EXPLANATION			ACTION				
<p>These site radios will greatly increase site security and efficiency. The initial plan was to use basic handheld and equipment-mounted radios with no repeater. Engineers from two different radio suppliers visited the site and tested their equipment. The landfill hill blocks the signal from reaching the active area of the landfill without a repeater. There are additional costs to install a repeater, its electric service, and its grounding wire at the top of the landfill hill.</p>			Dept/Committee	Date	Approved	Denied
