I am in opposition of this new quarry for a number of important reasons. Safety, quality of life, and significantly diminished property values - in a nutshell. I sent a very detailed letter of opposition in a previous email to Rutland Township and Dane County Zoning. This quarry does not meet the 8 Standards and would have a significant negative impact on MANY people in the township.

Thank you,
Jason Berning

I just wanted to express my support in the approval of the pit expansion. I see this as a positive moment for the community. I know that resources for maintaining our ever crumbling infrastructure is important. Not everywhere is suitable to support gravel pits, so I believe this would be a move in the right direction. Other benefits come along with this as well. Many jobs are indirectly supported by a pits operation from repair shops to transportation, plus many more. Thank you for considering the expansion.

I would love to speak about the ease of working with Kevin Hahn and the support he gave to our project in Stoughton - Great having a quarry nearby with someone vested in the community

This conditional use permit does not meet all eight standards.
Standard 1 - safety is a main concern - this expanded operation will cause safety hazard. Truck traffic increase; pedestrian safety
Standard 2 - I accept existing operation because operation is limited to size. By expanding it prolongs the enjoyment period I was expecting when I retired.
Standard 3 - Quarry operation expansion does not fit into the rural/agricultural uses in place
Standard 7 - This CUP does not meet the Town of Rutland's adopted Comprehensive Plan
This CMP does not meet Goal 2 regarding Transportation or Goal 3 regarding Pedestrian and Bicycle Travel

As a resident, when I purchased my property I knew there was a quarry. But, based on the size of the quarry I still purchased knowing it had only a limited life.

Paul Proctor
