

Dane County Parks Friends Grant Program
2024 Capital Improvement Grant Application Summary
2/23/24 update

Applicant	Project Name	Project Details	Meets Requirements	Grant Amount Requested	Total Project Budget
Capital Off Road Pathfinder	Storage Shed at Seminole Mountain Bike Trail	Build a storage shed (which will sit on skids) at the Seminole Mountain Bike Trail. The mountain bike trails are maintained entirely by CORP volunteers. The trails are only accessible via the bike path; there is no access via any road. While this is great for riders, it makes trail maintenance more difficult. Any tools not stored on the property need to be carried in. A shed located on the property would allow more space for tools and easier access for CORP volunteers.	Yes	\$ 6,526.50	\$ 8,702.00
Friends of McCarthy Park	Ho-Chunk Educational Signage Project at McCarthy Youth and Conservation County Park	A series of 5 interpretive signage panels containing watercolor and photo imagery will be professionally developed, produced, and installed at McCarthy Youth and Conservation County Park that tie contemporary and historical Ho-Chunk perspectives and worldviews to Teejop and the landscape within McCarthy Park. A collection of short story narratives will tie traditional Ho-Chunk learning and creation stories to present-day Teejop; these short story narratives will be translated and recorded into Ho-Chunk, English, Spanish and Hmong and linked to the trailside signage panels through QR coding.	Yes	\$ 7,372.80	\$ 9,830.40

Total Requests \$ 13,899.30
Funding Available \$ 91,190.40
Remaining Funds \$ 77,291.10
