Intent/Justification

Earlier this year an RFP was issued for recreational basketball that was previously operated by the Department of Human Services. MSCR was awarded that RFP. However, during contract negotiations MSCR decided that the amount of funding was not worthwhile and withdrew. Boys and Girls Club was ranked second in the RFP process and has agreed to contract to supply these services. This budget amendment enacts that change in vendor to correctly reflect it in the 2016 budget.

SWRODFLD	20850	DEPRECIATION - COUNTY ASSETS - Reduce Expense	\$57,000

Per Ordinance, revenue from the sale of property may not be included in the budget unless there is an accepted offer

Tipping fee revenue increase is a result of revised projections for incoming waste tonnages in 2016. This is due to actual waste tonanges at the Dane County landfill in recent months, as well as Statewide tonnages and industry projections.

Depreciation decrease is due to reduced overall capital costs for Phase 10 - Cell 1 construction. This project is nearly complete, and the remaining contingency will not need to be expended Therefore, the overall project cost and its associated depreciation in 2016 is lower than previously budgeted.

Intent/Justification

The Sustainability Coordinator/Audit Analyst and the Equity and Criminal Justice Coordinator positions were reclassified from M11 to M12 in October 2015. The increased salary and benefits were not included in the base budget. This amendment allocates sufficient funding to cover the cost of the reclassifications, and decreases the same amount from audit services to cover the cost.

During the summer of 2015, the County Board led a community based effort to identify approaches to reform the Dane County criminal justice system. Three workgroups each made recommendations for change, and all agreed on one recommendation: address the severe gap in data collection and analysis at each stage of the criminal justice system as soon as possible. Likewise, the countywide equity analysis completed in September 2015 recommended the county hire a data analyst that will provide data expertise across all racial equity areas, with an initial focus on 1) collecting, analyzing and tracking community indicators and performance measures; 2) workforce equity to improve analysis of internal workforce data; and 3) criminal justice data sets to allow analysis and potential integration for systemic improvements. This amendment addresses the recommendations of these two initiatives.

Intent/Justification

The amendment elevates the proposed Office for Equity and Inclusion ifrom being part of the County Executive's Office to the status of a county department. As with other department heads, the director of the Office of Equity and Inclusion would report directly to the County Executive. This reporting relationship was a key recommendation to the September 2015 Dane County Equity Assessment: "1. Create a new Office for Racial Equity and Social Justice.1 Hire a director that is responsible for leading implementation of these recommendations across the county and managing the positions listed below. Because the County Executive has responsibility for the bulk of county operations, this position should report to the County Executive."

The amendment preserves the reporting relationship while making the Office a stand alone department and specifying the Executive Committee as the standing committee with supervisory authority.
