- Dairies
- Factories
- Hospitals
- Homes
- Laundries
- Mobile Home Parks
- Motels and Hotels
- Nursing and Rest Homes
- Office Buildings
- Restaurants
- Schools

High Efficiency System

The H125 HE water conditioning system uses a custom electronic package coupled with a proprietary resin to achieve hardness removal capacities up to 5400 grains per pound of salt consumed. This translates to a 40-60% savings over traditional configured regeneration systems.
