Hello,

Attached is the letter from elected officials, AFT Local President, and Community Leaders requesting this afternoon's committee vote on the landfill land sale be delayed so local community issues can be addressed.

Thank you for your attention to this matter,

Mike Pfohl
Neighbors for a Better Landfill

Hello,

I represent the community group Neighbors for a Better Landfill.

We will be submitting a formal letter from McFarland Village Trustees, School Board Members, nearby municipalities, neighbors, the teacher union, and others impacted by the proposed landfill we are requesting the committee votes planned for this week regarding the proposed new landfill be POSTPONED.

Much of the communication legwork and research has yet to be done. For example, despite the impact to the McFarland school just 2,200 feet away, the McFarland school district has yet to be consulted on this topic.

From the McFarland School District:

The McFarland School District Board Members will be learning about this proposed Landfill expansion at a Joint Village School Board Meeting that will be held on May 10, 2022. The School District Board members will be learning about the project. The project is within 2,200 ft of district owned land that is on Siggelkow Road, which is planned for a future school building. It would be helpful if Dane County and City of Madison leaders would involve the McFarland School District in discussions prior to taking action on key parts of this plan, such as land purchases, planned use and other impacts that may impact the McFarland School District, which includes all territory of the Current and Proposed Dane County Landfills.

Jeff Mahoney
Director of Business
McFarland School District

We are requesting that Monday's vote and other planned action on the golf course / landfill land sale be postponed.

Thank you
Mike Pfohl
