Subject: Tues. PP&J + Next Steps

Good morning PP&J -

Stephanie shared our next agenda for PP&J on 8/23. Please note that Vice Chair Gray will be running the meeting as I'm OOO next week. Sups. Rose and Kigeya will also be absent so **if your availability changes please alert both Sup. Gray and Stephanie ASAP** as the meeting will need to be cancelled due to lack of quorum.

Following our deliberations on the jail project Thursday, I am committed to working through the provisions thoughtfully raised in Res-136 that will impact our justice system disparities, and the other recommendations from [Res-556](#), [145](#), [180](#), and [320](#). Each of these have been debated in depth over the last several years, and deserve our attention. I will compile all provisions raised in a reference document and identify whether they are policy-only or suggest funding opportunities for our next budget, and use time at PP&J to discuss each item and prioritize our work moving forward. The primary challenge I see before us is transitioning from discussion to action, which is what our community deserves. From my perspective, the only way to do that is to focus our efforts on items one by one and identify how we can work in partnership to leverage our power of the pursue, coordination, and communication to influence the desired outcomes in our shared vision.

I look forward to collaboration and input on this strategy.

Please do not reply all with a response due to walking quorum concerns; I'm happy to connect via email or meet to discuss when I get back in a week. Thank you,

Richelle Andrae
