funding to expand access to unserved and underserved areas of the county
- Increase awareness of the issues those without reliable internet access face

Purpose

- Understanding the complexities of broadband access as it relates to improving access to those unserved and underserved in Dane County;
- Collecting data points on underserved and vulnerable populations to determine if there is a greater percentage impacted by lack of access to reliable and affordable broadband than indicated by the maps
- Understanding the various funding mechanisms used for improving broadband access, to include state and federal grants, with the intention of identifying strategies, partners, and potential funding sources that will support the expansion of broadband services;

Purpose

- Partnering with various stakeholders to identify where access to broadband is and is not available;
- Exploring alternative solutions to inadequate broadband service including but not limited to hot spots, satellite technology, and wireless service;
- Making recommendations to the County Board on the role of Dane County in facilitating the expansion of broadband services to residents; and
- Holding two public hearings to hear from local officials and residents about challenges related to broadband.

Timeline

July 2020 – First Meeting

November 2020 – Budget amendment approved to pilot conduit placement in county highway projects

March 2022 – Survey roll-out

May 2022 – Receive survey results

June 2022 – Provide recommendations to County Board

Presentations the Task Force has Received

- County Authority and Funding Possibilities
- Map Coverage and Surveys
- Grant Funding Opportunities and Requirements
- Presentations on Grant Requirements
- Town of Vermont community champion
- Presentation on MadRep speed test/mapping effort and technology options
- Middle Mile Overview

Outreach

Survey – Will be mailed to a sample initially, with a subsequent online collector for additional participation
